

2008 HYUNDAI VERACRUZ

Compare it.

Discover it.

Test it.

Experience it.

Consider it.

Look at it.

Study it.

Explore it.

Challenge it.

Think About It

THE TRUTH IS, finding a car that's right for you isn't that easy. You've got cars that over promise and under deliver. Cars that assume you've won the lottery and desperately want to part with the proceeds. And value-priced cars that, unfortunately, drive that way.

Fortunately, there is one company that understands and embraces the concept of what people really want in a car. That company is Hyundai.

We make smart cars for smart people. Cars that routinely get 5-star crash test ratings. Cars where the number of safety features takes precedence over the number of cupholders. And cars that put quality exactly where it belongs—first and foremost.

We also believe in a warranty that lasts twice as long as the average car loan. Not to mention the average car warranty.

We steadfastly adhere to the proposition that premium amenities are not to be reserved exclusively for the wealthy. That beautiful design shouldn't necessitate a second mortgage. And that stimulating performance and handling needn't come from engineers with names like Hans and Giuseppe.

In other words, we believe in cars that don't insult your intelligence, but rather, respect it.

The Hyundai that's put Lexus on notice. It's curvaceous. Spacious. Luxurious. And you can get it with nearly every last amenity you might find in the most upscale of upscale crossover utility vehicles. Rain-sensing wipers. XM® Radio. Backup warning system. Rear DVD entertainment. It's our most luxurious vehicle yet, and it's bent on redefining the category.

Now that we've whetted your appetite, feel free to turn the page and get better acquainted.

— *Expect More* —

**WANT A SHORTER WARRANTY,
FEWER STANDARD FEATURES
AND A LOUDER CABIN? JUST
ASK FOR A LEXUS.**

SOME MIGHT FIND that hard to believe, but it's true. And what's more, you can have the unprecedented combination of styling, safety, comfort and power the Veracruz offers for about ten grand less than a Lexus RX350. All while enjoying more cargo room than the Mercedes-Benz GL450. When it comes to features, amenities and performance, a fancy nameplate isn't always guaranteed to give you the bigger bang.

COMFORT. IT'S WHAT THE VERACRUZ DOES BEST. Consider its supple heated leather front seats, intuitive ergonomics and a thoughtful lighting design that provides every row with illumination. Interior storage is abundant throughout, with an ingenious tool storage bin in the back and a cooled center console. Dual automatic climate control in front and standard rear-seat controls ensure everyone feels right at home, no matter how far your travels take you.

————— *Audio Sophistication* —————

THE VERACRUZ SOUND GOOD SO FAR? YOU HAVEN'T HEARD ANYTHING YET.

MANY THINGS IN LIFE SOUND TOO GOOD TO BE TRUE. We're proud to usher in the long-awaited respite from such thoughts. And speaking of sound, the Veracruz comes with XM® Radio, standard, giving you access to more than 170 channels of digitally broadcast entertainment. Not to mention a complimentary 3-month subscription to go along with it! That means you'll enjoy everything from exclusive programming like "Theme Time Radio Hour with Your Host Bob Dylan" to Major League Baseball® play-by-play for every game. You can even find stand-up comedy. Basically, almost any type of entertainment you can imagine is available. XM gives you and your passengers continuous, crystal-clear music, news, sports, traffic and more. Coast to coast.

*See specifications section for subscription details. Infinity is a registered trademark of Harman International, Inc.

MORE THAN 170 CHANNELS OF DIGITAL ENTERTAINMENT

IN-DASH 6-DISC CD CHANGER

No more fumbling for your CDs while on the road, or having to stop the car and open the trunk. Keep hours of your favorite music at your fingertips with this convenient in-dash 6-disc changer.

INFINITY SURROUND SOUND

The Infinity® Logic 7® Surround Sound system comes complete with an external 605-watt amplifier and 10 speakers including a subwoofer. Introduce your ears to the sweet sounds of luxury.

SPEED-SENSING VOLUME CONTROL

This feature automatically adjusts the volume of the audio system to compensate for changes in road noise at different speeds. Just don't use your accelerator as a volume control.

LIMITED IN BEIGE LEATHER

LIMITED IN BLACK/SADDLE LEATHER

REAR DVD ENTERTAINMENT SYSTEM

Featuring an 8-inch LCD screen with remote control and wireless headphones, this roof-mounted entertainment system will make road trips seem shorter than ever.

115-VOLT OUTLET

Compatible with standard household items, this feature may just turn out to be your favorite. Use it for anything from your electric shaver to powering a TV for a tailgate party.

