THE ART OF PERFORMANCE

THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars' performance. We innovate, we engineer, we design. We master rules and then break them. Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

INTRODUCTION THE CONCEPT OF THE F-TYPE

The New Jaguar F-TYPE is the latest in a distinguished bloodline of powerful, agile and distinctive sports cars. Combining exhilarating performance, accomplished handling and cutting-edge technology, it delivers an exceptional driver-focused experience.

The advanced technology of the F-TYPE makes it as up-to-date as it is special. The range features a 2.0 liter 296HP Turbocharged Ingenium Gas engine - Jaguar's most advanced and efficient engine ever found in an F-TYPE. While Jaguar's most powerful infotainment system, Touch Pro, part of Jaguar InControl® technologies, is standard with a highly responsive 10" Touchscreen*. A range of driver assistance features are also available, helping to provide assistance on every drive.

LED headlights help make driving at night less tiring as they provide a quality of beam that is closer to daylight. Inside, slim seats save weight and provide more space and comfort, while interior finisher details allow even more personalization.

F-TYPE is a truly cutting-edge expression of the Art of Performance.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

PERSONALIZATION

FIND A RETAILER

BUILD YOUR OWN

THE F-TYPE - THE FACTS

Stunning design, exhilarating performance, instant response, agile handling and advanced technology. The F-TYPE is created to deliver breathtaking driving experiences.

ALL WHEEL DRIVE

Instinctive All Wheel Drive (AWD) combines the agility and character of Rear Wheel Drive (RWD) with the increased assistance and traction provided by AWD. In normal driving, the F-TYPE is predominantly RWD to deliver handling purity, feel and balance. But when needed the system rapidly redistributes torque to the front axle, enabling the F-TYPE to maintain optimum traction in various conditions*.

TECHNOLOGY

The F-TYPE advanced technologies keep you entertained and connected. Park Assist makes parking in a tight spot easier than ever*. Our next-generation 10" Touch Pro Jaguar InControl® infotainment system†, with its tablet-style Touchscreen, offers intuitive swipe and pinch-to-zoom navigation** and, with Remote, the option to remotely connect and monitor F-TYPE wherever you are in the world.

INTERIOR

Weight reduction and driver focus find their balance in the F-TYPE. Standard Slimline seats feature a lightweight magnesium construction and offer excellent lateral support. The F-TYPE looks as meticulously honed and sporty on the inside as it does on the outside.

INGENIUM

The Ingenium 2.0 liter 4-cylinder 296HP Turbocharged gas engine is an impressive balance of power. Its low inertia twin-scroll turbocharger features low-friction ball bearings and a mixed flow turbine wheel. Underpinned by the turbocharger's increased aerodynamic efficiency, the engine delivers rapid acceleration and maximum torque of 295 lb-ft between 1,500-4,500 rpm.

SUPERCHARGED PERFORMANCE

V6 and V8 engines use twin vortex supercharger to reduce acceleration lag. Throttle response is instantaneous with seamless power delivery and high levels of torque at all engine speeds.

DESIGN

Developed with advanced aerodynamics, the purposeful front end of the F-TYPE features a bumper framed by LED headlights. These elegant headlights adapt the width and depth of their beam to your speed and offer a superb quality of light – so you always have the best possible illumination whatever your surroundings. New to F-TYPE is an exclusive range of 18 bespoke paints available in two finishes, in addition to the core F-TYPE color palette.

HANDLING AND AGILITY

To optimize handling and agility, a range of driving technologies are available on the F-TYPE. These include Torque Vectoring by braking, Adaptive Dynamics¹ and an Electronic Active Differential². Each feature works to enhance the driving experience through increased control, traction and feel*.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. †Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

¹Engine dependent. ²Only available on F-TYPE R and F-TYPE SVR.

VEHICLE SHOWN: JAGUAR F-TYPE R IN YULONG WHITE WITH OPTIONAL EQUIPMENT

DESIGN EXTERIOR PRINCIPLES

DRAMATIC DESIGN

"A piece of design should tell a story. The F-TYPE lines have a start, a direction and a conclusion. Make every line individual and aesthetically correct, with the right dimensions, and a design will stand the test of time."

Ian Callum, Jaguar Design Director

Those bold proportions. Those instinctive curves. Timeless, evocative and progressive in a way that could only be Jaguar.

Some say great design is subjective, but for us there's no debate: the F-TYPE beauty is the ultimate expression of the Art of Performance.

VEHICLE SHOWN: JAGUAR F-TYPE R-DYNAMIC AWD IN SILICON SILVER WITH OPTIONAL EQUIPMENT

EXTERIOR DETAIL

▶ POWERFUL FORM

Rising vertically from the front spoiler and running up through elongated headlights, the beautifully flowing body line of the F-TYPE begins to take shape. The line arcs over the front wheel, descending elegantly as it runs across the door, before culminating in a pronounced muscular rear haunch. Whether you choose Coupe or Convertible, the F-TYPE leaves you under no illusion – this is a performance sports car, the latest in a distinguished bloodline.

It is, in part, sculpted by the wind itself, formed by the Jaguar state-of-the-art Computational Fluid Dynamics design methods. A front splitter beneath the grille and rear venturi manage airflow along the underside, while a deployable rear spoiler¹ automatically rises at higher speeds to increase downforce and reduce drag. Even the door handles retract when not required; their flush design creates uninterrupted airflow along the F-TYPE flanks.

VEHICLE SHOWN (LEFT): JAGUAR F-TYPE R-DYNAMIC AWD IN SILICON SILVER WITH OPTIONAL EQUIPMENT
 VEHICLE SHOWN (RIGHT): JAGUAR F-TYPE IN INDUS SILVER WITH OPTIONAL EQUIPMENT

¹Optional on Jaguar F-TYPE SVR.

LED HEADLIGHTS

SIGNATURE DESIGN | ENHANCED ILLUMINATION

Even at night, the F-TYPE stands out. The LED headlights featuring LED 'J' blade Daytime Running Lights are as powerful as they look. These headlights reach further into the darkness than Xenon headlights, producing a highly focused beam of light with a quality closer to daylight, helping your eyes distinguish objects more easily.

