THE 2010 ES

Sound dampeners, intelligent sensors and other painstaking refinements. By themselves, just parts on a list. But when combined with the kinds of luxurious amenities you've grown to expect from Lexus, the result is more than just a vehicle. It's an experience.

IN THIS CASE, THE SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety: yours. To that end, the ES features available heated and ventilated front seats that can be modified to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And, to ensure your efforts aren't in vain, the Lexus Memory System can recall the driver's (and, should you opt for it, the front-passenger's) settings at the press of a button.

SAFETY CONNECT™

DESIGNED TO HELP
SAFEGUARD YOUR LIFE.

With Safety Connect^{3,5} you can receive emergency help at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance⁶ for a flat tire. The Safety Connect^{3,5} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁷ have been deployed.

See disclaimers on page 56.

LEARN MORE

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{3,4} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the ES's available navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹ Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

LUXURY, FROM FLOOR TO CEILING.

Who says that luxury should be limited to traditional areas like dashboards and seating? The ES is the only Lexus to offer the exquisite option of a panorama glass roof. In addition to providing fresh air to the front passengers and natural sunlight to all occupants, its striking exterior glass fits seamlessly into the metal roof frame so no molding is visible. And, should the fresh air entering the cabin threaten to become anything but, the automatic dual-zone climate-control system uses a carbon filter designed to trap everything from odors to pollen to dust.

Available panorama glass roof

Available power rear sunshade

Dual-zone automatic climate control

Available wood- and leather-trimmed steering wheel and shift knob

WE'VE INVESTED YEARS OF RESEARCH. YOU RECEIVE THE DIVIDENDS.

When it comes to acoustics, the smallest adjustments can have the greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of Thinsulate™ is used to help dampen the sounds of the road below. Relatively minor modifications until you realize there are 111 more examples just like it. And vibrations? The ES has 88 ways to help minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. Why go to such rigorous lengths? The results speak for themselves. Very quietly.

114 points of sound dampening

88 measures taken to prevent vibrations

Who says courtesy can't be cutting edge? If anything, one of the reasons the ES is so accommodating is precisely because of its state-of-the-art technology. Consider just a few of the thoughtful innovations you'll find inside. Like an available voice-recognition system that responds to casual speech; available XM® NavWeather™^{1,2} XM NavTraffic^{®1,2} and XM® Sports and Stocks^{1,2}; and an available all-new GPS service that provides you with live navigation and Emergency Assistance Button (SOS) 24 hours a day.

Optional equipment shown. See disclaimers on page 56.

THE GOOD NEWS: YOU'LL ARRIVE SOONER. THE BAD NEWS: YOU'LL ARRIVE SOONER.

While you'll never be in a hurry to exit the ES, odds are you'll find yourself in a hurry of some sort. For those unfortunate times, the ES offers performance technology that's up to the task. Its 272-horsepower¹¹ V6 engine gives the ES a 0-60 time of 6.8 seconds.^{11,12} And, its six-speed transmission offers the driver exceptional performance at virtually any speed as well as the ability to manually shift gears for a more engaged driving experience.

The most advanced automotive voice-recognition system on the market, available voice command is designed to understand the way people actually speak—no need for awkward robotic catchphrases. To raise the temperature, for instance, you need only say, “It’s too cold,” and the interior will warm by 4 degrees. And, from the destination menu, if you say, “I need an ATM,” the closest locations will be displayed.

EVEN THE ROAD IS
ATTRACTED TO IT.

While we'd love to say emotion is the main reason the road and ES are so inseparable, it's really more a matter of engineering. A uniquely designed rear subframe helps provide improved handling and rigidity. Its front suspension geometry is specifically engineered for greater control and steering feel. And, with traction control technology that can respond to wheel slippage, even rain and snow may not be able to keep the two apart.

See disclaimers on page 56.

