THE 2011 LX

The LX gives you virtually everything you could want in a rugged off-road vehicle—without making you feel like you're actually driving one. The spacious interior surrounds you with the finest amenities, while available technologies like Crawl Control,¹ Active Height Control (X-AHC) and full-time four-wheel drive help you take on more challenging terrain. Clearly, this is no ordinary vehicle of utility. This is the Lexus LX. Power on.

THIS IS
THE DRIVER
EMPOWERED.

LEAVE IT ALL BEHIND WHILE TAKING IT ALL WITH YOU.

Sometimes you just need to get away. But that doesn't mean you have to make sacrifices. The LX offers an array of indulgences to help keep you and your passengers comfortable and content. So much so, you might even say the LX is a destination in itself.

Optional equipment shown.

NATURAL BEAUTY ISN'T EXCLUSIVE TO THE GREAT OUTDOORS.

The LX is tough enough for rocks, mud and sand, but its interior appointments may lead you to think otherwise. Consider the available semi-aniline perforated leather-trimmed seats, stitched so precisely not a wrinkle shows when the front seat cushions are adjusted. They're available in two shades, Black and Cashmere, each chosen to perfectly complement the exterior colors of the LX. A Golden Bird's-Eye Maple wood trim is standard. Or if you prefer an even more exclusive feel, opt for the exotic African bubinga. No, this isn't roughing it. It's something much more inviting.

WHEN IT COMES TO THE
PERFECT TEMPERATURE,
EVERYONE HAS A DIFFERENT TAKE.

68°

71°

74°

67°

To help prevent any heated debates about the interior climate of the LX, we divided the cabin into four individual zones, allowing those in each area to set their desired temperatures. The front seats are also available with individual heating and cooling systems. And for your passengers, you can opt for heated second-row seats. After all, if there's anything you should expect from a vehicle's luxury accommodations, it's the ability to accommodate.

Optional equipment shown.

DECIDEDLY INDECISIVE.

With the LX's versatile seating configurations, you'll be prepared for just about any scenario. The power-slide second-row seat offers a 40/20/40-split fold to accommodate a variety of items. A simple lever tumbles the seat forward and out of the way, providing even more cargo space.²

Additional versatility can be found in the standard power third-row seat. It splits 50/50. And by pressing a button on either side, each respective section can be stowed away, providing ample room for your favorite things.

Optional equipment shown.
See disclaimers on page 67.

THE BEST WAY
TO IMPROVE
A ROAD TRIP?

6 OF YOUR FAVORITE
PEOPLE.

A REAR DOOR THAT OPENS
AND CLOSES WITH THE SAME
AMOUNT OF EFFORT:
NONE.

The LX is designed to overcome virtually any obstacle with ease, including the opening and closing of its power rear door. Just press a button on your key fob and the power rear door gently rises to accept your cargo. Another touch of the button and the rear door gracefully closes. The door automatically lifts if the system detects something is in the way, and the tailgate can be lowered for even more convenient loading and unloading.

LEXUS ENFORM®

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the Lexus Enform^{3,4} system, you can speak to a live service agent 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the LX's navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.⁶ Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

SAFETY CONNECT™

DESIGNED TO HELP SAFEGUARD YOUR LIFE.

With Safety Connect^{3,5} help can be on its way at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance⁷ for a flat tire. The Safety Connect^{3,5} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁸ have been deployed.

THE LATEST ADVANCEMENT IN VOICE RECOGNITION:

THE ABILITY TO JUST SPEAK NATURALLY.

The human voice is a powerful thing, especially when you consider what it can do with the LX Navigation System.⁶ Commands are more intuitive. So if you want to find the nearest gas station from the destination menu, you simply say, "Find the nearest gas station," and the navigation screen displays locations in your immediate vicinity. Once a destination is selected, up to three different routes are provided, along with audible and visual directions.

The voice-command system can even be used with compatible *Bluetooth*^{®9} enabled cell phones. Say, "Call Jennifer at work" or "Let's call 310-555-1212," and moments later she's on the line.

