## **I-CON SYSTEM**

JUKE's available I-CON system lets you change up your ride with the push of a button. Whatever mood you're in, JUKE has a mode for it. You can keep stats on your performance and adjust the climate, all while you're out and about.

## **SPORT ALL-WHEEL DRIVE**

Instead of traditional All-Wheel Drive (AWD) systems that only distribute power from front to back, the torque vectoring AWD that's available on JUKE<sup>®</sup> adjusts power side-to-side to the rear wheels. When cornering, this means the outside rear wheel gets more power, helping you rotate into the curve and accelerate out.
