Spacious and adaptable

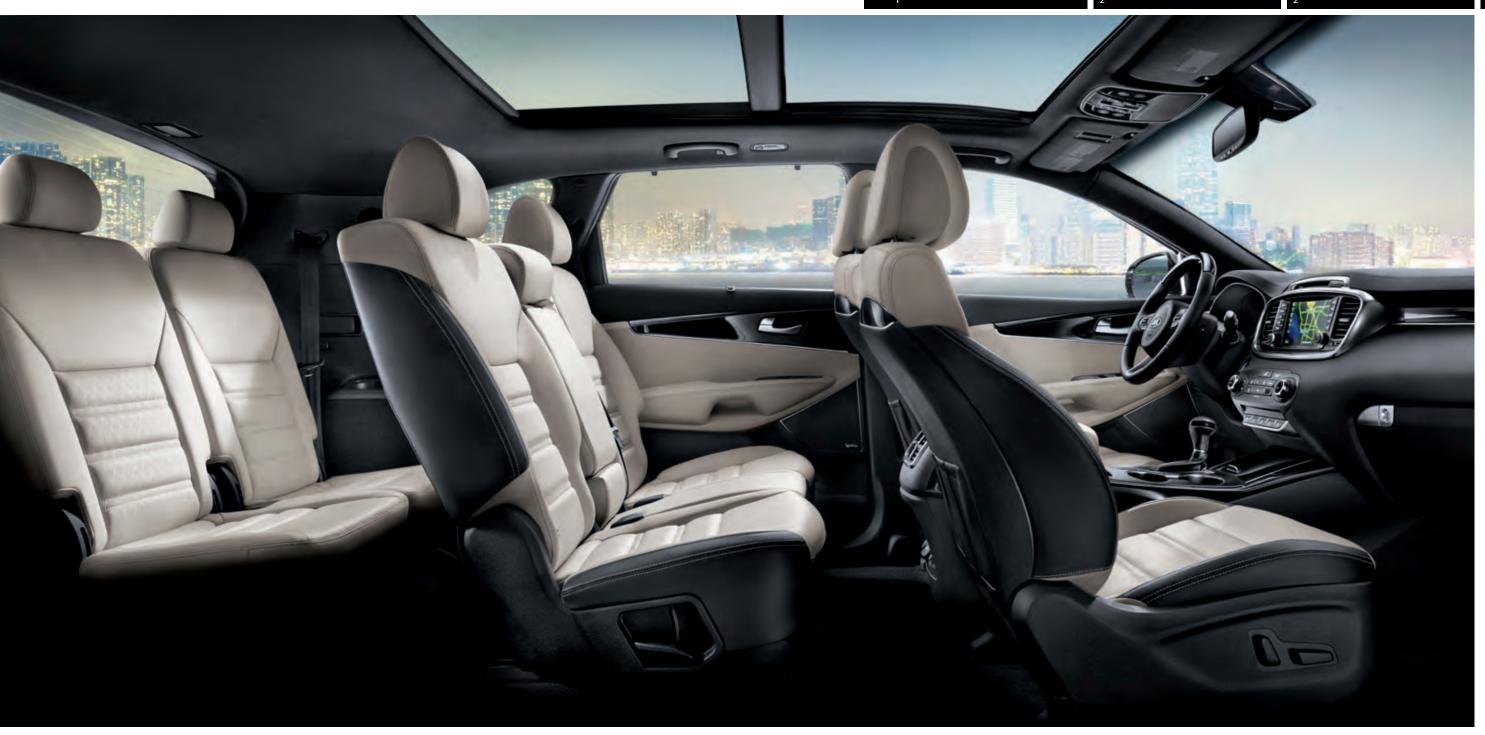

A spacious and comfortable interior is complemented by a wide variety of seating configurations. Available third-row seats* allow Sorento to accommodate up to seven passengers or fold flat for increased cargo area.³ In addition, thoughtful features such as available sound-insulating acoustic glass* help provide an exceptionally quiet ride.

1. DUAL-ZONE AUTOMATIC TEMPERATURE CONTROL*

To create personalized climate zones for both the driver and front passenger, the available dual-zone automatic temperature control has individual temperature settings. Rear-seat passengers have their own rear vent.

2. SPLIT-FOLDING SEATS*

The second- and third-row seats both have a split-folding design that lets you easily carry longer items³ as well as passengers.

3. RECLINING/SLIDING SECOND-ROW SEATS^{4*}

Reclining second-row seats with a fold-down center armrest allow passengers to sit back and relax. On models with available third-row seats, the second-row seats also slide forward, giving you easy access to the third row.