*possible scenario

Bid farewell to the days of fumbling for keys. By keeping the small key fob in your pocket or purse, the car will recognize your presence and unlock the door with just a touch of the door handle.⁹

Auto-dimming outside mirrors with tilt-down in reverse

Personalized illuminated entry system with exterior mirror-mounted puddle lamps

Among its many courteous features, SmartAccess^{8,9} was designed for your convenience as well as your safety. As you approach, lamps underneath the side mirrors illuminate, ushering you to the vehicle and casting light on the ground to help you avoid puddles and other hazards. Simultaneously, the interior lights slowly turn on and the driver's door unlocks when you touch the handle. And, with the remote keyless entry-linked memory system,⁹ the ES can even recognize which of the two supplied SmartAccess^{8,9} keys is present and adjust the seat, steering wheel and outside-mirror positions to that driver's programmed preferences.

JUST ONE MORE REASON
YOU'LL FIND IT SO INVITING.

Offering fully discrete 5.1-channel playback in a 7.1-channel speaker architecture, the available Mark Levinson® Premium Surround Sound Audio System¹⁰ in the ES uses 14 strategically placed speakers to create a “sweet spot” of sound that envelops the entire cabin. The result is a listening experience that’s virtually unrivaled by other automobiles in its category.

AUDIO SYSTEMS ARE KNOWN TO CREATE A
“SWEET SPOT” OF SOUND.
ON THE ES—IT’S CALLED THE INTERIOR.

When not searching for new ways to elevate the interior, Lexus engineers were finding ways to elevate your heart rate. One of their more exhilarating discoveries: an innovative engine system that continually monitors and adjusts the timing of the intake and exhaust valves, providing greater power on demand as well as improved mileage and lower emissions.

PROOF THAT EVEN THE MOST
METICULOUS ENGINEERS KNOW HOW TO
LET LOOSE.

EVERY DRIVER
LOVES A SHORTCUT.
EXCEPT IN THIS CASE.

ACTIVE SAFETY

- Vehicle Stability Control (VSC)¹³
- Traction Control (TRAC)
- Four-wheel power-assisted disc brakes with front ventilated discs
- Four-sensor, four-channel Anti-lock Braking System (ABS)
- Brake Assist¹⁸
- Electronic Brakeforce Distribution (EBD)
- Direct Tire Pressure Monitor System²³
- Water-repellent front-door glass
- Daytime running lights
- Integrated foglamps
- Rain-sensing intermittent windshield wipers with mist cycle
- Rear window defogger with auto-off timer
- Power-adjustable outside mirrors with integrated turn indicators, defoggers and puddle lamps

SECURITY

- Safety Connect^{3,5} offers Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance⁶ services. Subscription required. One-year subscription included
- Vehicle theft-deterrent and engine immobilizer system⁹
- Emergency interior trunk release
- First aid kit
- Tool kit

The ES offers some of the most advanced safety technology on the road today. From an available lighting system that can help you see through curves to a 10-airbag⁷ system with frontal airbags⁷ that are designed to sense and deploy at different speeds. Highly technical systems which required years of development, to be sure. But, frankly, it wasn't time we were interested in saving.

SAFETY

SPECS

While the Lexus badge on the front of the ES means a lot to those who drive our vehicles, it can also mean a great deal to those who don't. A radar sensor mounted behind the Lexus badge works with the available Dynamic Radar Cruise Control¹⁴ system and the available Pre-Collision System¹⁵ to constantly monitor and react to vehicles traveling ahead or toward the ES.

SO FOCUSED ON DRIVERS, IT EVEN MONITORS OTHER ONES ON THE ROAD.

An available Dual-swivel Adaptive Front Lighting system can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph.

Available Dynamic Radar Cruise Control¹⁴ uses radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes if necessary.

An available Pre-Collision System¹⁵ can help determine when certain types of frontal collisions are unavoidable and automatically retract the driver's seatbelt to help prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

SEATING AND TRIM

Leather-trimmed interior

10-way driver's and front passenger's (including lumbar) power seats

DRIVERS VARY. SHOULDN'T THEIR AIRBAGS?

Not every driver—or collision for that matter—is the same. To address these differences, the ES includes 10 airbags.⁷ The front airbags⁷ feature a sophisticated dual-stage airbag⁷ system. Depending on several factors, such as crash severity and driver's seat-track position, the driver's airbag⁷ is designed to deploy at one of three speeds. To view these and the remaining eight airbags⁷ in action, click below.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *ES Warranty and Services Guide* at your Lexus dealer for details.