Optional Auto High Beam Assist provides added convenience by automatically lowering the beam when other vehicles are detected*. 'J' blades complete the dramatic headlight design. These crisp bars of light wrap around each light's outer edge, giving the F-TYPE an instantly recognizable visual signature that adds to its assertive presence and distinctive style.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

VEHICLE SHOWN: JAGUAR F-TYPE R-DYNAMIC AWD IN SILICON SILVER WITH OPTIONAL EQUIPMENT

INTERIOR CONNECTION

DRIVER FOCUS | **CLARITY OF DESIGN**

In the F-TYPE you and the car become one. Every aspect of its 1+1 configuration is designed to create a bond. It wraps around you, taking your driving experience to greater heights.

The cockpit provides increased visibility, minimal distractions, and close-to-the-center-of-gravity seating for a complete connection with the car. The low dashboard is free from clutter to increase the view ahead. The active central air vent, part of the advanced climate control system, hides the two central air vents, which automatically rise from the dashboard when required and retract after use.

The easy to use 10" color Touchscreen is your primary interaction point with the Touch Pro infotainment system. The system responds directly to touch and swipe gestures, providing effortless control over navigation, music, phone, climate and driver assistance features*.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.
VEHICLE SHOWN: JAGUAR F-TYPE R-DYNAMIC AWD FEATURING EBONY WINDSOR LEATHER PERFORMANCE SEATS WITH IVORY CONTRAST STITCH WITH OPTIONAL EQUIPMENT

AN EXCLUSIVE SPACE

➤ SUPERIOR CRAFTSMANSHIP | A TAILORED SPACE

We design our interiors so that nothing detracts from the outstanding driving experience. You'll always feel comfortably cocooned in the exquisitely crafted F-TYPE cockpit. The cabin's styling expresses exclusivity and refinement while always maintaining driver focus. Every element of the interior is carefully considered, with even the smallest details deepening the sense of luxury – for instance, the Chrome finishes on the doors and steering wheel.

The F-TYPE interior starts with Jaguar's quintessential British character, but its unique personality is up to you. Tailor your interior styling with a variety of stitches and materials including Windsor leather and suedecloth, as well as Ebony, Pimento, Ivory and Sienna Tan color combinations. It's easy to make the F-TYPE feel truly personal, to make your perfect sports car.

VEHICLE SHOWN: JAGUAR F-TYPE R-DYNAMIC AWD FEATURING EBONY WINDSOR LEATHER PERFORMANCE SEATS WITH IVORY CONTRAST STITCH WITH OPTIONAL EQUIPMENT

LIGHTWEIGHT SEATS

▶ WEIGHT SAVING | **COMFORT AND SUPPORT**

The F-TYPE Sport and Performance seats have been engineered with sports cars in mind. The magnesium construction of the seats reduces vehicle weight. The streamlined form takes up less space enabling a greater range of seating positions. Performance seats provide increased lateral support during dynamic driving and the option of cooling for greater comfort.

VEHICLE SHOWN ABOVE AND RIGHT: JAGUAR F-TYPE R-DYNAMIC AWD FEATURING EBONY WINDSOR LEATHER PERFORMANCE SEATS WITH IVORY CONTRAST STITCH WITH OPTIONAL EQUIPMENT

LUGGAGE SPACE

14.4 CU.FT. | **OPTIONAL POWERED TAILGATE¹**

We have designed the cargo space of the F-TYPE Coupe to create a sports car that fits every lifestyle. With a capacity that is up to 14.4 cu.ft (7.3 cu.ft. in the F-TYPE Convertible) the F-TYPE Coupe certainly has the space to accommodate two generously sized suitcases for a weekend away. For added ease of access, the tailgate can be opened or closed at the touch of a button with the optional powered function.

¹Coupe only.
VEHICLES SHOWN: JAGUAR F-TYPE IN INDUS SILVER AND F-TYPE R-DYNAMIC AWD IN SILICON SILVER WITH OPTIONAL EQUIPMENT

PERFORMANCE ENGINES OVERVIEW

➤ HIGH PERFORMANCE ENGINES | RESPONSIVE POWER

All of the F-TYPE engines deliver high levels of torque and a near instantaneous response to your demand for power.

Making the dynamic performance more accessible is a 2.0 liter 4-cylinder 296HP Turbocharged Gas engine from our Ingenium range. It is the newest addition to our range of outstanding engines alongside the supercharged 3.0 liter V6 340HP, the supercharged 3.0 liter V6 380HP, the supercharged 5.0 liter V8 550HP and the supercharged 5.0 liter V8 575HP.

Every F-TYPE is fitted with an Active Sports Exhaust that creates a race-car inspired crescendo. The exhaust system reacts to throttle position, speed and engine revs by opening active valves. When open, these valves allow exhaust gases to take a more direct, less restrictive route through the rear silencer producing a much richer, more exhilarating sound. The Switchable Active Exhaust¹ allows you to manually open the exhaust valves so you can enjoy the stirring soundtrack of the F-TYPE at all engine speeds.

i4 ENGINE

0-60 mph from 5.4 seconds*

Compression	ratio:1	9.5

*Always follow local speed limits. ¹Optional on F-TYPE, standard on F-TYPE R-Dynamic, F-TYPE R and F-TYPE SVR.

i4 ENGINE

➤ 2.0 LITER 4-CYLINDER 296HP

The high performance Ingenium 2.0 liter 296HP 4-cylinder Turbocharged Gas engine produces 295 lb-ft of torque and delivers outstanding driveability.

- The intelligent Continuously Variable Valve Lift (CVVL) system varies the extent to which inlet valves are opened, reducing engine pumping losses. This lets the engine 'breathe' with maximum efficiency, optimizing power and torque.
- CVVL works in combination with dual independent variable cam timing for ultimate operating flexibility, resulting in excellent power and fuel economy across the rev range.
- The twin scroll turbocharger is fed by an integrated exhaust manifold which increases the transfer of energy to the turbine - significantly reducing turbo lag and improving engine response.
- The twin-scroll turbocharger features ceramic ball-bearings which reduce friction and improves transient response.

SINGLE CENTER MOUNTED EXHAUST

VEHICLE SHOWN: JAGUAR F-TYPE IN YULONG WHITE WITH OPTIONAL EQUIPMENT

V6 ENGINES

[▶ 3.0 LITER V6 340HP](#) |
 [3.0 LITER V6 380HP](#)

The 3.0 liter V6 Supercharged gas engines produce up to 339 lb-ft of torque for powerful and responsive performance.