CLUSTER IONIZER*

The available dual-zone air-conditioning system includes a cluster ionizer. It works silently and efficiently to help purify air in the cabin.

PANORAMIC SUNROOF*

The available panoramic sunroof creates a feeling of spaciousness and features a convenient power sunshade.

NAPPA LEATHER SEAT TRIM*

Available premium Nappa leather seat trim on all three rows of seats provides a soft, luxurious feel for exceptional comfort.

1. SMART-POWER LIFTGATE™*

An available programmable-height
Smart-Power Liftgate™ opens
automatically if you simply stand
behind it for three seconds with the
available Smart Key* in your possession
— which is especially helpful when you
have your hands full.

2. POWER LIFTGATE CLOSE*

A touch of a button will close the available Smart-Power Liftgate. TM*

3. 110-VOLT POWER INVERTER*

A handy available 110-volt power inverter lets you plug electronics — anything from a laptop computer to a camcorder — right into an electrical power outlet.

4. LARGE CENTER CONSOLE STORAGE

The center console features a padded flip-up armrest. Inside, it has a large sliding tray and storage compartment, along with a rapid-charge USB outlet.

5. THIRD-ROW AIR-CONDITIONING CONTROL*

Available controls let third-row passengers adjust the airflow or turn it on/off.

6. CONCEALED STORAGE*

Store items out of sight with a spacious compartment hidden beneath the cargo floor. You may also keep loose items neatly organized with the available tray.

REAR POWER OUTLETS

Second-row passengers have quick and easy access to 115-volt, USB, and 12-volt power outlets located on the back of the center console.

STAIN-RESISTANT CLOTH SEATS

Cloth seat trim with YES Essentials®5 fabric treatment on the L and LX features anti-soil surfaces for added durability and easy cleaning.

1. VENTILATED FRONT SEATS*

Stay cool on hot summer afternoons, thanks to available ventilated driver and front-passenger seats that circulate cool air through perforations in the seat leather.

2. HEATED SEATS*

For comfortable driving in cold weather, heated front seats and second-row outboard seat cushions are available.

3. HEATED STEERING WHEEL*

Sorento's premium features include an available heated steering wheel that is especially appreciated on cold winter days.

4. PUSH-BUTTON START*

For everyday driving convenience, you can start or stop the engine with the push of a button, and open a locked door, with the available Smart Key remote — even when you have it in your pocket or purse.

5. MEMORY SETTINGS*

An available memory system remembers two drivers' seating preferences, recalling stored positions for the driver's seat and outside mirrors.

6. POWER SEAT-CUSHION EXTENSION*

An available power-adjustable driver's seat-cushion extension is a welcome luxury, providing extra support and allowing drivers to select their own custom comfort settings.

7. SECOND-ROW SUNSHADES*

Rear-seat passengers can enjoy a more comfortable ride with available side-window sunshades.

8. ELECTRONIC PARKING BRAKE*

For convenient operation, the available electronic parking brake is automatically released when you shift out of Park.

Advanced technology at your command

Sorento features an impressive array of technologically advanced systems. They are designed to enhance your confidence on the road, increase your entertainment options, and provide a steady stream of information designed to help you make better, more timely driving decisions.

1. UVO — SHORT FOR "YOUR VOICE"6*

The available UVO eServices Infotainment System provides you with an easy, hands-free way to connect to your Sorento by seamlessly integrating your compatible smartphone⁸ with your vehicle. UVO eServices* lets you stream music, download apps from the **App Download Center**, monitor your vehicle's driving habits, access **911 Connect**⁹ or **Enhanced Roadside Assist**, ¹⁰ and check maintenance requirements with **Vehicle Diagnostics** ¹¹ on the large touch screen.* Additionally, there are no subscription fees⁶ for the first 10 years to access all of these benefits.

4. UVO eSERVICES APP⁶

An available free app, downloaded at the App Store^{SM12} or Google PlayTM Store,¹³ lets you use a compatible smartphone⁸ to access UVO eServices'* features. Or access UVO eServices* through myUVO.com with a computer.

5. HID HEADLIGHTS*

Available High-Intensity Discharge
(HID) headlights with Auto-Leveling and
Dynamic Bending Light automatically
maintain proper level of projection
and pivot to follow the curves of the
road to help enhance visibility.

2. APPLE CarPlayTM12* 3. ANDROIDTM AUTO13*

Apple CarPlay[†] and Android Auto let you take full advantage of the available UVO eServices^{6*} Infotainment System by simply connecting your compatible smartphone⁸ with a USB cable. You can then use it to navigate to your destination, make phone calls and retrieve voice mail, receive text messages and respond to them verbally, and more. Plus, compatible apps are displayed onto the touch screen.