1. The Navigation System is designed to assist in locating an address or point of interest. XM[®] Radio, XM NavTraffic[®], XM NavWeather[™] and XM[®] Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **2.** XM NavTraffic and XM NavWeather each require a separate XM subscription. XM Sports and Stocks is available with an XM Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **3.** Available on select 2010 Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. **4.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **5.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **6.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **7.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **8.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **9.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloa.org. **10.** Mark Levinson[®] is a registered trademark of Harman International Industries, Inc. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **12.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **13.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **14.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **15.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **16.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **17.** EPA MPG Estimates. Actual mileage will vary. **18.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **19.** Functioning XM Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and D.C. **20.** iPod[®] is a registered trademark of Apple Inc. All rights reserved. **21.** Bluetooth[®] technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **22.** Bluetooth[®] audio device must be enabled with A2DP and AVRCP. **23.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **24.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application. **25.** Continuous average power, all channels driven, at less than 0.1% THD; 20–20,000 Hz. **26.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **27.** The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

Heated and
ventilated seating

Optional equipment shown.

IN THIS CASE, THE SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety: yours. To that end, the ES features available heated and ventilated front seats that can be modified to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And, to ensure your efforts aren't in vain, the Lexus Memory System can recall the driver's (and, should you opt for it, the front-passenger's) settings at the press of a button.

LUXURY, FROM FLOOR TO CEILING.

Who says that luxury should be limited to traditional areas like dashboards and seating? The ES is the only Lexus to offer the exquisite option of a panorama glass roof. In addition to providing fresh air to the front passengers and natural sunlight to all occupants, its striking exterior glass fits seamlessly into the metal roof frame so no molding is visible. And, should the fresh air entering the cabin threaten to become anything but, the automatic dual-zone climate-control system uses a carbon filter designed to trap everything from odors to pollen to dust.

Available panorama glass roof

Available power rear sunshade

Dual-zone automatic climate control

Available wood- and leather-trimmed steering wheel and shift knob

SAFETY CONNECT™

DESIGNED TO HELP
SAFEGUARD YOUR LIFE.

With Safety Connect^{3,5} you can receive emergency help at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance⁶ for a flat tire. The Safety Connect^{3,5} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁷ have been deployed.

See disclaimers on page 56.

LEARN MORE

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{3,4} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the ES's available navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹ Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

SAFETY

SPECS

WE'VE INVESTED YEARS OF RESEARCH. YOU RECEIVE THE DIVIDENDS.

When it comes to acoustics, the smallest adjustments can have the greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of Thinsulate™ is used to help dampen the sounds of the road below. Relatively minor modifications until you realize there are 112 more examples just like it. And vibrations? The ES has 88 ways to help minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. Why go to such rigorous lengths? The results speak for themselves. Very quietly.

Bid farewell to the days of fumbling for keys. By keeping the small key fob in your pocket or purse, the car will recognize your presence and unlock the door with just a touch of the door handle.⁹

Auto-dimming
outside mirrors with
tilt-down in reverse

Personalized illuminated
entry system with exterior
mirror-mounted puddle lamps

Among its many courteous features, SmartAccess^{8,9} was designed for your convenience as well as your safety. As you approach, lamps underneath the side mirrors illuminate, ushering you to the vehicle and casting light on the ground to help you avoid puddles and other hazards. Simultaneously, the interior lights slowly turn on and the driver's door unlocks when you touch the handle. And, with the remote keyless entry-linked memory system,⁹ the ES can even recognize which of the two supplied SmartAccess^{8,9} keys is present and adjust the seat, steering wheel and outside-mirror positions to that driver's programmed preferences.

JUST ONE MORE REASON
YOU'LL FIND IT SO INVITING.

A photograph of a winding asphalt road through a hilly landscape. The road curves from the bottom right towards the center. The foreground is filled with tall, golden-brown grasses. In the background, there are rolling hills and mountains under a soft, orange and yellow sky, suggesting a sunset or sunrise. A small building and trees are visible on a hill in the distance.

EVEN THE ROAD IS
ATTRACTED TO IT.

While we'd love to say emotion is the main reason the road and ES are so inseparable, it's really more a matter of engineering. A uniquely designed rear subframe helps provide improved handling and rigidity. Its front suspension geometry is specifically engineered for greater control and steering feel. And, with traction control technology that can respond to wheel slippage, even rain and snow may not be able to keep the two apart.