- The Roots-type twin vortex supercharger provides linear power delivery and maximizes responsiveness.
- A spray guided direct injection system carefully manages the air-fuel mixture in the combustion chamber for improved combustion, extracting more energy from the fuel injected - resulting in excellent power.

- The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance and efficiency.
- A twin, contra-rotating balancer shaft system is employed to maximize refinement; resulting in an engine that delivers power smoothly.

V6 ENGINES

0-60 mph from 4.8 seconds*

3.0 LITER V6 SUPERCHARGED		340HP	380HP

CENTER MOUNTED TWIN EXHAUSTS

VEHICLE SHOWN: JAGUAR F-TYPE IN YULONG WHITE WITH OPTIONAL EQUIPMENT

*Always follow local speed limits.

V8 ENGINES

- 5.0 LITER V8 550HP
- 5.0 LITER V8 575HP

The 5.0 liter V8 Supercharged Gas engines produce up to 516 lb-ft of torque for top of the range performance.

- The V8 has a compact and lightweight all-aluminum design, with impressively low levels of internal friction.
- The engine has been optimized around a state-of-the-art Bosch engine management system. This features high-pressure direct injection with a centrally mounted, multi-hole, spray-guided injection system.

- Fitted with a sixth generation, Twin Vortex System (TVS) supercharger the engine offers superior thermodynamic efficiency and extremely refined noise levels. The supercharger fully utilizes the additional capacity of the 5.0 liter engine, generating a torque profile that delivers outstanding levels of power in a linear and engaging manner.

V8 ENGINES

0-60 mph from 3.5 seconds*

5.0 LITER V8 SUPERCHARGED	550HP	575HP

*Always follow local speed limits.

LIGHTWEIGHT ALUMINUM ARCHITECTURE

➤ **STRONG AND RIGID** | **HIGH POWER-TO-WEIGHT AND TORQUE-TO-WEIGHT RATIOS**

A lightweight aluminum body with a strong, stiff structure is the perfect platform for a sports car. Jaguar pioneered this technology over a decade ago and continues to push the boundaries today. It informs every aspect of how the F-TYPE performs, handles and feels. A strong, stiff structure provides an inherently stable platform for precise, agile handling and allows the finely-tuned suspension system to deliver connectivity and driver feedback. Lightweight aluminum panels are bonded together with a super-strong adhesive, then punched with zinc-coated, boron steel rivets that compress the adhesive to form an airtight bond for phenomenal strength and rigidity. The F-TYPE body is the perfect complement to its high-performance engine range. Together they produce the exceptional power-to-weight and torque-to-weight ratios that deliver the real world measures of performance in a sports car.

The exterior panels are made from specially developed alloys. They combine robustness with greater formability, which gives clarity and tightness to curves and feature lines. On Coupe models, the side pressing is among the most technically advanced. It allows for cleaner lines with an extraordinarily beautiful, uninterrupted sweep from the front pillar to the trailing edge. This combination of advanced materials and innovative techniques has two advantages. It allows us to reproduce the crisp, crafted lines of the F-TYPE, exactly as the designers intended. And it delivers a vehicle with extraordinary structural integrity.

VEHICLE SHOWN: JAGUAR F-TYPE IN INDUS SILVER WITH OPTIONAL EQUIPMENT

ALUMINUM SUSPENSION KNUCKLES

Designed to improve stiffness and strength, the lightweight aluminum front and rear suspension knuckles help to improve the agility and responsiveness of the F-TYPE.

CHASSIS AND SUSPENSION

➤ CONTROL AND COMFORT | DYNAMIC AND REFINED

The Lightweight Aluminum Architecture of the F-TYPE creates a stable platform from which the forged aluminum double wishbone suspension can control the car. With the damping set-up optimized for the best partnership between dynamics and refinement, it gives the perfect combination of control, agility and feedback.

ADAPTIVE DYNAMICS

Standard on the 3.0 liter V6 380HP and 5.0 liter V8 engines, Adaptive Dynamics delivers composed dynamics and a compliant ride. The system assesses body motion and pitch rates 100 times per second. The steering wheel position is also measured 500 times a second enabling the system to predict movements of the F-TYPE. The stiffness of each damper is then adjusted to help maintain body control and agility*.

SUSPENSION

Considered by Jaguar as the best configuration for a suspension system, the F-TYPE forged aluminum double wishbone design offers precise handling and control.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

ADVANCED AERODYNAMICS

[▶ LOW DRAG AND HIGH STABILITY](#) | [DEPLOYABLE REAR SPOILER](#)

Aerodynamic performance is at the heart of the F-TYPE design. It is seamlessly integrated into the body for low levels of lift and excellent stability at high speed. Even the door handles retract to create an uninterrupted airflow along its flanks. The deployable rear spoiler¹ automatically rises at higher speeds to reduce lift by up to 264 lbs. A front splitter beneath the grille manages airflow along the vehicle's underside, with the sharply defined tail helping to separate air cleanly at lower speeds. The result is improved handling and stability.

¹Optional on F-TYPE SVR.

TESTED TO THE EXTREME

▶ VIRTUAL ANALYSIS | REAL WORLD TRIALS

The F-TYPE first took to the road in the virtual world of Computer Aided Engineering (CAE) systems ensuring that all components underwent extensive development and testing before being committed to the physical testing process. Engineers produced a series of virtual prototypes to realistically simulate the behavior of complex mechanical systems allowing them to analyze multiple variations until the optimum design was achieved. For example, using a technique first used in the aerospace industry, aerodynamic testing took place in a virtual wind tunnel with Computational Fluid Dynamics running on high speed supercomputers. During its virtual life, the F-TYPE completed half a million tests requiring 10 million computer processor hours and creating 300TB of data. The CAE development process was one of the key contributing factors in delivering the exhilarating performance and responsiveness of the F-TYPE.

The real world testing to fine tune the set-up took place in specialized facilities and some of the harshest environments across the globe in temperatures ranging from - 40°F to +122°F, and at altitudes of up to 13,123 ft. The Nordschleife circuit at the Nürburgring in Germany was the perfect location to prove out handling, braking, cooling and durability. Known as the "Green Hell", and featuring 12.94 miles of track with 73 turns, it is renowned as the most demanding circuit in the world and the ultimate test of both car and driver.

