2018

When Precision Crafted
Performance is at the heart
of everything you do, you
don't just build an SUV, you
build the car you want to
drive. You break the rules
and check all the boxes. And
you do it because you can.

The MDX does more than just embody what Precision Crafted Performance is all about—it defines it.

CAN AN SUV DEFINE A The Acura logo was designed to depict an engineering caliper and since its inception has served as a symbol and a constant reminder of our unwavering commitment to precision and craft. The caliper is our true north and a promise of the painstaking attention to detail that goes into every Acura. The MDX is the manifestation of that commitment.

PUT PERFORMANCE IN YOUR SIGHTS.

Whether you're on the racetrack or on a road trip, how far ahead you can see affects everything. Jewel Eye® LED headlights are standard on every Acura and provide impressive down-road visibility with an intense, wide beam of light designed to mimic natural sunlight the light our eyes are designed to see in. The result? Less fatigued driving, clarity, and more vivid colors.

Auto High-Beam can further enhance vision, increasing visibility by more than two hundred feet, allowing for earlier driver reaction and braking. A windshieldmounted camera continuously monitors the road ahead, automatically switching the high beams off to avoid blinding oncoming traffic.

The MDX was designed with the singleminded goal of putting the driver and passengers first, and not only did we hit our impossibly high standards, we exceeded them. With available features such as handcrafted and responsibly sourced Olive Ash Burl and Black Limba natural woods, premium contrast stitching and piping details, and your choice of seven-passenger seating or a six-passenger configuration with bodycontouring second row captain's chairs, wherever you're seated, you'll feel like the MDX was built with you in mind.

Performance happens when driver and machine work together as one, when the car responds instantly and instinctively to the driver. When you no longer have to think of asserting control, and instead feel it. It's why we look beyond zero-tosixty times and spec sheets to measure our vehicles' performance, because at the end of the day, the experience is something that can't be communicated with numbers. Rather, it's the rush. The exhilaration. The sensation of feeling simultaneously one with the car and road. When you climb into the driver's seat of the MDX, you'll know, as we do, that performance is more than a stat.

TO THE ROAD?

SUPERCAR-INSPIRED PERFORMANCE.

When independent thinking and worldclass engineering intersect, amazing things happen, and Sport Hybrid SH-AWD is the latest result of our uncompromising pursuit to build the world's most innovative vehicles. Sport Hybrid SH-AWD is a groundbreaking, electric-torque-vectoring, all-wheeldrive system we'd argue is the world's most advanced. In fact, the MDX system uses some of the same next-gen technology we developed for the new NSX—including the Twin Motor Unit (TMU) even the most advanced AWD systems, instant-response acceleration and connection between driver and vehicle.

The Sport Hybrid SH-AWD system consists of a powerful V-6 engine and three electric motors—a direct-drive motor paired with a rapid-shifting 7-speed Dual-Clutch Transmission and a rear Twin Motor Unit for individual, instant torque vectoring. The vehicle is tuned to supply positive or negative torque instinctively based on driving conditions and the driver's input, resulting in dynamic acceleration, direct response, and precise handling in all conditions. And unlike and battery pack—all working to provide the MDX's electric Sport Hybrid SH-AWD system delivers torque vectoring while off precise handling to deliver a more direct throttle, providing always-on and instant precision and performance.

When cornering, the rear Twin Motor Unit allows for instant torque transfer side to side in the rear, independently applying positive or negative torque to each wheel. This torque-vectoring effect directly controls the yaw (rotation around a vertical axis), twisting the MDX through corners, tightening its line, and precisely tracing the driver's desired path.

When braking, coasting, or cornering, the everefficient system captures kinetic energy and uses it to recharge its advanced lithium-ion battery.

Acceleration

From a standstill, Sport Hybrid SH-AWD uses the rear electric motors to deliver torque instantly, translating to dramatic acceleration off the line. During light acceleration, only the rear twin electric motors operate; under more aggressive acceleration, the gasoline engine and all three electric motors kick in simultaneously to maximize performance.

Highway Cruise

At low cruising speeds, the system can operate in electric-only mode, with power being sent to only the rear wheels. At higher speeds, up to 100 percent of the power is sent to the front wheels when cruising in a straight line.

Slippery Road

Sport Hybrid SH-AWD monitors speed, wheelspin, driver input, and more to actively and instantly distribute power to the wheels with the most traction or send negative torque to a specific wheel to act as a stabilizing force.

A MODE FOR EVERY MOOD.

With Comfort, Normal, and Sport, our Integrated Dynamics System (IDS) delivers three modes of Precision Crafted Performance. If you're looking to raise your pulse, Sport mode dials up throttle response and weights the steering for a sports car–like feel while inciting a more aggressive response from the available SH–AWD system. And for an even more engaging experience, put full manual control of the 9–speed transmission at your fingertips with our race–inspired Sequential SportShift paddle shifters.