6. SMART WELCOME

Sorento is smart enough to know when you're coming and greets you with a warm welcome. When you approach your vehicle and it detects the presence of the available Smart Key remote,* the available Smart Welcome* system unfolds the power-folding mirrors and turns on the interior and door-handle lights. To make parking in tight spots easier, available power-folding outside mirrors* are easily activated by using a door-mounted control or the key fob.

7. AUTONOMOUS EMERGENCY BRAKING14*

This available system is designed to detect and monitor vehicles traveling ahead of you. It then works to automatically apply the brakes if it determines a crash might be imminent, helping to avoid a collision or mitigate the effects if it cannot be avoided.

11. BLIND-SPOT DETECTION WITH LANE-CHANGE ASSIST^{14*}

An available radar system helps detect vehicles in the driver's blind spot and then provides audio and visual alerts. Lane-Change Assist helps detect vehicles approaching from behind.

13. REAR PARK ASSIST SYSTEM14*

When parking, the available sonar-sensor system gives an audible warning if it detects certain objects close to your vehicle.

8. LANE DEPARTURE WARNING14*

This available system is designed to detect the vehicle moving out of its lane without the turn signal being used. When it does, it alerts you with a combination of audible and visual warnings.

12. REAR CROSS-TRAFFIC ALERT14*

This available feature warns the driver of cross traffic while the vehicle is in reverse by activating audible and visual alerts to help reduce the likelihood of a collision.

14. REAR-CAMERA DISPLAY14*

To help you see things behind your vehicle that you might not see by looking over your shoulder, Sorento features an available Rear-Camera Display with a large, bright screen.

9. ADVANCED SMART CRUISE CONTROL^{14*}

Available Advanced Smart
Cruise Control uses radar to
maintain a predetermined
distance from the vehicle
directly ahead, automatically
slowing or accelerating your
Sorento when appropriate.

10. FORWARD COLLISION WARNING SYSTEM^{14*}

Available Forward Collision
Warning System activates
and alerts when the vehicle
detects objects immediately
ahead that may cause a
potential impact, encouraging
the driver to decelerate.

15. SURROUND-VIEW MONITOR14*

The available Surround-View Monitor utilizes four cameras to provide a view around the vehicle — which is especially helpful when parking.

FULLY ACTIVE AWD*

Available Dynamax^{TM1} fully active AWD uses electronic sensors to monitor road conditions, and then, for enhanced traction and control, instantly distributes power to the appropriate wheels.

TORQUE VECTORING CORNER CONTROL (TVCC)*

AWD models feature TVCC, which applies braking force to the rear inside-corner wheel for increased cornering stability and control.

FOUR-WHEEL-DRIVE LOCK MODE*

If you decide that road conditions merit full-time four-wheel drive, models with available AWD allow you to select four-wheel-drive lock mode with the touch of a button.

OUTSTANDING TOWING CAPACITY^{15*}

The available 3.3L Gasoline Direct Injection (GDI) V6* engine produces 252 Ib.-ft. of torque, giving Sorento AWD an outstanding towing capacity of 5,000 lb.

EXCEPTIONAL PERFORMANCE

The available 240-hp turbocharged*
2.0L GDI engine and the 290-hp 3.3L
GDI V6* deliver inspiring performance,
with an ideal balance of outstanding
acceleration and efficiency.

SPORTMATIC® TRANSMISSION

A six-speed automatic transmission provides smooth, seamless shifting. Its Sportmatic® function allows you to choose between automatic mode or, for even sportier driving, clutchfree manual shifting.

ISO-STRUCTURE™ CONSTRUCTION

Sorento features a uniquely engineered body that combines various high-tensile strength steel alloys. This body structure helps improve driving dynamics for more precise handling, and is the foundation for a quieter ride.

VEHICLE STABILITY MANAGEMENT (VSM)

For additional steering-directioncontrol capability, the VSM system intervenes in appropriate situations to help the driver regain control of the vehicle.

ELECTRONIC STABILITY CONTROL (ESC)

ESC provides improved directional stability to help maintain better control in difficult driving situations. During emergency maneuvers, it works to control the engine and brakes to help keep your Sorento on course.

TRACTION CONTROL SYSTEM (TCS)

When TCS senses wheelspin during acceleration, it uses a combination of both engine power and brake force to help transfer power to the wheels that have the most traction.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

To help maintain more consistent braking as vehicle loads and weight distribution change, the EBD system automatically adjusts the front-to-rear balance of brake pressure.