VEHICLE SHOWN: JAGUAR F-TYPE R IN YULONG WHITE WITH OPTIONAL EQUIPMENT

DRIVING TECHNOLOGY ADVANCED DRIVING DYNAMICS

➤ MAXIMIZING AGILITY | CONTINUOUSLY ADAPTING

ELECTRIC POWER ASSISTED STEERING

Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and is active on demand – saving power for where you really need it. This steering system delivers the immediate response and connected feel expected from a Jaguar sports car. Sophisticated computer management varies steering assistance as appropriate – increasing assistance for low speed maneuvering and improving feel at higher speeds*.

ADAPTIVE DYNAMICS¹

Whether you're accelerating on the highway, cornering on country roads or navigating around town, optional Adaptive Dynamics is designed to modify the F-TYPE response to match the conditions and your driving style. It analyzes acceleration, cornering, throttle and brake pedal activity as well as kick-down activation. Steering movement is analyzed up to 500 times a second, and body movement up to 100 times a second. Electronically controlled dampers then constantly adjust to optimize the suspension settings and maintain the F-TYPE dynamism and comfort*.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

¹Only available with the 3.0 V6 380HP engine and 5.0 V8 engines.

INTENSIFIED PERFORMANCE

[DYNAMIC MODE](#) | [CONFIGURABLE DYNAMICS](#)

Engaging Dynamic Mode amplifies the sporting character of the F-TYPE. On automatic transmission models, gearshifts are faster and at higher engine speeds¹ with automatic upshifts prevented if in Manual Mode, throttle response is sharpened, the dampers are stiffened² and steering weighting is increased. Dynamic Mode also opens the Active Sports Exhaust for a more thrilling soundtrack and brings visual drama to the cabin - the F-TYPE instrument cluster and Configurable Ambient Interior Lighting³ instantly take on a red glow.

The Configurable Dynamics system² allows you to personalize the Dynamic Mode to create your perfect dynamic setup. Via the Touchscreen, four driving characteristics can be changed to Dynamic or left as normal. So whatever combination of throttle sensitivity, gearbox shift points¹, steering weighting or damper stiffness you want, Configurable Dynamics allows you to set up Dynamic Mode to suit your driving needs.

¹Automatic transmissions only.
²Not available with 2.0 liter 296HP engine or 3.0 liter 340HP engine.
³Standard on F-TYPE R and F-TYPE SVR. Optional on F-TYPE and F-TYPE R-Dynamic.

DRY ROAD CONDITIONS

In normal conditions, All Wheel Drive (AWD) models distribute torque to the rear wheels, delivering acclaimed Jaguar agility and handling.

LOW TRACTION CONDITIONS

On slippery surfaces, such as grass and snow, torque can be balanced between the front and rear wheels to improve traction on All Wheel Drive (AWD) models. In extreme conditions where only the front wheels have traction, up to 100 percent of engine torque can be distributed to the front wheels for a more optimal grip.

ADVANCED DRIVETRAIN TECHNOLOGY

ALL WHEEL DRIVE | INTELLIGENT DRIVELINE DYNAMICS

The All Wheel Drive (AWD) system combines the agility and character of Rear Wheel Drive (RWD) with the increased traction provided by AWD. In normal driving, the F-TYPE is predominantly RWD to deliver handling purity, feel and balance. But when roads become more challenging, or when you accelerate on low-grip surfaces, the system subtly channels power forwards enabling the F-TYPE to maintain improved traction for comfortable progress in most conditions*.

The F-TYPE AWD uses a transfer case at the back of the 8-speed Automatic Transmission to manage the appropriate distribution of torque to the front and rear wheels. Engineered to ensure that the F-TYPE retains the dynamic behavior appropriate for a sports car, the transfer case contains an electro-mechanically activated multi-plate clutch with a smart actuator. Torque is delivered quickly and accurately, via a sophisticated ball ramp mechanism that develops the required force at the clutch, to transfer the optimal amount of torque to the front wheels.

Unlike other systems that react to wheel slip, the Jaguar Intelligent Driveline Dynamics (IDD) software is predictive and uses sensors measuring throttle and steering inputs to anticipate wheel slip. IDD seamlessly coordinates these inputs and compares them with responses from the engine, transmission and traction control systems to calculate the traction available and distribute torque accordingly, even before grip is lost. From a standstill, the F-TYPE can transition from RWD to AWD in as little as 165 milliseconds, or just 100 milliseconds when the car is moving**.

The result is a drive which blends the character of RWD with the capability of AWD, providing outstanding levels of performance and control in various conditions.

*This feature is not a substitute for safe and attentive driving, nor can it overcome all extreme circumstances. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

TORQUE VECTORING

- ▶ INCREASED STEERING PERFORMANCE
- ENHANCED CORNERING CAPABILITY

The F-TYPE Torque Vectoring improves capability through even the tightest corners. Torque Vectoring technology provides controlled independent braking of the individual, inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports the most increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding*.

Torque Vectoring delivers increased agility and handling. On the F-TYPE R and the F-TYPE SVR, Torque Vectoring works together with the Electronic Active Differential system (see page 46), complementing each other to enhance traction and cornering ability as well as enhancing steering feel and agility*.

ADDITIONAL ROTATIONAL FORCE APPLIED AROUND VEHICLE'S AXIS

POWER IS SUSTAINED TO MAINTAIN CONSTANT SPEED OF OUTER DRIVEN WHEELS

TORQUE VECTORING APPLIES BRAKE PRESSURE TO SLOW THE INSIDE FRONT AND INSIDE REAR WHEELS INDEPENDENTLY

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

VEHICLE SHOWN: JAGUAR F-TYPE R IN YULONG WHITE WITH OPTIONAL EQUIPMENT

STABILITY AND CONTROL

▶ OUTSTANDING TRACTION | ELECTRONIC ACTIVE DIFFERENTIAL

The Jaguar stability systems are designed to keep the F-TYPE well balanced whether you're driving enthusiastically or simply require assurance when driving in challenging conditions. To fully harness their performance potential, and for greater control and traction, a Limited Slip Differential is fitted with the 3.0L V6 380HP engine and an Electronic Active Differential is fitted with the 5.0L V8 550HP and 575HP engines*.