INTEGRATED MEMORY SYSTEM

This advanced system saves and recalls your favorite power mirror, seat and steering wheel settings, all at the push of a button. So, feel free to let the valet drive it. Or not.

2ND-ROW MULTI-PURPOSE CONSOLE

Passengers in the second row have controls for air conditioning and the DVD player located in an attractive and functional center console, all within easy reach.

BLUETOOTH® WIRELESS TECHNOLOGY

Located in the upper console, this hands-free phone system features a built-in microphone and speaker for perfect clarity, and several unique cell phones can be recognized.¹

COMFORT

The Veracruz always wraps you in plush surroundings. From heated front seats to power-adjustable foot pedals, we've overlooked nothing in pursuit of your bliss.

DUAL AUTOMATIC CLIMATE CONTROL

The driver and front passenger can set the precise temperatures they want, and the Veracruz automatically adjusts airflow and temperature to keep everyone comfortable.

ELECTROCHROMIC REARVIEW MIRROR

This mirror automatically dims when bright headlights appear behind you. And the HomeLink® integrated transceiver can control the garage door, front gate and more.

COLD STORAGE

Located in the center console between the driver and front passenger seat, the cold storage container keeps drinks or snacks cool when you're on the road.

Effortless Navigation

FEEL LIKE A LOCAL, NO MATTER WHERE YOU ARE.

FACT IS, IN THE VERACRUZ, YOU'LL NEVER HAVE TO ASK anyone for directions again. Its impressive GPS navigation system¹ leads you with precision and accuracy along most U.S. and Canadian roads. Simply enter the address or intersection of your intended destination using the intuitive controls, and a pleasant voice will guide you turn-by-turn to your destination. It can even offer numerous route options, for example if you prefer to avoid highways or just want to find the fastest way there. Now that you've found your way to a new neighborhood, what if you need to get some cash? Or want a bite to eat? In that case, this advanced DVD-based system has a search function to locate nearby restaurants, banks, hotels and other points of interest. Because even when the journey is the destination, you still might want to stop and get a souvenir.

BRIGHT SCREEN, BIG CITY

The system's bright 6.5-inch full-color touchscreen lets you clearly see your route, while convenient turn-by-turn voice prompts allow you to easily navigate without taking your eyes off the road.

A QUICK LESSON IN GPS

A constellation of 31 satellites orbiting the earth makes GPS navigation possible. A receiver on your Veracruz uses the relative location of these satellites to calculate your vehicle's position, while a flash memory card stores the map information.

ADDRESS BOOK MEMORY

The Veracruz's navigation system features an integrated address book, capable of holding up to 125 destinations, including recently visited addresses, marked points, and favorite destinations such as your home or your office.

¹Later availability

Prepare To Be Moved

THE CROSSOVER UTILITY VEHICLE THAT WEARS CUFF LINKS. AND RACING GLOVES.

GOOD THING THE VERACRUZ HAS SUCH PLUSH SEATS, because you'll be pressed into them when you step on the gas. Equipped with a powerful 3.8-liter V6 engine and Continuously Variable Valve Timing, it churns out exceptional horsepower and some serious torque. Add in All Wheel Drive, a fully independent suspension and front and rear stabilizer bars, and you've got performance and handling that feel at home whether navigating your favorite switchback or cruising down Main Street.

6-SPEED ADAPTIVE TRANSMISSION

The Veracruz redefines smooth with its 6-speed adaptive transmission. And for the ultimate control in gear selection, choose SHIFTRONIC® mode for effortless manual shifting.

V6 POWER

A 3.8-liter V6 gleefully pumps out 260 horsepower and 257 lb.-ft. of torque. Even with this spirited acceleration, the Veracruz has low noise, vibration and harshness. Imagine that.

ALL WHEEL DRIVE

On-demand All Wheel Drive uses intelligent torque-controlled coupling, which helps you to easily control the path of the Veracruz, even when you can't control the road conditions.

LIMITED IN BLACK DIAMOND

— *Active Safety* —

IT TAKES A GENIUS TO COME UP WITH ELECTRONIC STABILITY CONTROL.