AMENITIES

INNOVATION

PERFORMANCE

SAFETY

SPECS

Vehicle Stability Control (VSC)¹³ uses sensors to identify when there is a loss of traction during cornering.

If a loss of traction occurs, the system responds by applying the brakes and reducing the throttle to help you keep on track.*

*possible scenario

EVERY DRIVER
LOVES A SHORTCUT.
EXCEPT IN THIS CASE.

The ES offers some of the most advanced safety technology on the road today. From an available lighting system that can help you see through curves to a 10-airbag⁷ system with frontal airbags⁷ that are designed to sense and deploy at different speeds. Highly technical systems which required years of development, to be sure. But, frankly, it wasn't time we were interested in saving.

Offering fully discrete 5.1-channel playback in a 7.1-channel speaker architecture, the available Mark Levinson® Premium Surround Sound Audio System¹⁰ in the ES uses 14 strategically placed speakers to create a “sweet spot” of sound that envelops the entire cabin. The result is a listening experience that’s virtually unrivaled by other automobiles in its category.

AUDIO SYSTEMS ARE KNOWN TO CREATE A
“SWEET SPOT” OF SOUND.
ON THE ES—IT’S CALLED THE INTERIOR.

When not searching for new ways to elevate the interior, Lexus engineers were finding ways to elevate your heart rate. One of their more exhilarating discoveries: an innovative engine system that continually monitors and adjusts the timing of the intake and exhaust valves, providing greater power on demand as well as improved mileage and lower emissions.

While the Lexus badge on the front of the ES means a lot to those who drive our vehicles, it can also mean a great deal to those who don't. A radar sensor mounted behind the Lexus badge works with the available Dynamic Radar Cruise Control¹⁴ system and the available Pre-Collision System¹⁵ to constantly monitor and react to vehicles traveling ahead or toward the ES.

SO FOCUSED ON DRIVERS, IT EVEN MONITORS OTHER ONES ON THE ROAD.

An available Dual-swivel Adaptive Front Lighting system can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph.

Available Dynamic Radar Cruise Control¹⁴ uses radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes if necessary.

An available Pre-Collision System¹⁵ can help determine when a frontal collision is unavoidable and automatically retract the driver's seatbelt to help prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

DRIVERS VARY. SHOULDN'T THEIR AIRBAGS?

Not every driver—or collision for that matter—is the same. To address these differences, the ES includes 10 airbags.⁷ The front airbags⁷ feature a sophisticated dual-stage airbag⁷ system. Depending on several factors, such as crash severity and driver's seat-track position, the driver's airbag⁷ is designed to deploy at one of three speeds. To view these and the remaining eight airbags⁷ in action, click below.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *ES Warranty and Services Guide* at your Lexus dealer for details.

1. The Navigation System is designed to assist in locating an address or point of interest. XM[®] Radio, XM NavTraffic[®], XM NavWeather[™] and XM[®] Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **2.** XM NavTraffic and XM NavWeather each require a separate XM subscription. XM Sports and Stocks is available with an XM Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **3.** Available beginning Fall 2009 on select Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms is available; charges vary by subscription term selected. **4.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **5.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **6.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **7.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **8.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **9.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloia.org. **10.** Mark Levinson[®] is a registered trademark of Harman International Industries, Inc. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **12.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **13.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **14.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **15.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **16.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **17.** EPA MPG Estimates. Actual mileage will vary. **18.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **19.** Functioning XM Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and D.C. **20.** iPod[®] is a registered trademark of Apple Inc. All rights reserved. **21.** Bluetooth[®] technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **22.** Bluetooth[®] audio device must be enabled with A2DP and AVRCP. **23.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **24.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application. **25.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **26.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **27.** The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

Heated and
ventilated seating

Optional equipment shown.

IN THIS CASE, THE SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety: yours. To that end, the ES features available heated and ventilated front seats that can be modified to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And, to ensure your efforts aren't in vain, the Lexus Memory System can recall the driver's (and, should you opt for it, the front-passenger's) settings at the press of a button.

3 ■ 2 ■ 1 ■ 0 ■ 1 ■ 2 ■ 3

LUXURY, FROM FLOOR TO CEILING.