MDX Sport Hybrid SH-AWD takes things a step further, adding a Sport+ mode, disabling EV-only operation, and offering maximum battery assist at launch. In addition, its Active Damper System makes adjustments to ride and handling depending on which mode you're in. Comfort mode delivers improved ride comfort, while Normal mode provides a good everyday balance. In Sport and Sport+ modes, the Active Damper System boosts response and control with limited roll, increased damping, and improved precision. The system continuously monitors vehicle sensors, making micro-adjustments in milliseconds for exceptional road holding and stability.

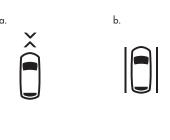

SEE WHAT YOU DON'T SEE.

AcuraWatch™ combines a network of next-level sensing technologies designed to increase awareness and support the driver, working to help prevent, avoid, and mitigate impacts.* Sensors continuously monitor the vehicle's surroundings and can recognize not only cars, but also the shapes of motorcyclists and pedestrians—even shrubbery and mailboxes. AcuraWatch can warn of potential threats, provide steering input to help keep you in the center of a detected lane, brake to maintain a set interval from cars detected ahead, and emergency-brake to help avoid collisions.

In addition, our available Surround– View Camera System with exterior cameras gives you a 360–degree view of the space around the MDX. With six unique camera views, parking sensor information, and dynamic guidelines that show your expected path, you'll feel more connected to your surroundings than ever before?

- a. Forward Collision Warning (FCW) System³
 Collision Mitigation Braking System™ (CMBS™)⁴
- b. Lane Departure Warning (LDW) System⁵ Lane Keeping Assist System (LKAS)⁵ Road Departure Mitigation (RDM) System
- c. Adaptive Cruise Control (ACC) with Low-Speed Follow⁶
- d. Blind spot information (BSI) System⁷
- e. Rear Cross Traffic Monitor²
- f. Multi-View Rear Camera with Dynamic Guidelines⁸ Surround-View Camera System⁹

Acura's next-generation Advanced Compatibility Engineering™ (ACE™) body structure is designed to absorb and disperse frontal impact energy so less force is transferred to what really matters: the people inside. But we didn't stop there. Crash compatibility is designed into the structure as well, so in the event of a collision, the occupants of all vehicles involved are more protected.

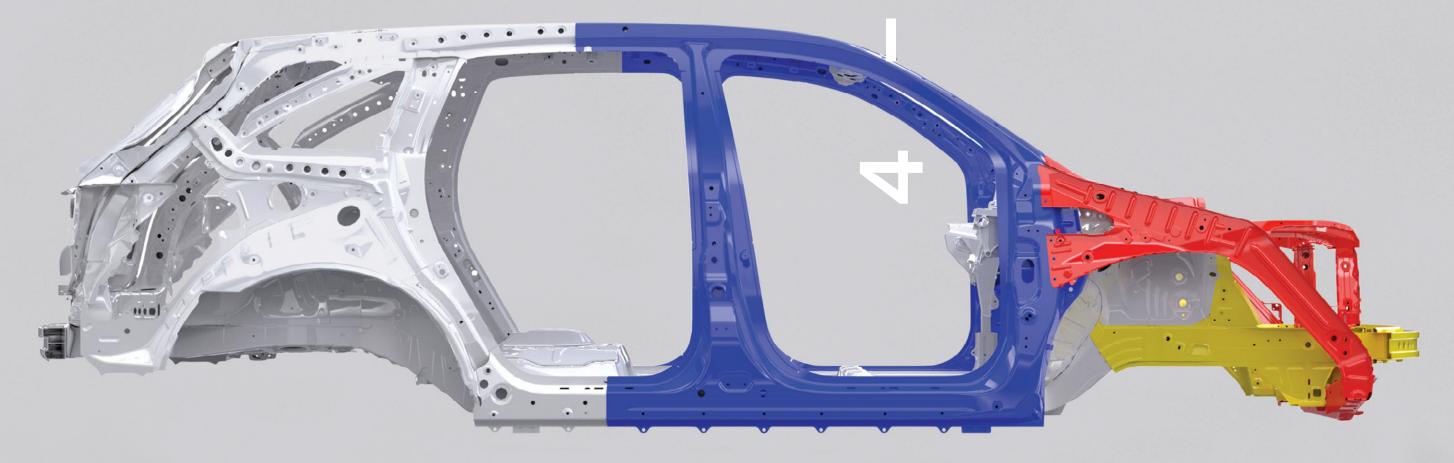

It's just one reason the MDX received the highest possible overall safety rating from both the National Highway Traffic Safety Administration (NHTSA)¹⁰ and the Insurance Institute for Highway Safety (IIHS)¹¹ for 2017.

STRONGER

THAN TRADITIONAL-GRAD

To build the best, you need to work with the best, which is why we collaborated with eight-time Grammy® award-winning music producer, mixer, and engineer Elliot Scheiner to create the critically acclaimed ELS Studio® Premium Audio System available in the MDX.