IT DOESN'T TAKE ONE TO REALIZE IT SHOULD BE STANDARD. A sudden snowstorm. A stalled car appears out of nowhere in the middle of the road. Emergency situations can occur in a fraction of a second, and when they do, you want your car to respond dynamically and intelligently to your steering and braking input. Basically, you want Electronic Stability Control (ESC)! This advanced system monitors wheel speed, steering angle, yaw and lateral g-forces while the vehicle is moving. When it senses a skid is imminent, it responds immediately, applying the appropriate amount of braking to individual wheels and adjusting throttle input. This helps to keep you on your intended path. The technology has proven so effective that the NHTSA estimates up to 67% of single-vehicle SUV accidents could be avoided on vehicles equipped with ESC.

HOW IT WORKS

An advanced, electronically-controlled system reads data from sensors throughout the vehicle. Input is relayed to a sophisticated computer and is processed using proven algorithms. This enables ESC to react instantaneously to input from you and the road. According to the IIHS, if every carmaker equipped their cars with this technology, as many as 10,000 fatal crashes could be avoided in a year.

SE IN BLUE TITANIUM

TRACTION CONTROL SYSTEM

Wet pavement may have met its match. The Veracruz's advanced Traction Control System senses unexpected wheelspin while accelerating, and automatically applies the appropriate combination of brakes and throttle to route power to the tire with the most traction. So while you may not be able to control road conditions, TCS helps you maintain control of your vehicle!

IF YOU CREATED YOUR OWN CAR COMPANY, you wouldn't make safety an option. Neither would we. So before you load the Veracruz full of passengers, we've already filled it with cutting-edge active safety features that work dynamically, with input from you and the road, to help prevent an accident. Which is why the Veracruz is an ideal choice to help protect you, your passengers and your peace of mind. Just like you'd expect from your own car company.

ANTI-LOCK BRAKING SYSTEM

Unfortunately, wet roads and sudden stops are still a part of driving. That's where our Anti-lock Braking System enters the picture. ABS prevents wheel lock-up and helps maintain steering control, even during emergency braking situations, by rapidly pulsing the brakes. So you can control steering to successfully maneuver around objects ahead of you.

ELECTRONIC BRAKE-FORCE DISTRIBUTION

You never know where you'll be when you need to stop quickly—from a dirt road to a major thoroughfare. So EBD uses a network of sensors to provide the appropriate braking pressure at each wheel based on load dynamics, road condition and speed to help deliver maximum braking performance.

BRAKE ASSIST

Statistics show that drivers frequently don't brake forcefully enough in an emergency situation. Brake Assist actually senses when you are in a panic stop and immediately applies the maximum braking pressure to help you stop in a shorter distance. Because sometimes, a few extra feet can make all the difference.

NHTSA 5-STAR CRASH RATING

Veracruz has received the U.S. government's highest crash rating of 5 stars for both front- and side-impact collisions.¹

ON TOP OF OUR ACTIVE SAFETY FEATURES, the Veracruz is equipped with a host of standard passive safety features as well. Because we take the task of keeping you and your passengers safe just as seriously as you do. From an advanced airbag system to rear child-seat anchors, our commitment to safety is clear in every detail. So, should an accident occur, you can rest assured that you're surrounded by safety engineering and features that are proven to help minimize the effects of it.

¹Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 2007 model tested with standard side-impact airbags (SABs).

Passive Safety

SIX AIRBAGS

When it comes to airbags, there truly is safety in numbers. So we gave the Veracruz six of them. Our advanced dual front airbags with an Occupant Classification System, front seat-mounted side-impact airbags and roof-mounted side-curtain airbags¹ play a big part in Veracruz's NHTSA 5-star crash rating. Not to mention the peace of mind you feel while driving down the road.

SE IN GRAY LEATHER

¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.

Passive Safety

TIRE PRESSURE MONITORING SYSTEM

Each of the Veracruz's wheels is equipped with an air-pressure sensor located at the valve stem. In the event that any tire reaches a specified low air pressure, a warning light will alert you as to which tire is low. TPMS helps with long-term automotive maintenance and is a useful safety feature that can help prevent dangerous situations caused by driving on a deflated tire.¹

SEATBELT PRETENSIONERS

These tighten safety belts in certain accidents to reduce the front occupants' forward movement. Then, force limiters release slack, which limits load across the body to help minimize injury.

ACTIVE FRONT HEAD RESTRAINTS

Whiplash is one of the most common injuries in a rear collision. With this feature, the head restraint moves forward and up, which reduces the likelihood of neck injury.

CHILD-SEAT ANCHORS

The Veracruz is outfitted with the LATCH child-seat-attachment system. This feature is integrated into the 2nd-row outboard seats to make proper installation of child seats easier.²

ENERGY-ABSORBING STEERING COLUMN

An NHTSA report confirms that an energy-absorbing steering column, which collapses away from the driver in the event of a frontal collision, is a vital safety feature.