Who says that luxury should be limited to traditional areas like dashboards and seating? The ES is the only Lexus to offer the exquisite option of a panorama glass roof. In addition to providing fresh air to the front passengers and natural sunlight to all occupants, its striking exterior glass fits seamlessly into the metal roof frame so no molding is visible. And, should the fresh air entering the cabin threaten to become anything but, the automatic dual-zone climate-control system uses a carbon filter designed to trap everything from odors to pollen to dust.

WE'VE INVESTED YEARS OF RESEARCH. YOU RECEIVE THE DIVIDENDS.

When it comes to acoustics, the smallest adjustments can have the greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of Thinsulate™ is used to help dampen the sounds of the road below. Relatively minor modifications until you realize there are 112 more examples just like it. And vibrations? The ES has 88 ways to help minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. Why go to such rigorous lengths? The results speak for themselves. Very quietly.

AUDIO

Who says courtesy can't be cutting edge? If anything, one of the reasons the ES is so accommodating is precisely because of its state-of-the-art technology. Consider just a few of the thoughtful innovations you'll find inside. Like an available voice-recognition system that responds to casual speech; available XM® NavWeather™^{1,2} XM NavTraffic^{®1,2} and XM® Sports and Stocks^{1,2}; and an available all-new GPS service that provides you with live navigation and Emergency Assistance Button (SOS) 24 hours a day.

Optional equipment shown. See disclaimers on page 56.

SAFETY CONNECT™

DESIGNED TO HELP
SAFEGUARD YOUR LIFE.

With Safety Connect^{3,5} you can receive emergency help at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance⁶ for a flat tire. The Safety Connect^{3,5} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁷ have been deployed.

See disclaimers on page 56.

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{3,4} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the ES's available navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹ Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

PASSENGER AIR BAG OFF

Bid farewell to the days of fumbling for keys. By keeping the small key fob in your pocket or purse, the car will recognize your presence and unlock the door with just a touch of the door handle.⁹

Auto-dimming outside mirrors with tilt-down in reverse

Personalized illuminated entry system with exterior mirror-mounted puddle lamps

Among its many courteous features, SmartAccess^{8,9} was designed for your convenience as well as your safety. As you approach, lamps underneath the side mirrors illuminate, ushering you to the vehicle and casting light on the ground to help you avoid puddles and other hazards. Simultaneously, the interior lights slowly turn on and the driver's door unlocks when you touch the handle. And, with the remote keyless entry-linked memory system,⁹ the ES can even recognize which of the two supplied SmartAccess^{8,9} keys is present and adjust the seat, steering wheel and outside-mirror positions to that driver's programmed preferences.

JUST ONE MORE REASON
YOU'LL FIND IT SO INVITING.

Offering fully discrete 5.1-channel playback in a 7.1-channel speaker architecture, the available Mark Levinson® Premium Surround Sound Audio System¹⁰ in the ES uses 14 strategically placed speakers to create a “sweet spot” of sound that envelops the entire cabin. The result is a listening experience that’s virtually unrivaled by other automobiles in its category.

AUDIO SYSTEMS ARE KNOWN TO CREATE A
“SWEET SPOT” OF SOUND.
ON THE ES—IT’S CALLED THE INTERIOR.

When not searching for new ways to elevate the interior, Lexus engineers were finding ways to elevate your heart rate. One of their more exhilarating discoveries: an innovative engine system that continually monitors and adjusts the timing of the intake and exhaust valves, providing greater power on demand as well as improved mileage and lower emissions.

PROOF THAT EVEN THE MOST
METICULOUS ENGINEERS KNOW HOW TO
LET LOOSE.

THE GOOD NEWS: YOU'LL ARRIVE SOONER.
THE BAD NEWS: YOU'LL ARRIVE SOONER.

While you'll never be in a hurry to exit the ES, odds are you'll find yourself in a hurry of some sort. For those unfortunate times, the ES offers performance technology that's up to the task. Its 272-horsepower¹¹ V6 engine gives the ES a 0-60 time of 6.8 seconds.^{11,12} And, its six-speed transmission offers the driver exceptional performance at virtually any speed as well as the ability to manually shift gears for a more engaged driving experience.

EVEN THE ROAD IS
ATTRACTED TO IT.