The voice-command system is also integrated with a range of available XM Radio^{6,10} services, including XM NavTraffic^{®6,10} for real-time traffic reports and XM NavWeather^{™6,10} for real-time weather reports, not to mention XM Sports and Stocks.^{6,10} To find out more about XM Radio,^{6,10} please visit www.lexus.com/xmradio.

LOOK THREE WAYS BEFORE CROSSING THE STREET.

The available Wide-view Front and Side Monitor system¹¹ uses a grille-mounted camera to help enhance visibility of what's just around the corner.

The system also includes a camera under the passenger side-mirror for greater visibility in narrow passages and while parking.

When the LX is placed in reverse, the standard backup camera¹² mounted above the rear license plate helps provide a view of what's behind. For added peace of mind, opt for the available Intuitive Parking Assist, which can warn you, visually and audibly, when the LX gets too close to surrounding objects.

SAFETY

SPECS

WHEN THE ROAD THROWS YOU A CURVE, MAKE SURE IT'S PROPERLY ILLUMINATED.

At speeds above 6 mph, the Dual-swivel Adaptive Front Lighting System (AFS)¹³ rotates the headlamps to help illuminate curves ahead. Depending on steering input, the headlamps can swivel up to 9 degrees in a left turn and up to 4 degrees in a right turn.

Daytime running lights help make the LX more visible to oncoming motorists. And automatic headlamp washers can be set to deploy when you use the front windshield wipers.

A CRUISE-CONTROL SYSTEM THAT PRACTICES COMMON COURTESY.

To help ensure the LX doesn't get too close to the vehicle traveling ahead, the available Dynamic Radar Cruise Control¹⁴ system adjusts the throttle and applies the brakes whenever necessary, helping to maintain a pre-set following distance. Once the lane appears clear, the LX resumes its pre-set cruising speed.

TO SEE HOW WELL THE AUDIO SYSTEM PERFORMS, CLOSE YOUR EYES.

With 19 speakers and 7.1-channel architecture, the available Mark Levinson® Reference Surround Sound Audio System¹⁵ provides such clarity when playing audio DVDs that listeners may actually sense the spatial position of each instrument at play. It's all thanks to a technology called digital sound imaging, and it's just part of what makes this audio system so unique.

More partial to films than recorded music? This technology also works with the available DVD Rear-Seat Entertainment System (RSES), creating the kind of surround-sound experience you'd only expect in high-end home theaters.

SPECS

A FEATURE RARELY FOUND IN AN OFF-ROAD VEHICLE: ABILITY ON THE ROAD.

You might expect the LX to perform exceptionally well over rocks and up steep grades, but it's also engineered to handle those winding coastline highways.

Adaptive Variable Suspension (AVS) continually adjusts the shock absorber stiffness to help provide the most appropriate ride comfort and handling precision. At the same time, Variable Gear-Ratio Steering (VGRS) helps ensure more controlled steering response at highway speeds and reduces the steering effort required during parking-lot speeds for easier maneuvering.

Finally, the TORSEN® torque-sensing limited-slip center differential¹⁹ allows the LX to efficiently distribute engine power between the front and rear axles, helping to ensure proper torque distribution and enhance vehicle control.

383 HORSEPOWER¹⁷ IN FRONT:
JUST ONE REASON IT CAN HANDLE
7,000 POUNDS^{20,21} IN BACK.

With a 5.7-liter V8 engine mated to a six-speed sequential-shift transmission, the LX churns out an impressive 403 lb-ft of torque¹⁷ – 90% of which is available at a low 2,200 RPM. It all adds up to incredible power, so you can comfortably haul all kinds of things, from a 26-foot sportboat to a two-horse trailer.

WHEN YOUR VEHICLE CAN DO THIS, ASPHALT IS A CAKEWALK.

The Crawl Control¹ system can automatically maintain a low and steady speed on difficult off-road terrain, leaving you free to concentrate on another important task: steering the LX.

See disclaimers on page 67.