Limited Slip Differential: When a rear wheel has low grip, the Limited Slip Differential is designed to transfer torque through a mechanically activated clutch package to the wheel that has more grip. This limits slip across the axle, improving control and traction for faster, more precise cornering*.

Electronic Active Differential: Has a higher locking torque capacity to exploit the increased power and torque of the V8 engines. This differential works with the AWD system and Intelligent Driveline Dynamics (IDD) software, as well as the traction and stability systems, to improve traction and cornering control. Variable electronic control allows this differential to continually adjust locking torque between the wheels - this gives sharper turn in when entering corners and the ability to accelerate sooner when leaving corners because the torque at each wheel is more controllable*.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details.

VEHICLE SHOWN: JAGUAR F-TYPE R IN YULONG WHITE WITH OPTIONAL EQUIPMENT

PERFORMANCE BRAKING SYSTEMS

➤ LIGHTWEIGHT | POWERFUL | DURABLE

A range of braking systems are available, each one engineered to deliver a confident, progressive feel and consistent high performance. The calipers use aluminum to reduce the unsprung mass of the car, benefiting both handling and ride refinement. Each system features large, ventilated brake discs – up to 398mm in diameter on the carbon ceramic system. This large swept area improves braking force as well as providing greater capacity for the discs to absorb and dissipate the heat energy generated during braking.

Jaguar's Carbon Ceramic Braking System¹, with its striking Yellow monobloc calipers is the most powerful braking system fitted to a Jaguar road car. It offers up to 46 lbs of weight saving, further reducing unsprung mass. With greater resistance to fade and wear, it is designed to deliver sustained performance in demanding conditions.

355MM FRONT AND 325MM REAR BRAKES

TECHNOLOGY INFOTAINMENT

Delivering a wealth of information and entertainment, every F-TYPE is equipped with our Jaguar InControl® infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their trip*.

TOUCH PRO 10" SCREEN

The standard 10" Touchscreen at the heart of the center console supports swipe and pinch gestures and delivers our richest audio-visual entertainment. To enhance the in-car experience, Touch Pro offers customizable homescreens and fast response times. Multi-tasking is also made easy thanks to the Interactive Side Panel*.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

INTERIOR SHOWN: JAGUAR F-TYPE SVR FEATURING EBONY WINDSOR LEATHER PERFORMANCE SEATS WITH IVORY CONTRAST STITCH

CONNECTIVITY

Jaguar InControl® is our suite of standard and optional features that connects you to your vehicle and links you seamlessly with the outside world. There are a range of packages and options available to choose from. With a selection of apps, even when you're away from your car, some of the InControl features stay with you, making sure the Jaguar experience is more enjoyable than ever*.

STANDARD FEATURES

NAVIGATION PRO

Standard on all models, Navigation Pro allows you to save your favorite places, use pinch and zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics*.

CONNECT PRO PACKAGE¹

Connect Pro consists of InControl Apps, Remote and Pro Services. It's designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world*.

INCONTROL APPS

Features a range of Jaguar approved apps that can be connected to F-TYPE from your smartphone. It ensures convenient use of apps optimized to enhance aspects of your in-car experience. You can also download third-party apps offering a vast range of services. Applications include:

- **Spotify²** – Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.
- **Tile³** – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle's Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey*.

REMOTE⁴

Remote provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or the Apple Watch®, this service includes:

- **Remote Lock/Unlock** – Lock or unlock your doors remotely. Simply press the 'lock' button on the Vehicle Security screen of the Remote smartphone app to single lock the doors and fold in the side mirrors⁵. Press the 'unlock' button to open your vehicle, unfold the side mirrors, turn on the headlights and cause the hazard lights to flash twice to help you locate your vehicle.
- **Remote Climate** – Prepare your F-TYPE in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

- **Beep/Flash** – This feature turns on your Jaguar's hazard lights, headlights and sounds an audible alert to help you locate your vehicle.
- **Journeys** – This opt-in feature can automatically record your trip history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported to a spreadsheet.
- **Vehicle Status Check** – Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.
- **SOS Emergency Call** – Emergency services will be automatically notified if the airbags are deployed in an accident.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

¹Certain features require an appropriate micro SIM with a suitable data contract, which will require further subscription after the initial term as advised by your Jaguar Retailer.

²Please check App Store and Google Play for availability. ³Bluetooth tracker tiles must be purchased separately. 2016 Tile Inc. and the Tile design are trademarks of Tile, Inc.

InControl Apps will need to be downloaded from the Apple App/Google Play Store.

⁴Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer.

⁵When power fold mirrors are specified.

STANDARD FEATURES

PRO SERVICES

Offers a number of enhanced capabilities designed to help you reach your destination easily:

- **Real Time Traffic Information** - Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination*.
- **Online Search** - Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area*.
- **Planning Routes and Door-to-Door Routing** - Before setting off, use the Route Planner app or search online, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination - a true door-to-door experience which includes public transportation options*.
- **Share ETA** - You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you*.
- **Satellite View** - When you want to get the context of your surroundings from overhead, simply switch to satellite view*.
- **Street Level Imagery** - To help you recognize your destination as you approach it, the screen can display a 360° panoramic street level image.

- **Commute Mode** - Allows the system to learn your commutes and automatically advises you of the expected travel time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
- **Parking Service** - As you approach your destination, you can see where parking is available. Simply tap on the parking and the navigation system updates to direct you to it.
- **Online Routing** - While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.
- **Fuel Prices** - When you're going to fill up, the Fuel Price service not only finds gas stations along your route, it also enables you to compare fuel prices so you can keep your costs down.

*Do not use Jaguar InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and the Jaguar F-TYPE has the option of two different audio systems to bring your music to life:

MERIDIAN™ SOUND SYSTEM - 380W¹

Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 8 speakers and 2 subwoofers.

MERIDIAN SURROUND SOUND SYSTEM - 770W²

All the fullness and clarity of a live performance delivered through an arrangement of 10 speakers and 2 subwoofers – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the center and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger.