While we'd love to say emotion is the main reason the road and ES are so inseparable, it's really more a matter of engineering. A uniquely designed rear subframe helps provide improved handling and rigidity. Its front suspension geometry is specifically engineered for greater control and steering feel. And, with traction control technology that can respond to wheel slippage, even rain and snow may not be able to keep the two apart.

AMENITIES

INNOVATION

PERFORMANCE

SAFETY

SPECS

Vehicle Stability Control (VSC)¹³ uses sensors to identify when there is a loss of traction during cornering.

If a loss of traction occurs, the system responds by applying the brakes and reducing the throttle to help you keep on track.*

*possible scenario

EVERY DRIVER
LOVES A SHORTCUT.
EXCEPT IN THIS CASE.

The ES offers some of the most advanced safety technology on the road today. From an available lighting system that can help you see through curves to a 10-airbag⁷ system with frontal airbags⁷ that are designed to sense and deploy at different speeds. Highly technical systems which required years of development, to be sure. But, frankly, it wasn't time we were interested in saving.

While the Lexus badge on the front of the ES means a lot to those who drive our vehicles, it can also mean a great deal to those who don't. A radar sensor mounted behind the Lexus badge works with the available Dynamic Radar Cruise Control¹⁴ system and the available Pre-Collision System¹⁵ to constantly monitor and react to vehicles traveling ahead or toward the ES.

SO FOCUSED ON DRIVERS, IT EVEN MONITORS OTHER ONES ON THE ROAD.

An available Dual-swivel Adaptive Front Lighting system can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph.

Available Dynamic Radar Cruise Control¹⁴ uses radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes if necessary.

An available Pre-Collision System¹⁵ can help determine when a frontal collision is unavoidable and automatically retract the driver's seatbelt to help prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

AMENITIES

PERFORMANCE

SAFETY

SPECS

DRIVERS VARY. SHOULDN'T THEIR AIRBAGS?

Not every driver—or collision for that matter—is the same. To address these differences, the ES includes 10 airbags.⁷ The front airbags⁷ feature a sophisticated dual-stage airbag⁷ system. Depending on several factors, such as crash severity and driver's seat-track position, the driver's airbag⁷ is designed to deploy at one of three speeds. To view these and the remaining eight airbags⁷ in action, click below.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *ES Warranty and Services Guide* at your Lexus dealer for details.

1. The Navigation System is designed to assist in locating an address or point of interest. XM[®] Radio, XM NavTraffic[®], XM NavWeather[™] and XM[®] Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **2.** XM NavTraffic and XM NavWeather each require a separate XM subscription. XM Sports and Stocks is available with an XM Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **3.** Available beginning Fall 2009 on select Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms is available; charges vary by subscription term selected. **4.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **5.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **6.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **7.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **8.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **9.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloia.org. **10.** Mark Levinson[®] is a registered trademark of Harman International Industries, Inc. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **12.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **13.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **14.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **15.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **16.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **17.** EPA MPG Estimates. Actual mileage will vary. **18.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **19.** Functioning XM Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and D.C. **20.** iPod[®] is a registered trademark of Apple Inc. All rights reserved. **21.** Bluetooth[®] technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **22.** Bluetooth[®] audio device must be enabled with A2DP and AVRCP. **23.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **24.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application. **25.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **26.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **27.** The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

Heated and
ventilated seating

IN THIS CASE, THE SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety: yours. To that end, the ES features available heated and ventilated front seats that can be modified to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And, to ensure your efforts aren't in vain, the Lexus Memory System can recall the driver's (and, should you opt for it, the front-passenger's) settings at the press of a button.

LUXURY, FROM FLOOR TO CEILING.

Who says that luxury should be limited to traditional areas like dashboards and seating? The ES is the only Lexus to offer the exquisite option of a panorama glass roof. In addition to providing fresh air to the front passengers and natural sunlight to all occupants, its striking exterior glass fits seamlessly into the metal roof frame so no molding is visible. And, should the fresh air entering the cabin threaten to become anything but, the automatic dual-zone climate-control system uses a carbon filter designed to trap everything from odors to pollen to dust.

WE'VE INVESTED YEARS OF RESEARCH. YOU RECEIVE THE DIVIDENDS.