UNSURE HOW TO ADJUST THE VEHICLE'S HEIGHT TO THE TERRAIN? HAVE THE LX DO IT FOR YOU.

When you're faced with the seemingly impassable, the only thing better than a vehicle that can make it over obstacles is one that can make it easy. Case in point, systems like Active Height Control (X-AHC) and Adaptive Variable Suspension (AVS). By increasing wheel articulation off-road and adjusting the vehicle's height to the current driving conditions, the two systems work together to help provide better ground clearance and a more secure foundation, whether you're on or off the road.

- 1 When you've reached the end of your drive, the LX can adjust to its lowest position for easier entering and exiting.
- 2 To help improve aerodynamics at higher speeds, the LX can reduce its height by 0.8 inches in front and 0.6 inches in back.²²
- 3 When the 4WD shifts into low range, the vehicle is raised 2.0 inches in front and 2.4 inches in the rear for increased ground clearance.²²

Optional equipment shown.
See disclaimers on page 67.

CAN YOU SPOT THE PATCH OF ICE ON THE ROAD?
MORE IMPORTANTLY,
CAN YOUR VEHICLE?

The Multi-terrain Anti-lock Braking System (ABS) monitors things like engine output and acceleration rate and is designed to help determine the surface the LX is driving on—be it snow, ice, gravel or sand. It then selects the most suitable brake application for the current driving situation, helping to achieve shorter stopping distances on a variety of road surfaces.

SAFETY

SPECS

DESIGNED TO HELP
KEEP YOU FROM
LOSING TRACTION, NOT
TO MENTION YOUR
COOL.

The LX is as capable off-road as it is on. A TORSEN[®] torque-sensing limited-slip center differential¹⁹ allows the LX to efficiently distribute engine power between the front and rear axles. Together, the full-time 4WD and Active Traction Control (A-TRAC) help reduce tire spin. Power is distributed to the wheels with traction, helping you drive in slick and off-road conditions. To help minimize frustration even further, the center differential can be locked for maximum traction in difficult off-road situations.

IT CAN DELIVER A LOT OF POWER, INCLUDING THE POWER OF FORESIGHT.

The Pre-Collision System (PCS)²³ available on the LX features technology designed to help detect an imminent frontal collision. And by activating Brake Assist,²⁴ it can provide increased braking pressure the moment the driver steps on the brake pedal.

See disclaimers on page 67.

WHEN IT COMES TO YOUR SAFETY,
THERE'S NO SUCH THING AS
OVERDOING IT.

This 10 airbags⁸ Supplemental Restraint System (SRS), includes knee airbags⁸ for the driver and front passenger. The front passenger's seat is also equipped with an occupant classification system sensor designed to prevent airbag⁸ deployment if it determines the seat is unoccupied. In addition, seat-mounted side airbags⁸ help protect the torsos of the driver, front passenger and second-row outboard passengers in certain types of severe side impacts. Roll-Sensing Curtain Airbags (RSCA)⁸ are also included for the driver, front passenger and occupants in the second and third rows.

See disclaimers on page 67.

WE'RE CREATING INNOVATIONS EVERY DAY. STAY INFORMED OF THEM EVERY MONTH.

With so much innovative thinking at Lexus, it's hard to stay up-to-date. That's why we created the Lexus Pursuit newsletter. STANDARD LUXURY FEATURES

LUXURY AND CONVENIENCE

- SmartAccess^{32,33} with push-button Start/Stop
- Four-zone automatic climate control with interior air filter, smog sensor and automatic recirculation mode
- Lexus Memory System to control power driver's seat (except lumbar), outside mirrors and steering wheel
- Power tilt-and-telescopic steering column with automatic tilt-away
- Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade
- Power windows with one-touch auto open/close
- Remote-linked power window and moonroof opening
- Electrochromic (auto-dimming) inside rearview mirror and outside mirrors
- Auto on/off projector-beam halogen headlamps
- Adaptive Variable Suspension (AVS)
- Active Height Control (X-AHC)
- Roof rack with rails^{34,35}
- Cruise control
- Power tailgate closer
- Illuminated entry system
- HomeLink[®] universal transceiver to operate compatible garage, gate, home lighting and home security systems
- Lexus Personalized Settings (LPS) to customize select electronic functions³⁶
- Rear spoiler
- Dual-compartment center console with accessory power outlet
- Running boards with built-in courtesy lights
- Integrated tow hitch^{20,21}
- Privacy glass