BRAKE ASSIST SYSTEM (BAS)

If BAS detects emergency braking, based on how quickly you step on the brake pedal, it instantly applies full braking force, which helps shorten your overall stopping distance.

HILL-START ASSIST CONTROL (HAC)

When starting off on a steep hill, HAC automatically holds the brake pressure for two seconds after you take your foot off the brake pedal.

ANTI-LOCK BRAKING SYSTEM (ABS)

ABS is the foundation of an active safety system and helps contribute to driver confidence. The system helps provide greater vehicle control when stopping in difficult conditions like wet or slippery roads.

Advanced engineering for your protection

At Kia, the process of improving all aspects of safety is relentless. As a result, continuous engineering advances and breakthroughs in material design have led to Sorento's exceptionally strong body construction, strategically placed airbags, and advanced sensors, all of which help to increase your peace of mind.

ADVANCED AIRBAG SYSTEM

As a first line of defense, an advanced airbag system helps protect driver and passengers with dual front, front seat-mounted side, and full-length side curtain airbags.¹⁶

AIRBAG & SEAT-BELT SENSORS

This advanced system monitors the severity of certain impacts, the presence of a front passenger and seat-belt use, and then controls airbag inflation accordingly.¹⁶

FRONT SEAT-BELT PRETENSIONERS

Sorento's advanced safety features include pretensioners that have been designed to tighten the front seat belts in the event of certain collisions. This can help to reduce the likelihood of injuries.

HEIGHT-ADJUSTABLE SEAT-BELT ANCHORS

The front height-adjustable seat-belt anchors allow the driver and front-passenger seat belts to be raised and lowered for a proper fit, helping ensure effective operation.

FRONT & REAR CRUMPLE ZONES

Both front and rear crumple zones are engineered to help absorb and dissipate impact energy, helping to preserve the basic structural integrity of the vehicle's passenger compartment in certain collisions.

ROLLOVER SENSOR

If the airbag sensors detect an impending rollover, this system can deploy the side airbags, side curtain airbags, and seat-belt pretensioners.

SIDE-IMPACT DOOR BEAMS

All doors are reinforced with steel beams to help absorb impact energy and deflect side-impact force. In addition, the A and B pillars are also reinforced, further helping to strengthen the body of the vehicle.

LATCH SYSTEM

Sorento features the easy-to-use Lower Anchors and Tethers for Children (LATCH) system. It is engineered to let you securely install a compatible child seat at either end of the second-row seat.

Discover world-class quality

Kia is committed to producing exceptional vehicles with superb quality and reliability to suit most every driving need. From compact to crossover, every Kia delivers an extraordinary combination of precision engineering, outstanding performance, innovative features, and advanced safety systems.

COMMITMENT TO AMERICA

Kia Motors has invested over \$1.1 billion in its manufacturing plant in West Point, Georgia. Utilizing the latest manufacturing processes and state-of-the-art robotics, the plant has produced over 2 million vehicles since 2009. The Sorento crossover and certain Optima midsize sedans are currently being assembled at this plant.† Together with on-site and local suppliers, the Georgia facility is responsible for the creation of more than 15,000 jobs in West Point and the surrounding areas. It's all part of Kia Motors' commitment to America — a commitment that is sure to grow and strengthen in the years ahead.

TAKING ON THE COMPETITION

The Kia Racing team has gone head-to-head with world-class rivals — and won. Motorsport is a proven test bed for reliability, durability, and performance, and the knowledge gained on the racetrack helps Kia manufacture award-winning vehicles that perform beyond your expectations. In six years of racing, Kia won a total of seven championships with three models — Rio 5-Door, Forte Koup, and Optima.

INDUSTRY-LEADING WARRANTY PROGRAM²

Kia engineers are passionate about producing vehicles that are exceptionally well designed and reliable. Their dedication to quality and attention to detail give Kia the confidence to back every model with an industry-leading warranty program.

10-year/100,000-mile limited powertrain warranty 5-year/60,000-mile limited basic warranty 5-year/100,000-mile limited anti-perforation warranty 5-year/60,000-mile 24-hour roadside assistance

OFFICIAL AUTOMOTIVE PARTNER OF THE NBA17

OFFICIAL ALITOMOTIVE PARTNER OF THE LPGA¹⁸

COMPELLING DESIGN

Under the direction of President and Chief Design Officer Peter Schreyer, Kia vehicles have captured worldwide attention for their interior and exterior styling. The passionate collaboration of Kia's designers has created a look that makes every model as bold as it is distinctive.