SIRIUSXM® SATELLITE RADIO AND HD RADIO™¹

Standard on all F-TYPE models, SiriusXM® Radio and HD Radio technology offers improved sound quality, and a wide choice of stations and entertainment*.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Jaguar's audio partner Meridian has pioneered many firsts including active speakers and the world's first digital surround sound processor. Meridian's audio technology input has helped ensure that the F-TYPE is a superb space to experience sound. Meridian Cabin Correction technology was utilized to analyze cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

	UNIQUE MERIDIAN TECHNOLOGY	SPEAKERS + SUBWOOFERS	WATTS
MERIDIAN SOUND		8 + 2	380
MERIDIAN SURROUND SOUND		10 + 2	770

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian's Cabin Correction tailors the sound experience to the precise acoustics of the F-TYPE interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD

Exclusive to Meridian, Trifield™ blends the center and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

¹A three-month trial subscription to the Sirius All Access package is included with the vehicle, which gives you access to 150+ channels of premium programming. Plus you can stream SiriusXM on your computer, smartphone or tablet – it's included in your trial. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming are subject to change. SiriusXM Satellite Radio is not available in Alaska or Hawaii.

²Standard on all models. ³Optional.

Meridian is a trademark of Meridian Audio Ltd. Trifield and the "three fields" device is a trademark of Trifield Productions Ltd. Features and their availability may differ by vehicle specification and market.

ADVANCED DRIVER ASSISTANCE

The technology in the F-TYPE is designed to take the stress out of driving. It can help with everything from reducing the chance of a highway collision to avoiding minor bumps in a parking lot. This range of driver assistance systems give you the reassurance, information and control to focus on the pleasure of the drive.

PARKING AIDS

The optional Front¹ and standard Rear Parking Aids help make maneuvering even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touch Pro display and audio feedback indicates how close you are to obstacles*.

PARK ASSIST

The optional Park Assist system is designed to make parallel parking in a tight spot easier than ever by steering your car into a suitable space. You just have to select the appropriate gear and control the car's speed. Park Assist will also steer you out of a space, taking the stress out of parking. Graphics and notifications guide you through both maneuvers*.

REAR VIEW CAMERA

The standard Rear View Camera provides improved visibility when reversing. Guiding lines representing the vehicle's outer perimeter and predicted path are superimposed onto the rearward image displayed*.

DRIVER CONDITION MONITOR

Our standard Driver Condition Monitor monitors driver inputs to establish if you're starting to feel drowsy or fatigued – giving you an early warning when you need to take a break*.

TRAFFIC SIGN RECOGNITION AND ADAPTIVE SPEED LIMITER

Our standard Traffic Sign Recognition system keeps you fully informed and aware on the road, by displaying speed limits and no passing signs in the instrument cluster where they can easily be seen. When activated, our Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your car's speed accordingly*.

BLIND SPOT ASSIST AND REAR TRAFFIC MONITOR

If your car detects another vehicle in or quickly approaching your blind spot, the optional Blind Spot Monitor system alerts you via a small warning light in the corresponding exterior mirror. As an enhancement to this, Blind Spot Assist will apply steering torque to guide you away from the vehicle in your blind spot if you begin to change lanes. Using the same radar system, Rear Traffic Monitor alerts you via the Touchscreen of moving vehicles during reversing – for example, when leaving a parking bay with restricted vision*.

EMERGENCY BRAKING

Standard Emergency Braking can help prevent collisions with other vehicles or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A camera at the front of the vehicle monitors at speeds from 3 to 50mph for frontal collisions and 3 to 37mph for pedestrians. If a collision is still anticipated and you have taken no action, this system can assist with applying the brakes to help reduce the severity of the possible impact*.

EMERGENCY BRAKE ASSIST

If the brakes are applied rapidly, this standard system boosts braking force to the maximum for shorter stopping distances. It can also help retain greater steering control in unexpected situations*.

LANE KEEP ASSIST

Standard Lane Keep Assist can help make journeys more enjoyable. It can help detect when the car is unintentionally drifting out of the lane, and gently steer you back*.

AUTO HIGH BEAM ASSIST

The optional Auto High Beam Assist system automatically switches between low and high beam when necessary, using a sensor mounted at the front of the rear view mirror*.

LED FRONT LIGHTING SYSTEM

This standard system is designed to provide better illumination in a variety of situations by adjusting the headlight beam to your speed and the weather conditions. At slower speeds it widens the low beam to illuminate your peripheral vision, helping you to see pedestrians and intersections. At higher speeds the system raises and narrows the low beam for extended visibility*.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. ¹Front Parking Aid is standard on F-TYPE SVR and optional on other models. Rear Parking Aid is standard on all models. For more details on feature availability refer to page 83 or configure your vehicle at jaguarusa.com For information on airbags refer to page 78.

THE THEATRE OF DREAMS

SPECIAL VEHICLE OPERATIONS

▶ JAGUAR'S CENTER OF EXCELLENCE

Special Vehicle Operations (SVO) assembles and hand finishes halo models and limited run collector's editions, including the F-TYPE SVR. Each one showcases the best of Jaguar with stunning performance, exceptional luxury and cutting-edge technology. With a dedicated team of designers, engineers and technicians, SVO takes precision engineering to new heights and offers the opportunity for more individuality, choice and personalization. A car from SVO is the ultimate expression of Jaguar.

SVO is based at a brand new Technical Center in Warwickshire, England. This 215,000 sq ft speciality manufacturing facility has been established to enable our most discerning clients to indulge their passion for Jaguar. Our state-of-the-art facility features over 40 engineering inspection station, a commissioning suite and an environmentally sustainable world-class paint facility.

The F-TYPE is now available with an optional range of specially formulated, ultra metallic premium palette of 18 colors and finishes. These latest high technology colors and finishes are applied at our state-of-the-art SVO facility. All ultra Metallic colors come in a Gloss finish or, as an additional option, satin Matte finish (See pages 88-89).

THE CONCEPT OF F-TYPE SVR

> STATE-OF-THE-ART MATERIALS | **ADVANCED AERODYNAMICS**

The F-TYPE SVR is designed and engineered at Special Vehicle Operations where our highly skilled engineers and aerodynamics experts have scrutinized every possible component to maximize performance. In both Coupe and Convertible form, it is the ultimate F-TYPE. State-of-the-art materials and advanced aerodynamic design push F-TYPE beyond the extraordinary with an exceptional powertrain. Delivering supreme performance, ride and handling, F-TYPE SVR creates once-in-a-lifetime driving experiences – every day.

