SUPER 4WD NATURAL.

LIBERTY'S POWERTRAIN PUTS LESS-CAPABLE RIVALS TO SHAME, GIVING YOU THE FREEDOM TO MASTER THE EARTH'S TERRAIN IN ANY KIND OF WEATHER. YOU ARE HANDED THE CONFIDENCE TO BOLDLY GO WHERE OTHERS MAY FEAR TO TREAD, THANKS TO THE LEGENDARY AVAILABLE TRAIL RATED® JEEP® BRAND ENGINEERING, INFUSED INTO THE DNA OF THESE MASTERFUL, UTTERLY FORMIDABLE MACHINES.

SELEC-TRAC® II

Selec-Trac II puts you in charge of active and full-time 4WD traction control. This system constantly adjusts to road conditions to produce optimum grip on the surface below. Should traction loss occur, more torque is automatically sent to the tires with the most hold on the road. Available.

COMMAND-TRAC® II

For smooth, shift-on-the-fly 4WD capability, choose Command-Trac II. Its part-time functionality allows you to drive in 2WD High during normal road conditions, with power directed to the rear wheels. By selecting 4WD LOCK via the console-mounted switch, a 50 front/50 rear torque split occurs, providing better traction on slippery surfaces. Available.

3.7L SOHC V6 ENGINE

Liberty's standard power plant produces a robust 210 hp and 235 lb-ft of torque at 4,000 rpm. It provides a generous dose of power at the engine's low end, helping to generate strong take-off power. It all adds up to enough brawny power to tow up to 5,000 lb when properly equipped. Standard.

HILL START ASSIST (HSA) HILL DESCENT CONTROL (HDC)

HSA works to prevent Liberty from rolling away when starting the vehicle on an up- or downhill gradient, holding the vehicle stationary for two seconds to allow time to apply the throttle. Standard. HDC helps Liberty navigate steep declines at a steady speed. Available with automatic transmission.

SKID PLATE GROUP

Head out on the trail with the assurance that your Trail Rated Liberty 4x4 is secure. The Skid Plate Group provides protection for your fuel tank and transfer case and also includes front suspension skid plates, transmission skid plate, and tow hooks. Available.

TRAIL RATED

Keep moving forward no matter what lies ahead. Jeep 4x4s earn Trail Rated status by performing to rigorous standards in five performance categories: Articulation, Traction, Maneuverability, Ground Clearance, and Water Fording^{(1)*} Confidence to Go Anywhere, Do Anything[®] is born and bred into every Jeep brand transfer case.

GUARDIAN HERO.

HEAD OUT WITH CONFIDENCE, KNOWING LIBERTY'S ROBUST SET OF SAFETY AND SECURITY SYSTEMS CAN GIVE YOU AND YOUR PASSENGERS PEACE OF MIND ON THE ROAD AND ON THE TRAIL. ACCIDENT AVOIDANCE SYSTEMS ARE STANDARD, LIKE AN ANTILOCK BRAKE SYSTEM, ALL-SPEED TRACTION CONTROL, AND A BRAKE ASSIST SYSTEM, EACH HELPING YOU TO KEEP MOVING SAFELY FORWARD.

AIR BAG SYSTEMS.⁽²⁾ You and your passengers gain all-around security with Liberty's side-curtain and advanced multistage driver and front-passenger air bags. Supplemental side-curtain air bags with roll-sensing technology add to the safety of outboard occupants. An Occupant Classification System (OCS) provides additional peace of mind. Standard.

ELECTRONIC STABILITY CONTROL (ESC).⁽³⁾ A vehicle-wide network of safety sensors provides instant aid when it detects that you're veering off your intended path. ESC integrates a four-wheel antilock brake system (ABS), all-speed traction control, a Brake Assist system that automatically helps provide quicker braking power in emergency situations, a Brake-Lock Differential that enhances side-to-side traction control, and Electronic Roll Mitigation (ERM) that can apply appropriate braking to necessary wheels when sharp steering actions and/or impending wheel lift is detected. Standard.

PARKSENSE® REAR PARK ASSIST SYSTEM.⁽⁴⁾ Shift into Reverse and back out with more confidence. This system helps bring previously hidden rear objects to your attention with an audible and visual warning. Available.

FRONT SEAT ACTIVE HEAD RESTRAINTS.⁽⁵⁾ Helps stave off neck injuries. Restraints automatically react and deploy to help provide protection during rear-impact collisions. Standard.

HALOGEN HEADLAMPS. These bright sources of light improve down-road visibility at night or during inclement weather. Fog lamps are standard on Limited Jet and Limited. Standard.

TRAILER SWAY CONTROL (TSC).⁽³⁾ Helps to manage the tow load behind you. It works in tandem with ESC to help improve handling during adverse conditions caused by high crosswinds or traffic. When the system's sensors detect an unsafe towing situation, selective brake pressure is applied on alternating sides of the tow vehicle to help reduce the sway. Available.

TIRE PRESSURE WARNING LAMP. Provides notification of high or low pressure on individual tires via an instrument panel readout. The warning lamp is standard and a Tire Pressure Monitoring Display is available.

SENTRY KEY® ANTITHEFT ENGINE IMMOBILIZER. Security comes in the form of this advanced system that makes it virtually impossible to drive without a valid key. Standard.