When it comes to acoustics, the smallest adjustments can have the greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of Thinsulate™ is used to help dampen the sounds of the road below. Relatively minor modifications until you realize there are 112 more examples just like it. And vibrations? The ES has 88 ways to help minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. Why go to such rigorous lengths? The results speak for themselves. Very quietly.

SMARTACCESS

AUDIO

Who says courtesy can't be cutting edge? If anything, one of the reasons the ES is so accommodating is precisely because of its state-of-the-art technology. Consider just a few of the thoughtful innovations you'll find inside. Like an available voice-recognition system that responds to casual speech; available XM® NavWeather™^{1,2} XM NavTraffic^{®1,2} and XM® Sports and Stocks^{1,2}; and an available all-new GPS service that provides you with live navigation and Emergency Assistance Button (SOS) 24 hours a day.

Optional equipment shown. See disclaimers on page 56.

SAFETY CONNECT™

DESIGNED TO HELP
SAFEGUARD YOUR LIFE.

With Safety Connect^{3,5} you can receive emergency help at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance⁶ for a flat tire. The Safety Connect^{3,5} service also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁷ have been deployed.

See disclaimers on page 56.

LEARN MORE

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{3,4} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the ES's available navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.¹ Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

AUTO OFF FRONT REAR AUTO

Bid farewell to the days of fumbling for keys. By keeping the small key fob in your pocket or purse, the car will recognize your presence and unlock the door with just a touch of the door handle.⁹

Auto-dimming
outside mirrors with
tilt-down in reverse

Personalized illuminated
entry system with exterior
mirror-mounted puddle lamps

Among its many courteous features, SmartAccess^{8,9} was designed for your convenience as well as your safety. As you approach, lamps underneath the side mirrors illuminate, ushering you to the vehicle and casting light on the ground to help you avoid puddles and other hazards. Simultaneously, the interior lights slowly turn on and the driver's door unlocks when you touch the handle. And, with the remote keyless entry-linked memory system,⁹ the ES can even recognize which of the two supplied SmartAccess^{8,9} keys is present and adjust the seat, steering wheel and outside-mirror positions to that driver's programmed preferences.

JUST ONE MORE REASON
YOU'LL FIND IT SO INVITING.

Offering fully discrete 5.1-channel playback in a 7.1-channel speaker architecture, the available Mark Levinson® Premium Surround Sound Audio System¹⁰ in the ES uses 14 strategically placed speakers to create a “sweet spot” of sound that envelops the entire cabin. The result is a listening experience that’s virtually unrivaled by other automobiles in its category.

AUDIO SYSTEMS ARE KNOWN TO CREATE A
“SWEET SPOT” OF SOUND.
ON THE ES—IT’S CALLED THE INTERIOR.

When not searching for new ways to elevate the interior, Lexus engineers were finding ways to elevate your heart rate. One of their more exhilarating discoveries: an innovative engine system that continually monitors and adjusts the timing of the intake and exhaust valves, providing greater power on demand as well as improved mileage and lower emissions.

PROOF THAT EVEN THE MOST
METICULOUS ENGINEERS KNOW HOW TO
LET LOOSE.

THE GOOD NEWS: YOU'LL ARRIVE SOONER. THE BAD NEWS: YOU'LL ARRIVE SOONER.

While you'll never be in a hurry to exit the ES, odds are you'll find yourself in a hurry of some sort. For those unfortunate times, the ES offers performance technology that's up to the task. Its 272-horsepower¹¹ V6 engine gives the ES a 0-60 time of 6.8 seconds.^{11,12} And, its six-speed transmission offers the driver exceptional performance at virtually any speed as well as the ability to manually shift gears for a more engaged driving experience.

EVEN THE ROAD IS
ATTRACTED TO IT.

While we'd love to say emotion is the main reason the road and ES are so inseparable, it's really more a matter of engineering. A uniquely designed rear subframe helps provide improved handling and rigidity. Its front suspension geometry is specifically engineered for greater control and steering feel. And, with traction control technology that can respond to wheel slippage, even rain and snow may not be able to keep the two apart.

Vehicle Stability Control (VSC)¹³ uses sensors to identify when there is a loss of traction during cornering.