The F-TYPE SVR lightweight All Wheel Drive system, with Intelligent Driveline Dynamics (IDD), delivers the engine's power with efficiency and control¹. The 5.0 V8 engine has been recalibrated to produce 575HP and 516 lb-ft of torque, with a power-to-weight ratio of 6.5 lbs/HP¹. It will take you from 0-60 mph in just 3.5 seconds^{**} and on to a top speed of 200 mph¹. But it is about more than numbers, more than just a machine. Jaguar makes performance an art. The F-TYPE SVR is our latest masterpiece.

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Always follow local speed limits. ¹Coupe only.

F-TYPE SVR AERODYNAMICS

➤ **MAXIMIZED CAPABILITY** | **ADJUSTABLE DOWNFORCE**

The performance of the F-TYPE SVR is not expressed by its exterior design: it is created by it. Form follows function in every swooping curve and finely drawn line. Each unique styling element, down to the smallest, subtle detail, improves the F-TYPE SVR. Its advanced aerodynamic design offers less drag and higher levels of downforce. As a result F-TYPE SVR slices cleanly through the air, achieving rapid acceleration and effortlessly efficient cruising. Strong downforce improves stability and handling, road holding and dynamic capability.

FRONT INTAKES AND SPLITTER

Unique large lower bumper intakes maximize airflow for cooling of both the engine and brakes for improved performance. A precision splitter designed specially for the F-TYPE SVR directs airflow into the car for optimum cooling. It also creates downforce at the front of the car to balance the rear spoiler.

HOOD LOUVERS AND SIDE POWER VENTS

Uniquely shaped louvers maximize airflow through the engine bay. This aids cooling, so the engine can operate at the highest level. Air from the wheel housing is released through side power vents which manage airflow around the wheel arch to minimize drag.

ENHANCED COOLING

The cooling system has been enhanced with significant improvements to airflow. To achieve this, the auxiliary radiator has been relocated, while the bumper beam profile and inlet trumpet size have been reduced. This increases the full performance envelope on the F-TYPE SVR for greater endurance in extreme driving situations.

AERODYNAMIC SPOILER

The aerodynamic spoiler is integral to the enhanced performance of the F-TYPE SVR. Compared with the standard F-TYPE Coupe rear spoiler, the F-TYPE SVR produces more downforce but crucially less drag. The active spoiler is more elevated and wider than the standard F-TYPE Coupe spoiler, enabling it to act over the whole width of the car.

Air passes both over and under the spoiler, allowing Bernoulli's principle to act in the car's favor, faster moving air underneath the spoiler is at a lower pressure than that passing over the top, resulting in additional downforce.

The F-TYPE SVR spoiler operates in two different positions: On the Coupe the aerodynamic spoiler deploys at 70 mph and stores at 50 mph*. On the Convertible the aerodynamic spoiler deploys at 60 mph and stores at 40 mph*.

DEPLOYED SPOILER

When the F-TYPE SVR spoiler is deployed it increases downforce for greater stability and improved handling at top speed. In this position the spoiler gives a drag coefficient reduction of 2.5 percent and a lift coefficient reduction of 15 percent.

STORED SPOILER

For maximum top speed (V-Max), the spoiler is stored to reduce drag. It works in conjunction with the front spoiler and other aerodynamic enhancements to bring a drag coefficient improvement of 7.5 percent and lift coefficient reduction of 45 percent.

V-MAX

In order to achieve 200 mph* you must consciously prepare your F-TYPE SVR. Select 'Dynamic Mode' and press the deployable aerodynamic spoiler switch for three seconds to enable V-Max Mode. While active, a permanent symbol appears on the instrument cluster. In this mode the spoiler remains stored at all speeds keeping drag to a minimum.

REAR UNDERFLOOR AND DIFFUSER

The smooth rear underfloor reduces drag, while the rear diffuser works with the rear underfloor to manage airflow, adding to the stability of the F-TYPE SVR.

VEHICLES SHOWN ABOVE AND PREVIOUS PAGES: JAGUAR F-TYPE SVR IN CALDERA RED WITH OPTIONAL EQUIPMENT

*Always follow local speed limits. F-TYPE SVR Coupe top speed is 200 mph. F-TYPE SVR Convertible top speed is 195 mph.

F-TYPE SVR LIGHTWEIGHT TECHNOLOGIES

➤ **WEIGHT SAVING** | **INNOVATIVE DESIGN**

Weight is the enemy of performance. So we designed the F-TYPE SVR to be as lean as possible. Every pound has a reason to be there. Every ounce saved gives you more rapid acceleration, more agile handling and sharper braking. Yet the interior still offers comfort and luxury in equal measures. The F-TYPE SVR has the capability to make performance effortlessly enjoyable.

FORGED ALLOY WHEELS

The bespoke Forged alloy wheels of the F-TYPE SVR are fitted with unique Pirelli P ZERO™ tires. Its tires are 10mm wider than standard F-TYPE tires, for improved handling and grip. While the striking Forged alloys offer a 30.4 lbs overall weight saving.

CERAMIC BRAKES

The optional CCM brakes on the F-TYPE SVR save up to 46 lbs of weight compared with non-ceramic alternatives.

REAR KNUCKLES

The suspension system has been redesigned enabling a weight saving of 1.3 lbs against conventional knuckles with carbon ceramic brakes. The F-TYPE SVR has a larger rear bearing that contributes towards an increased stiffness of up to 37 percent over the standard F-TYPE knuckles. This enables the car to handle even higher lateral G-forces.

TITANIUM EXHAUST

The lightweight Titanium and Inconel® exhaust system saves 35.2 lbs. With its SVR badged tailpipes, it not only looks unique, it sounds unique – F-TYPE SVR is recognizable by the distinctive rumble of its exhaust.

F-TYPE SVR INTERIOR

[UNIQUE DETAILS](#) | [SPORTING CRAFTSMANSHIP](#)

Just as no detail of the engineering and exterior design of the F-TYPE SVR has been overlooked, its interior is testament to the SVO division's attention to detail. The moment you open the door, the SVR treadplate shows that you are entering a special space.

Exclusive materials are everywhere you look, from fine contrast stitching to ultra-modern finishes that create a sense of total luxury. The SVR badged steering wheel with larger aluminum anodized gearshift paddles offers the perfect connection to the road and the quilted Performance seats offer comfort and support while you enjoy the dynamic drive.

> ROOF STYLES

F-TYPE offers a range of different roofs to suit your own personal style. Each delivering their own distinctive characteristics, they provide a powerful expression of individual flair both inside the cabin and to the outside world.