SEATING AND TRIM

- Leather-trimmed interior
- Golden Bird's-Eye Maple interior trim
- Wood- and leather-trimmed steering wheel and shift knob
- 14-way driver's (including dual-function lumbar and cushion extender) and 12-way front passenger's (including lumbar) power seats
- Heated front seats
- Power-sliding, 60/40-split middle-row seat with 40/20/40-split seatback
- Power-folding, 50/50-split third-row seat

COMMUNICATION, AUDIO AND NAVIGATION

- Lexus Enform^{®3,4} with Safety Connect^{™3,5} offers Destination Assist, eDestination, Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance⁷ services. Subscription required. One-year trial subscription included
- HDD Navigation System⁶ including voice command, color LCD display with integrated backup camera¹² and Enhanced *Bluetooth*[®] technology⁹
- XM Radio,^{6,10} XM NavTraffic,^{®6,10} XM NavWeather^{™6,10} and XM Sports and Stocks.^{6,10} Subscription required. 90-day trial subscription included
- Lexus nine-speaker Premium Sound System with Digital Sound Processor, Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer
- USB audio input for iPod^{®37} integration with audio system
- Bluetooth* audio³⁸ profile for wireless integration of compatible music players with in-vehicle audio system

INSTRUMENTATION AND CONTROLS

- Steering-wheel-mounted controls
- Liquid-crystal multi-information console display
- Electroluminescent instrumentation

See disclaimers on page 67.

STANDARD SAFETY AND SECURITY FEATURES

ACTIVE SAFETY

- Vehicle Stability Control (VSC)³¹
- Four-wheel Active Traction Control (A-TRAC)
- Four-wheel ventilated power-assisted disc brakes
- Four-sensor, four-channel Multi-terrain Anti-lock Braking System (ABS)
- Brake Assist²⁴
- Electronic Brakeforce Distribution (EBD)
- Full-time four-wheel drive with TORSEN[®] limited-slip center differential¹⁹
- Crawl Control¹
- Manual-locking center differential
- Hill-start Assist Control (HAC)³⁹
- Variable Gear-Ratio Steering (VGRS)
- Dual-swivel Adaptive Front Lighting System (AFS)¹³
- Direct Tire Pressure Monitor System⁴⁰
- Rain-sensing intermittent windshield wipers with mist cycle and deicer
- Intermittent rear-window wiper with washer
- Headlamp washers
- Daytime running lights
- Integrated foglamps
- LED taillamps
- Rear-window defogger with auto-off timer
- Power-adjustable, auto-folding outside mirrors with defoggers, puddle lamps and auto tilt-down in reverse

PASSIVE SAFETY

- Driver's and front passenger's advanced airbag system (SRS)⁸
- Front seat-mounted side airbags (SRS)⁸
- Driver's and front passenger's knee airbags (SRS)⁸
- Middle-row seat-mounted side airbags (SRS)⁸
- Front-, middle- and third-row Roll-Sensing Curtain Airbags (RSCA) (SRS)⁸
- Active front headrests²⁵
- Collapsible steering column
- Three-point seatbelts for all seating positions
- Front seatbelt pre-tensioners and force limiters
- Seatbelt pre-tensioners for middle-row outboard seats
- Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for all passenger seating positions. Emergency Locking Retractor (ELR) only for driver's seat
- Height-adjustable front- and middle-row shoulder belt anchors
- Child Restraint Seat anchor brackets for middle row, outboard
- Highly rigid body structure with front and rear crumple zones
- Reinforced ladder-type frame
- Side-impact door beams
- Impact-dissipating upper interior trim

SECURITY

- Safety Connect^{™3,5} offers Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance⁷ services. Subscription required. One-year subscription included
- Vehicle theft-deterrent and engine-immobilizer system,³³ with in-key transponder

Climate-control front seats and heated middle-row seats

Heated steering wheel

[†]African bubinga is available with Luxury Package only.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the LX Warranty and Services Guide at your Lexus dealer for details.

