

# GS F

—

LEXUS 2018

Exclusive performance engineering.

Track-honed precision.

Class-leading power.<sup>1</sup>

Because the highest expression  
of performance means nothing  
if it doesn't lead to the experience  
of something greater.

The 2018 Lexus GS F.

---

*Experience Amazing*

The 2018 GS F

## GS F

467-horsepower,<sup>2</sup> naturally aspirated 5.0-liter V8 engine; eight-speed Sport Direct-Shift transmission with Manual-mode torque converter lockup; Torque Vectoring Differential with Slalom, Track and Standard modes; F-exclusive Adaptive Variable Suspension with adjustable damping; Brembo<sup>®</sup> brakes<sup>3</sup>; and 19-inch forged alloy wheels<sup>4</sup> by BBS. Rear-wheel drive.

Specialized manufacturing techniques like high-strength adhesive bonding, laser brazing, and multi-spot and laser screw welding add rigidity without compromising ride quality.

GS F shown in Atomic Silver // Options shown

# TRACK PROVEN

Born on the racetrack,  
built for the road.

The GS F wasn't just built, but honed. Earning its F badge through exhaustive testing, tuning and engineering on iconic tracks like Fuji Speedway. Infused with knowledge gained from the RC F GT3 racing program and equipped with exclusive performance features, the GS F is the most powerful sedan Lexus has ever made.

GSF shown in Ultrasonic Blue Mica 2.0<sup>5</sup> // Options shown

## 467 REASONS

*Class-leading horsepower<sup>1</sup> is just one way it surpasses the competition.*

Offering nothing short of pure exhilaration, the GS F's specially tuned 467-hp<sup>2</sup> 5.0-liter V8 is not only the largest, most powerful engine in its class,<sup>1</sup> it also spins the fastest—to a heady 7,300 rpm. The GS F's lightning-fast eight-speed Sport Direct-Shift transmission with downshift rev-matching features precisely positioned paddle shifters for split-second upshifts all the way to its 168-mph<sup>2,6</sup> top speed—highest among V8 competitors.<sup>1</sup>

# 4.5

0-60 mph (sec)<sup>2,6</sup>

Engineering a deft performance vehicle to carve through slalom courses or dominate straightaways requires an optimal balance of innovative components, like lightweight titanium valves and high-strength, forged connecting rods. A brisk 4.5-second zero to 60<sup>2,6</sup> is the result.

Options shown

## ULTIMATE PRECISION

*Command the road or track  
with exclusive handling technologies.*

---

Delivering performance on demand, an advanced F-Adaptive Variable Suspension features 30 levels of damping that can react to road conditions in real time, based on the selected drive mode, including a user-customizable mode. For added control and enhanced agility, a Torque Vectoring Differential is designed to improve performance with three selectable settings. And can respond in one-thousandth of a second to vary torque distribution according to cornering conditions. By sending more power to the outside rear tire, it helps propel the GS F around the turn for enhanced agility, while helping you to hold your line with ultimate precision.

Conquer with confidence in exclusive F-badged high-back front sport seats that embrace you from hip to shoulder. Their unique design disperses body pressure, increasing support and helping to keep you firmly planted through turns. The stitching pattern on the leather-trimmed seats was inspired by specially crafted athletic sportswear and is carefully calculated to provide greater muscular support and grip in high-G situations.

## DRIVER INSPIRED

—  
Embracing you  
through every curve.

GS-F shown with Black leather and Black Carbon Fiber interior trim // Options shown

GSF shown with Circuit Red leather and Black Carbon Fiber interior trim // Options shown

## **BOLD** *REFINEMENT*

---

With dynamic performance comes sophistication. Supple leather-trimmed seating embraces occupants from hip to shoulder, while black carbon fiber accents and contemporary ambient lighting punctuate the aggressive interior lines. The distinctive cross-stitched sport steering wheel ensures that control is always on command.

Options shown

GS F signature elements seamlessly blend innovation with exhilaration. From striking Premium Triple-Beam LED headlamps and bold LED taillamps, to the quad-tip exhaust, tuned for a unique, throaty sound. To achieve breathtaking performance, aerodynamic gains come by way of widely flared and vented front fenders with grooved liners, large openings in the front fascia, sculpted rocker panels, unique side mirrors and a carbon fiber rear spoiler.

## HIGH-PERFORMANCE DESIGN

*Every detail meant to exhilarate.*

### MASSIVE STOPPING POWER OF BREMBO BRAKES

The high-performance standard Brembo braking system features huge class-leading 14.9-inch slotted front brake rotors<sup>1</sup> clamped by massive six-piston monoblock calipers and 13.5-inch slotted rear rotors with four-piston monoblock calipers.<sup>3</sup> The brakes utilize high-friction pads<sup>3</sup> and a fast-cooling slotted rotor design to help reduce brake fade. For distinctive style, the available orange calipers feature an iconic F logo.

Options shown

# IMMERSIVE TECHNOLOGY

Innovation for all your senses.

This driver-inspired cockpit is filled with innovative technology. The digital tachometer keeps up with rapid revs in a race-ready gauge cluster. A crisp, full-color LCD display features customizable readouts including drive mode, gear position, G-force, lap times and torque distribution. An in-dash display offers multimedia linkage, providing access to incoming calls, current song titles and more.

## LEXUS ENFORM

Lexus Enform<sup>7</sup> elevates connected technology and provides concierge-level convenience. From emergency assistance and a live response center agent to the ability to start your engine remotely and access smartphone apps with ease, our premium suite of connected technology offers peace of mind with every drive.

## DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime.<sup>®9</sup> Learn more about these complimentary services at [lexus.com/specialists](https://lexus.com/specialists).