STRUCTURAL INTEGRITY

You wouldn't build a house on a shaky foundation. Same goes for cars. We built the Veracruz with a reinforced unibody construction of high-tensile steel to effectively absorb collision energy. We also engineered it with rear crumple zones, bodyside reinforcements and hood-buckling creases to help protect you in an impact from any direction.

¹TPMS is not a substitute for proper maintenance. See Owner's Manual for details. ²Child Safety Restraint System designs vary. Always consult instructions provided by manufacturer before installing.

What Is Style?

THERE'S A WHOLE CITY OF HEADS TO TURN. BETTER GET STARTED.

WHETHER YOU'RE A DRIVER, PASSENGER OR PASSERBY, there are plenty of good looks to go around. Sleek body. Glamorous nose. Confident stance. The Veracruz is decked out with style and lines that are sure to ruffle the feathers of the so-called automotive elite. We just love doing that.

LIMITED IN DARK BRONZE AND SATIN BEIGE

IT'S DIFFICULT TO PREDICT THE FUTURE. UNLESS YOU HAPPEN TO BE DESIGNING IT.

AT FACTORIES, DESIGN CENTERS AND R&D FACILITIES AROUND THE WORLD, Hyundai is hard at work developing the technologies that will carry you down the road more safely, more reliably, more efficiently and more stylishly than ever before. From next-generation car concepts that incorporate the most advanced safety technologies while pushing the boundaries of design, to groundbreaking fuel-cell technology that lowers emissions and increases fuel economy, we never stop advancing the automotive art.

ISO/TS 16949=A BETTER-MADE CAR

Our manufacturing plant in Alabama represents the height of automotive excellence. It's certified to the International Automotive Task Force's highest automotive operating standard in the world, the ISO/TS 16949. And it's also first in the U.S. to achieve this honor. The reason? Two years of improving quality processes and streamlining supply chains. Because quality vehicles start with quality manufacturing.

IT TAKES A WORLD OF PEOPLE TO MAKE A HYUNDAI. From our R&D Center in South Korea, where we conduct predesign studies, prototyping, full-scale aerodynamics analysis, crash testing and test driving. To Alabama and our \$1.1 billion state-of-the-art manufacturing plant. To Michigan and our engineering center. To our Southern California design facility, where we utilize the world's most advanced visualization, graphics and clay-modeling technologies. To our environmental technology research center in Seoul. Together, these facilities ensure that every vehicle we build is at the forefront of automotive technology.

WE'RE VERY HANDS ON

We hand check nuts, bolts, cables, wiring and power components before any Hyundai leaves the plant. Then every vehicle is road tested to eliminate squeaks and rattles that can't be detected on the factory floor.

PERFECTION IS OUR OBSESSION

For example, this door hinge used to look a little different. But our engineers noticed that the old design was adding a minute amount of wind noise to the vehicle. So they redesigned it. Now it adds none at all.

MEET OUR QUALITY INSPECTOR

An army of 250 robots, equipped with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit. This ensures tight seams and seals, as well as perfect alignment.

WE TREAT OUR BODIES LIKE TEMPLES

Prior to painting, the body of each Hyundai is electrically charged, then immersed in a primer bath with an opposite charge. This ensures even hidden surfaces are completely coated for incredible corrosion resistance.

YOU CAN NEVER BE TOO SAFE

Our vehicles' excellent safety ratings are the result of thousands of hours of simulations in state-of-the-art safety testing facilities. Is destroying millions of dollars worth of automobiles worth it? Absolutely.

PROVEN BEFORE IT'S DRIVEN

At our California Proving Grounds, every new design is tested in real-world situations. This includes a 6.4-mile track to evaluate engine and road noise, and a 3.3-mile road course that simulates America's highways.

00002.3

THE MYSTERIOUS 2.3 MILES

Every new Hyundai that comes out of our Alabama plant has 2.3 miles on the odometer. That's because each one is road tested on our test track to ensure every vehicle is working perfectly.

TESTED TO THE EXTREMES

From the scorching heat of Death Valley, Calif, to the frozen tundra of central Canada, our cars are tested in the most extreme conditions. This ensures their performance never wavers, no matter what life throws your way.

“Through its Hope On Wheels program, Hyundai is improving the quality of life for children with cancer.”

