

2016

GSF

INTRODUCING THE 2016 GSE

GSF

467-horsepower, anturally aspirated 5.0-liter V8 engine; eight-speed Sport Direct-Shift transmission with manual-mode torque converter lockup; Torque Vectoring Differential with Slalom, Track and Standard modes; Brembo® brakes³; and 19-inch alloy wheels⁴ by BBS. Rear-wheel drive.

EGGIRS DISTRIBUTION OF THE COURT OF THE COU

The challenge: Create the highest-performance Lexus sedan ever. One that doesn't just wear the coveted F badge, one that embodies it. The result: the first-ever GSF. With immense power, a race-ready cockpit and signature elements, including flared and vented fenders, unrelenting Brembo brakes with six-piston front calipers,³ and stacked quad-tip exhaust outlets, the GSF is pure F.

THE NEXT EXPRESSION OF F

F vehicles aren't merely built—they're honed. World-renowned for pushing the globe's best drivers to their limits, Fuji Speedway is more than ground zero for ultimate performance. It's a proving ground for Lexus. And that's only the beginning. Exhaustive testing, tuning and engineering continue at the most iconic and challenging tracks around the world, from Germany to the United States. These grueling development trials have forged the most dominating Lexus vehicles ever built, from the LFA supercar to the RC F GT3 racecar. And now, the GS F.

10 11

Whether tackling back-road switchbacks or devouring open miles on the highway, specialized manufacturing techniques, including high-strength adhesive bonding, laser brazing, and multi-spot and laser screw welding, allow the GS F to push the limits without compromising exceptional ride quality and drivability.

GS F shown in Ultra White.

STRENGTH IN NUMBERS

5.0 LITERS. EIGHT GEARS.

Engineering a performance vehicle that can carve through slalom courses as deftly as it dominates straightaways requires optimal balance. It was this commitment that led to innovative components, including lightweight titanium valves and high-strength, forged connecting rods. As well as a lightning-fast eight-speed Sport Direct-Shift transmission with downshift rev-matching. And, delivering invigoration for all the senses, its naturally aspirated 467-horsepower² V8 emits a throaty, specially tuned engine sound as it screams toward its impressive 7,300-rpm redline.

FASI FORWARD dirimmin.

ADVANCED TECHNOLOGY

In the lead even while parked, the driver-inspired cockpit features next-generation technology, including a race-ready gauge cluster and a high-

resolution 12.3-inch multimedia display with full-screen map views. Looking beyond the interior to the road ahead, Premium Triple-Beam LED headlamps with intelligent high beams⁵ are as striking as they are smart. Providing additional illumination when you need it most, and switching to low beams when they sense oncoming traffic, the headlamps on the GSF seamlessly blend

innovation with exhilaration.

12.3-INCH MULTIMEDIA DISPLAY

LEXUS SAFETY SYSTEM+

Lexus Safety System+ is among the most comprehensive safety systems ever offered on a Lexus. Featuring a Pre-Collision System⁷ with Pedestrian Detection,⁸ High-Speed Dynamic Radar Cruise Control,⁹ intelligent high-beam headlamps,⁵ and Lane Departure Alert¹⁰ with Steering Assist,¹⁰ this integrated suite of advanced technology is designed to help pave the way to a world with fewer collisions and better-informed drivers.

The GSF lets drivers see the bigger picture—the 12.3-inch high-resolution multimedia display. Providing immediate, simultaneous access to audio or climate controls and various systems including Navigation, 6 the display offers a full-screen map for added convenience.

ABOVE AND BEYOND

SPORT DIRECT-SHIFT PADDLE SHIFTERS

CUSTOMIZABLE GAUGE DISPLAY

Keeping up with the rapid revs is no small feat. That's why a digital tachometer was implemented in this race-ready gauge cluster. The easy-to-read, full-color LCD display allows you to quickly organize the data you need to help achieve optimum control. Customizable readouts include performance data such as drive mode, gear position, G-force, lap times and torque distribution. Additionally, this in-dash display offers multimedia linkage, providing access to incoming calls, current song titles and more.

For added control, paddle shifters allow the driver to communicate with the eight-speed Sport Direct-Shift automatic transmission to deliver split-second gear changes. When downshifting, the throttle is automatically blipped to match the engine speed as the lower gear engages. This not only allows for faster entrance and exit speeds through corners but also wails a 467-horsepower² symphony.

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform,¹¹ our suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect¹² offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you're involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle's GPS location.

SERVICE CONNECT

Our new Lexus Enform Service Connect¹³ offers remote access to information about your vehicle's status and maintenance needs. Easily accessed through Lexus Drivers.com or the My Lexus and Beyond mobile app, you can get information on everything from your vehicle's fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote¹⁴ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle's location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations¹¹ offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your Navigation System.⁶ Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The Lexus Enform App Suite¹¹ offers access to your favorite mobile applications through your vehicle's center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad^{®15} apps like FaceTime.^{®16} Learn more about these complimentary services at lexus.com/specialists.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the GSF Warranty and Services Guide at your Lexus dealer for details.

DISCLOSURES 1. Ultrasonic Blue Mica 2.0 available for an additional \$595. 2. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 3. High-friction brakes require periodic inspection and measurement as outlined in the Warranty and Services Guide. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. It is an inherent characteristic of materials and design of brake pads used in this high-performance brake system that brake noise/squeal may result. 4. 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. 5. Intelligent high-beams system operates at speeds above 21 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See Owner's Manual for details. 6. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See Navigation System Owner's Manual for details. 7. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See Owner's Manual for further information. 8. The Pedestrian Detection System, part of the Lexus Safety System+, is designed to detect the presence of a pedestrian ahead of the vehicle, to determine if impact with the pedestrian is imminent and to help reduce impact speed. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. See Owner's Manual for further information. 9. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See Owner's Manual for details. 10. Lane Departure Älert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner's Manual for more information. 11. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/enform for details. 12. Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. 13. Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. 14. Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & Owner's Manual. Data charges may apply Registration, app download are required. Must have active Safety Connect subscription. Annual fee required after 1-year trial. 15. iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. 16. FaceTime® is a registered trademark of Apple Inc. All rights reserved. 17. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 18. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 19. 2016 EPA-estimated ratings. Actual mileage will vary. 20. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 21. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Access fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 22. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. 23. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. 24. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. 25. Always drive safely, obey traffic laws and focus on the road while driving. Siri® is available only on iPhone® 4s or later, iPad® with Retina® display, iPad® mini, & iPod® touch (5th generation) and requires Internet access. Siri® is not available in all languages or all areas, and features vary by area. Some Siri® functionality and commands are not accessible in the vehicle. Data charges may apply. See Apple.com & phone carrier for details. 26. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio[™] and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **27.** Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see Owner's Manual. 28. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations of the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations of the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations of the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. The rear limitations of the Rear Cross-Traffic Alert system and the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm the Rear Cross-Traffic Alert system and the Rear Cross-Traffic Alert system are the Rear Cross-Traffic Alert system and the Rear Cross-Tto the function, detection, range and clarity of the system. To learn more, see Owner's Manual. 29. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See Owner's Manual for further information/warnings.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050