12.3-in  
split-screen multimedia display

A 12.3-inch high-resolution multimedia display provides immediate split-screen access to audio or climate controls and various systems, including Navigation<sup>8</sup> with a full-screen map view.

## PEACE OF MIND, STANDARD

*Introducing Lexus Safety System+, an integrated suite of class-leading standard active safety equipment.<sup>1,10</sup>*

### PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

This system<sup>11</sup> is engineered to detect obstacles in the path of your Lexus under certain conditions. Should it detect a pedestrian<sup>12</sup> or determine a frontal collision is imminent, it's designed to automatically prepare Brake Assist<sup>13</sup> for increased brake force, and in some cases can even automatically brake the vehicle to a stop.

### LANE DEPARTURE ALERT WITH LANE KEEP ASSIST

This system<sup>14</sup> utilizes a camera to monitor visible lane markings. If an inadvertent or potential lane departure is detected, it's designed to warn you and can take corrective measures. In certain conditions, the system can even help you remain in the center of the visibly marked lane, helping to prevent drifting before it occurs.

### ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system<sup>15</sup> uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system can detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

### INTELLIGENT HIGH-BEAM HEADLAMPS

To help provide greater visibility for you as well as other drivers, intelligent high-beam headlamps<sup>16</sup> offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it senses the headlamps or taillamps of vehicles ahead.

LEXUS SAFETY SYSTEM +

GSF shown in Atomic Silver // Options shown

## PRECISION CRAFTED AUDIO

*Tuned to the exact specifications of the GS F, a Mark Levinson audio system delivers music without compromise.*

Unlike other manufacturers, an ingenious partnership pairs Mark Levinson engineers with prototype vehicles to custom-tune each model. The available 17-speaker, 835-watt Mark Levinson® Premium Surround Sound Audio System<sup>17</sup> features patented, proprietary Clari-Fi™ technology that restores audio quality from compressed music, resulting in crisp, clear, dynamic sound from any source. This, combined with technology designed to create an expansive “sweet spot” of audio, envelops every passenger in three-dimensional sound that rivals the finest home audio systems.

**WARRANTY** Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *GS F Warranty and Services Guide* at your Lexus dealer for details.

**DISCLOSURES** **1.** 2018 GS F vs. 2017/2018 competitors. Information from manufacturers' websites as of 8/4/2017. **2.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **3.** High-friction brakes require periodic inspection and measurement as outlined in the *Warranty and Services Guide*. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. It is an inherent characteristic of materials and design of brake pads used in this high-performance brake system that brake noise/squeal may result. **4.** 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **5.** Ultrasonic Blue Mica 2.0 available for an additional charge. **6.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **7.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See [lexus.com/enform](http://lexus.com/enform) for details. **8.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See *Owner's Manual* for details. **9.** FaceTime<sup>®</sup> is a registered trademark of Apple Inc. All rights reserved. **10.** Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. Depending on the conditions of roads, weather and the vehicle, the system(s) may not work as intended. See *Owner's Manual* for additional limitations and details. **11.** The Lexus Safety System+ Pre-Collision System is designed to help avoid or reduce the crash speed and damage in certain frontal collisions only. It is not a substitute for safe and attentive driving. System effectiveness is dependent on road, weather and vehicle conditions. See *Owner's Manual* for additional limitations and details. **12.** The Pedestrian Detection System is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and weather, light and road conditions. See *Owner's Manual* for additional limitations and details. **13.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See *Owner's Manual* for additional limitations and details. **14.** Lane Departure Alert with Lane Keep Assist is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on road, weather and vehicle conditions. See *Owner's Manual* for additional limitations and details. **15.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on road, weather and traffic conditions. See *Owner's Manual* for additional limitations and details. **16.** Intelligent high beams operate at speeds above 21 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring driver to manually operate the high beams. See *Owner's Manual* for additional limitations and details. **17.** Mark Levinson<sup>®</sup> is a registered trademark of Harman International Industries, Inc. **18.** Preliminary mileage estimates determined by Lexus. EPA mileage estimates not available at time of publishing. Actual mileage will vary. **19.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **20.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting [www.aloa.org](http://www.aloa.org). **21.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. **22.** Always drive safely, obey traffic laws & focus on the road while driving. Siri<sup>®</sup> is available on select iPhone/iPad models & requires Internet access. Siri<sup>®</sup> is not available in all languages or all areas & features vary by area. Some Siri<sup>®</sup> functionality & commands are not accessible in the vehicle. Data charges may apply. See [Apple.com](http://Apple.com) & phone carrier for details. Siri<sup>®</sup> is a registered trademark of Apple Inc. **23.** Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth<sup>®</sup> word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. **24.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for additional limitations and details. **25.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. HD Radio<sup>™</sup> Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio<sup>™</sup> and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **26.** Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See *Owner's Manual* for additional limitations and details. **27.** Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See *Owner's Manual* for additional limitations and details. **28.** All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See *Owner's Manual* for further information & warnings. **29.** Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. **30.** Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. **31.** Use only if aware of circumstances surrounding vehicle and it is safe to do so (e.g., do not remotely start engine if vehicle is in an enclosed space). Functionality depends on many factors, such as vehicle and smartphone connectivity. Registration and app download are required. Subscription purchase required after trial. See usage precautions and service limitations in *Owner's Manual*. **32.** Lexus received the highest numerical score among 12 luxury brands in the J.D. Power 2017 U.S. Customer Service Index (CSI) Study, based on 70,342 total responses, measuring customer satisfaction with dealer and non-dealer service during the first 3 years of ownership, surveyed October-December 2016. Your experiences may vary. Visit [jdpower.com](http://jdpower.com).

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See [lexus.com](http://lexus.com) for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit [lexus.com](http://lexus.com). To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