Whether you're listening over the airwaves, streaming digitally, or enjoying your own music library, ELS Studio was designed to produce music as it's meant to be heard, so even the most familiar tunes will become a whole new listening experience. The result is the perfect combination of engineering and artistry, and it's totally unique to Acura. Yet another example of Precision Crafted Performance.

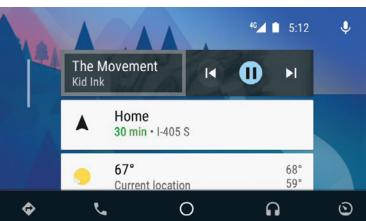

The full studio experience comes together with the help of acoustic spray foam and Active Sound Control, which uses the audio system's speakers to fight unwanted sound with sound, creating a quiet listening environment.

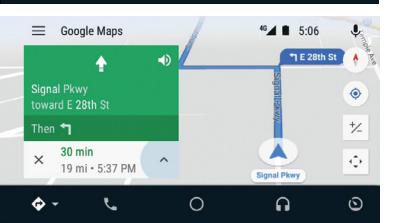

APPLE CARPLAY

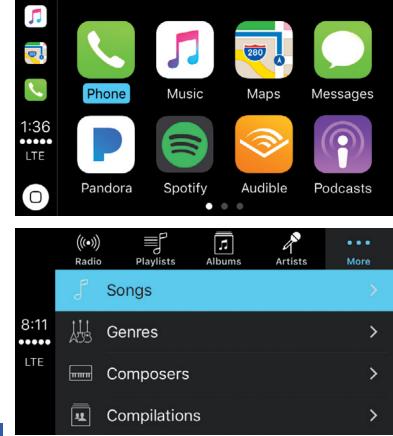

Place the power of your iPhone® in your dash with Apple Carplay. A redesigned OS seamlessly integrates your iPhone with the car's built-in display and controls, so you can make calls, access your music, send and receive messages, get directions, seamlessly tap into the power of Siri® with the press of a button with Siri Eyes Free, and more.¹2

APPLE CARPLAY & ANDROID AUTO

The MDX supports both Apple CarPlay™ and Android Auto,™ keeping you connected to everything you love about your smartphone, including maps, texts, emails, music, and more, all seamlessly and safely integrated into your MDX, so you can stay focused on the road.

ANDROID AUTO

Android Auto brings the Android™ experience to your car by projecting all your favorite apps and services right onto the MDX's display, and it's highlighted by an intuitive interface that populates suggested directions, upcoming appointments, and weather conditions, to name a few. The powerful new Talk to Google voice feature allows you to access directions via Google Maps™ or Waze,™ send and receive text messages, and access your favorite music, providing an easier way to get the information you need, when you need it.¹³

*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operations on your phone or audio device only when the vehicle is safely parked.

AcuraLink

It's not enough to simply be connected anymore; we need tools that work harder for us. Beyond conventional navigation, available AcuraLink® seamlessly connects you to the information and media you want.* Pair it with your smartphone to keep up on emails, texts, and tweets, find a new restaurant, plan your weekend adventures, and drive with the assurance of AcuraLink Assist services.

If traffic backs up, available AcuraLink Real-Time Traffic™ pulls surface-street information and can reroute you for a faster commute. And for the most demanding drivers, Live Concierge Link puts personal assistants at your fingertips, night and day, to ensure that all your journeys go off stress-free.¹5

OWNER BENEFITS

When you purchase a vehicle with the exceptional quality of an Acura, you expect service and support to be of the same caliber. After all, a premium automobile is only part of the ownership experience. With Acura, you also get a commitment: to personalized care, to attentive service. This commitment is apparent the moment you first enter an Acura dealership and for years down the road. It comes from a belief that every aspect of owning an Acura should be an enjoyable and rewarding experience.

Acura Limited Warranties²³

All Acura vehicles and any Acura Genuine Accessories installed by the dealer at the time of vehicle purchase have a four-year/50,000-mile limited warranty. Acura vehicles are also covered by a six-year/70,000-mile limited powertrain warranty. In addition, outer-body rust-through is covered by a five-year/unlimited-mile limited warranty.

Acura Financial Services²⁴

ACURAFinancialServices

From leasing and financing to protecting your vehicle after your warranty expires to helping you determine which Acura fits your budget, Acura Financial Services (AFS) provides you with the convenience, options, and service to complement your life. For more information, go to acurafinancialservices.com.

Acura Care

Additional peace of mind can be had with the Acura Care program-comprehensive vehicle and travel protection beyond the initial warranty period. See your Acura dealer for all the features and benefits available with this program.

Total Luxury Care (TLC)²⁵

Acura's commitment to your satisfaction doesn't end with the delivery of a world-class vehicle. As an Acura owner, you'll enjoy an array of services, like the Acura Concierge,™ for 24-hour weather information, insurance claims assistance, or to help you plan a trip; trip-interruption benefits, like alternative transportation, lodging, and meals; and a 24-hour Roadside Assistance program.