—David G. Poplack, MD, Director, Texas Children’s Cancer Center

HOPE ON WHEELS

Every time you buy a Hyundai, you’re helping someone in desperate need. That’s because a portion of the proceeds from every vehicle we sell is donated to help fight pediatric cancer, a disease that is diagnosed in more than 12,000 children in the U.S. every year, and is the leading disease-related cause of death in children. Since 1998, Hyundai and its dealers have donated over \$9 million to more than 70 different pediatric cancer research programs. We not only provide funding but donate vehicles as well, and partner with local community groups to help them raise awareness.

For more information, visit hopeonwheels.com.

Hyundai Hope On Wheels™
Helping kids fight cancer

America's Best Warranty

A FIVE-YEAR WARRANTY SAYS A LOT ABOUT THE CAR. A TEN-YEAR WARRANTY SAYS A LOT ABOUT THE CAR COMPANY.

IT SAYS THAT WE STAND BEHIND OUR VEHICLES with a warranty matched by no other automaker in the country.¹ It says your new Hyundai's powertrain may be covered until the year 2018. (Just think about that for a minute.) But above all, it says that we build a vehicle that you can rely on. That as a company, we're committed to your satisfaction, long after you leave the dealership and your car is bought and paid for. And that's as refreshing now as it will be in a decade.

STANDARD FEATURES INCLUDE:

- 3.8-liter, 24-valve V6 engine with Continuously Variable Valve Timing
- Adaptive 6-speed automatic transmission with SHIFTRONIC®
- Electronic Stability Control
- Traction Control System
- 4-wheel Anti-lock Braking System, Electronic Brake-force Distribution, Brake Assist
- 17-inch, 5-split-spoke alloy wheels
- Tire Pressure Monitoring System
- Advanced dual front airbags with Occupant Classification System, front side-impact airbags, front and rear side-curtain airbags
- Active front head restraints
- Dual heated power side mirrors with approach lights and turn signals
- Hyundai Hideaway™ 3rd-row seats
- Air conditioning with cabin air filter and outside temperature display
- All-row ventilation and 2nd-row auxiliary temperature control
- Power windows with driver's auto-down/up and pinch protection
- Premium seat cloth
- AM/FM/CD/MP3 six-speaker audio system
- XM® Satellite Radio¹
- Steering-wheel-mounted audio and cruise control
- Tilt-and-telescopic steering wheel
- Remote keyless entry system with alarm

OPTIONAL GLS PACKAGE:

- Premium Package: Power tilt-and-slide sunroof, power driver seat and lumbar support, heated front seats, leather-wrapped steering wheel and shift knob, backup warning system

SE

INCLUDES ALL STANDARD GLS FEATURES PLUS:

- 18-inch, 5-spoke alloy wheels
- Automatic headlights
- Front fog lights
- 8-way power driver seat and lumbar support
- Leather-wrapped steering wheel and shift knob
- Electrochromic auto-dimming rearview mirror with compass
- HomeLink® integrated transceiver
- Electrochromic auto-dimming side mirrors
- Cooled center console storage
- Roof side rails

OPTIONAL SE PACKAGES:

- Premium & Leather Package: Leather seating surfaces, power tailgate, power tilt-and-slide sunroof, heated front seats, 314-watt Infinity® audio system, backup warning system, 115-volt power outlet
- Entertainment Package: Premium & Leather Package, rear DVD entertainment system, 605-watt Infinity Logic 7® Surround Sound audio system, conversation mirror

LIMITED

INCLUDES ALL STANDARD SE FEATURES PLUS:

- Leather seating surfaces
- Heated front seats
- 4-way power front passenger seat
- Dual front automatic climate control
- Air Quality System
- 314-watt Infinity eight-speaker audio with in-dash 6-disc CD/MP3 changer, external amplifier and subwoofer
- Power tilt-and-telescopic steering wheel
- Power-adjustable foot pedals
- Integrated Memory System
- Proximity key
- Anti-theft system with engine immobilizer
- Power tilt-and-slide sunroof
- Power tailgate
- Backup warning system
- Rain-sensing windshield wipers
- Windshield wiper de-icer
- 115-volt power outlet
- Conversation mirror
- Lighted door scuff plates
- Chrome door and tailgate handles
- "Limited" badging

OPTIONAL LIMITED PACKAGES:

- Navigation Package: LG® in-dash DVD navigation system²,³ 605-watt Infinity Logic 7 Surround Sound audio system
- Rear Seat Entertainment Package: Rear DVD entertainment system, 605-watt Infinity Logic 7 Surround Sound audio system