1. The vehicle is designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or vehicle damage. Lexus encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. 2. Cargo and load capacity limited by weight and distribution. 3. Lexus Enform[®] and Safety Connect[™] are available. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform- and Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 4. Lexus Enform[®] premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. 5. The Safety Connect[™] services Automatic Collision Notification, Emergency Assistance and Stolen Vehicle Location will function in the United States, including Hawaii and Alaska, and in Canada. Enhanced Roadside Assistance will function in the United States (except for Hawaii) and in Canada. No Safety Connect services will function outside of the United States in countries other than Canada. 6. Availability and accuracy of the information provided by the Navigation System or any XM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Navigation updates available at additional cost. Please see your Navigation System Owner's Manual or contact XM for details. 7. Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. 8. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your Owner's Manual for further information/warnings. 9. Bluetooth[®] technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. 10. XM services require a subscription after trial period. Subscriptions governed by XM Customer Agreement available at xmradio.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-800-967-2346 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 11. The Wide-view Front and Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle, and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 12. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 13. The Adaptive Front Lighting System can help improve vision at night. However, conditions such as dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your Owner's Manual for details. 14. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important instructions and cautions. 15. Mark Levinson is a registered trademark of Harman International Industries, Inc. 16. Headphones are for passenger use only. Do not use while operating vehicle. 17. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 18. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 19. TORSEN[®] is a registered trademark of Zexel Torsen, Inc. 20. Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have any necessary additional equipment. If gross trailer weight is above 5,000 lb (2,268 kg), it is necessary to use a weight-distributing hitch with sufficient capacity. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle Owner's Manual. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment. 21. Please consult your Lexus dealer or Owner's Manual for towing and load specifications. 22. Measurement of vehicle in Active Height Control (X-AHC) Normal setting. 23. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information. 24. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 25. Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 26. 20-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. 27. F Sport Performance[™] Equipment are aftermarket parts and are not Genuine Lexus Parts and, therefore, may not be used in any application that requires the use of Genuine Lexus Parts. F Sport Equipment is warranted for 12 months from the date of installation or for the balance of the new-car warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. F Sport Equipment installed by anyone other than an authorized Lexus dealer is warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F Sport Equipment. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F Sport Equipment warranty, the new-vehicle warranty or both. 28. F Sport[™] is a trademark of Toyota Motor Corporation. All information presented herein is based on data available at time of printing and is subject to change without notice. F Sport Equipment is available exclusively through participating Lexus dealers. See dealers for more detailed information. 29. 22-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. 30. 2011 EPA-estimated ratings. Actual mileage will vary. 31. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. 32. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 33. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 34. Accessory roof rack with rails not recommended for luggage. 35. Roof rack capacity is 130 lb. Please see Owner's Manual for details. 36. For vehicles without available Navigation System, the Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for new vehicles for the first 12 months from the date the vehicle is sold. Vehicles with Navigation System allow the driver to change settings. Please see your Lexus dealer for more information. 37. iPod[®] is a registered trademark of Apple Inc. All rights reserved. 38. Bluetooth audio device must be enabled with A2DP and AVRCP. 39. HAC is designed to help minimize backward rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. 40. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your Owner's Manual for details. 41. To avoid interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with retention hooks (clips). This floor mat was designed specifically for use in this model and model year vehicle and SHOULD NOT be used in any other vehicle. 42. Currently only available pre-installed on select vehicles. Ask your Dealer Sales Consultant for vehicle application. 43. Continuous average power, all channels driven, at less than 0.1% THD; 20-20,000 Hz.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-Lexus (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