ALUMINUM ROOF

For the pure Coupe look, the aluminum roof is as strong and lightweight as the rest of the vehicle. It provides the ideal complement in color, style and line to the powerful F-TYPE profile. The aluminum roof expresses F-TYPE in its clearest sports car form.

PANORAMIC GLASS ROOF

Introducing even more natural light and airiness to the interior, a full width panoramic glass roof is optional on F-TYPE Coupe models. For increased seclusion, should it be required, the roof features a manually sliding 'black-out' blind, which can screen the occupants from up to 99 percent of the incoming light.

CARBON FIBER ROOF*

With Carbon Fiber outer and inner panels bonded together to create a strong yet light roof structure, the optional Carbon Fiber roof is 20 percent lighter than the standard aluminum roof. It features Carbon Fiber weave visible through a deep, high-grade lacquered finish.

CONVERTIBLE ROOF

The Convertible's lightweight fabric roof is available in a choice of four colors. Acoustically enhanced with composite fabric to reduce noise, it features a flush fitting heated glass rear window. The roof can be raised or lowered in just 12 seconds and operated fully automatically at speeds of up to 30 mph.

*Please consult your local Jaguar Retailer for availability.

● Standard ○ Option — Not available ■ Part of Package

*These features are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Jaguar Retailer for more details. **Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat. *Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

Please consult your local Jaguar Retailer for details.

For a complete list of optional features and packages refer to the F-TYPE Specification and Price Guide or configure your vehicle at jaguarusa.com

VEHICLE SHOWN: JAGUAR F-TYPE R IN YULONG WHITE WITH SILVER WEAVE CARBON FIBER PACKAGE

¹Manual transmission only.
²Automatic transmission only.
³Coupe only.

Carbon Fiber Gear Selector¹
T2R24247

Enjoy the unique feel of this performance-inspired Carbon Fiber topped gear selector with a High Gloss lacquered finish.

Personalized Illuminated Sill Treadplates
T2R6091

Elegantly styled stainless steel sill treadplate finisher for driver or passenger doors. Illuminate when either the driver or passenger doors are opened. Highlighted by soft Phosphor Blue lighting. Allows you to specify a monochrome 'motif' in a choice of approved typefaces/scripts.

Aluminum Gearshift Paddles²
T2R6547MMU

Replacement steering wheel gearshift paddles offered in a premium aluminum material providing a high quality finish to a key contact point in the vehicle. Manufactured from billet machined aluminum, the paddles are hand brushed for a premium finish and anodized to ensure they will not deteriorate with wear.

Flexible Luggage Retainer
C2D20903

Provides a neat storage solution to help secure luggage or other items within the luggage compartment.

Luxury Carpet Mats
T2R16570PVJ - Left Hand Drive

Luxurious, tailored 2,050g/m² pile front carpet mats with embossed Jaguar logo and Nubuck edge binding. The luxury mats provide a well appointed finishing touch to the interior.

Side Net³
T2R22934

Side net provides additional enclosed storage in the luggage compartment and helps to secure loose items such as bags or small parcels.

VEHICLE SHOWN: JAGUAR F-TYPE R IN YULONG WHITE WITH OPTIONAL EQUIPMENT

THE WORLD OF JAGUAR

Choose the F-TYPE and you're joining the exciting World of Jaguar.

ICE DRIVE EXPERIENCES

Take your driving to the next level with the Jaguar Land Rover Ice Drive Experience. We offer an adventure in Arjeplog, Sweden, that will test and develop your performance driving skills in extreme conditions. It's a rare chance for owners and enthusiasts to tackle some of the harshest and most challenging tracks on earth, under the skilled guidance of our experts. Our driving instructors are of the highest-calibre and will be with you every step of the way - ready to impart years of driving wisdom. You will dance on ice, glide around some of the most awe-inspiring corners imaginable and realize the true exhilarating potential of Jaguar and Land Rover.

If you'd like to be part of the next adventure, find out more by visiting jaguarusa.com

FORMULA E

Jaguar's reputation for performance, technology and design was forged by the world's most challenging circuits and championships. From Le Mans to Formula 1, and now Formula E, the grid is our test-bed. Formula E provides the perfect proving ground for electric vehicle technology in a high performance environment. The racing series accelerates the development of Jaguar's electric powertrains. With every race, Formula E helps Jaguar engineers create better electric vehicles.

BEHIND THE SCENES

Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life - from the molding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you'll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar's most breathtaking cars.

Find out more at jaguarusa.com

TRACK DAYS

There's no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit.

Find out more by visiting jaguarusa.com

JAGUAR COLLECTION

The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our vehicles. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage, we also have a collection that honors past achievements and features race inspired gift items and apparel.

Visit shop.jaguarusa.com to browse the Jaguar collection.

JAGUAR MAGAZINE

This is our own vibrant, cosmopolitan and contemporary magazine. Produced by a team of enthusiastic designers and feature writers, it goes behind the scenes at Jaguar as well as providing insight into the world of luxury, design, style and travel.

FIND A RETAILER

BUILD YOUR OWN

AT YOUR SERVICE

As well as providing a range of exclusive services and lifestyle products, the World of Jaguar makes owning and driving carefree and easy.

JAGUAR ELITECARE

Enjoy your Jaguar with peace of mind. The F-TYPE is backed by Jaguar EliteCare, our coverage program including New Vehicle Limited Warranty, Complimentary Scheduled Maintenance, Roadside Assistance and Jaguar InControl Remote & Protect™.

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your F-TYPE to contribute to optimum performance and to help maximize its lifespan.

FLEET & BUSINESS

Jaguar vehicles are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing customer-focused aftersales services, ensuring that every Jaguar performs to the highest standard and in the most cost-efficient way for businesses.

Visit jaguarusa.com/fleet-and-business for more information.

JAGUAR ASSISTANCE

Jaguar Optimized Assistance provides assistance in motoring emergencies, from immobilization due to breakdown or accident to minor problems such as punctures.

You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle's warranty period.

JAGUAR FINANCIAL SERVICES

New or used, for personal or business use, we have a finance option that puts you in complete control. Please speak to your local Jaguar Retailer to find out more.

IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

COLORS

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Jaguar Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

ENVIRONMENTAL INNOVATION AT JAGUAR

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development.