If a loss of traction occurs, the system responds by applying the brakes and reducing the throttle to help you keep on track.*

*possible scenario

EVERY DRIVER
LOVES A SHORTCUT.
EXCEPT IN THIS CASE.

The ES offers some of the most advanced safety technology on the road today. From an available lighting system that can help you see through curves to a 10-airbag⁷ system with frontal airbags⁷ that are designed to sense and deploy at different speeds. Highly technical systems which required years of development, to be sure. But, frankly, it wasn't time we were interested in saving.

While the Lexus badge on the front of the ES means a lot to those who drive our vehicles, it can also mean a great deal to those who don't. A radar sensor mounted behind the Lexus badge works with the available Dynamic Radar Cruise Control¹⁴ system and the available Pre-Collision System¹⁵ to constantly monitor and react to vehicles traveling ahead or toward the ES.

SO FOCUSED ON DRIVERS, IT EVEN MONITORS OTHER ONES ON THE ROAD.

An available Dual-swivel Adaptive Front Lighting system can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph.

Available Dynamic Radar Cruise Control¹⁴ uses radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes if necessary.

An available Pre-Collision System¹⁵ can help determine when a frontal collision is unavoidable and automatically retract the driver's seatbelt to help prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

SPECS

DRIVERS VARY. SHOULDN'T THEIR AIRBAGS?

Not every driver—or collision for that matter—is the same. To address these differences, the ES includes 10 airbags.⁷ The front airbags⁷ feature a sophisticated dual-stage airbag⁷ system. Depending on several factors, such as crash severity and driver's seat-track position, the driver's airbag⁷ is designed to deploy at one of three speeds. To view these and the remaining eight airbags⁷ in action, click below.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *ES Warranty and Services Guide* at your Lexus dealer for details.

1. The Navigation System is designed to assist in locating an address or point of interest. XM[®] Radio, XM NavTraffic[®], XM NavWeather[™] and XM[®] Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your *Navigation System Owner's Manual* for further details. **2.** XM NavTraffic and XM NavWeather each require a separate XM subscription. XM Sports and Stocks is available with an XM Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/serviceterms. XM Radio fees, services and programming are subject to change. **3.** Available beginning Fall 2009 on select Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms is available; charges vary by subscription term selected. **4.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **5.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **6.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **7.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **8.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **9.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloia.org. **10.** Mark Levinson[®] is a registered trademark of Harman International Industries, Inc. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **12.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **13.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **14.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **15.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **16.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **17.** EPA MPG Estimates. Actual mileage will vary. **18.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **19.** Functioning XM Radio requires a monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions governed by the XM Customer Agreement available at www.xmradio.com/serviceterms. Available only in the 48 contiguous United States and D.C. **20.** iPod[®] is a registered trademark of Apple Inc. All rights reserved. **21.** Bluetooth[®] technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **22.** Bluetooth[®] audio device must be enabled with A2DP and AVRCP. **23.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **24.** Currently available PPO. Ask your Dealer Sales Consultant for vehicle application. **25.** Continuous average power, all channels driven, at less than 01% THD; 20-20,000 Hz. **26.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **27.** The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.

Heated and
ventilated seating

IN THIS CASE, THE SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety: yours. To that end, the ES features available heated and ventilated front seats that can be modified to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And, to ensure your efforts aren't in vain, the Lexus Memory System can recall the driver's (and, should you opt for it, the front-passenger's) settings at the press of a button.

AMENITIES

LUXURY, FROM FLOOR TO CEILING.

Who says that luxury should be limited to traditional areas like dashboards and seating? The ES is the only Lexus to offer the exquisite option of a panorama glass roof. In addition to providing fresh air to the front passengers and natural sunlight to all occupants, its striking exterior glass fits seamlessly into the metal roof frame so no molding is visible. And, should the fresh air entering the cabin threaten to become anything but, the automatic dual-zone climate-control system uses a carbon filter designed to trap everything from odors to pollen to dust.

Available panorama glass roof

WE'VE INVESTED YEARS OF RESEARCH. YOU RECEIVE THE DIVIDENDS.

When it comes to acoustics, the smallest adjustments can have the greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of Thinsulate™ is used to help dampen the sounds of the road below. Relatively minor modifications until you realize there are 112 more examples just like it. And vibrations? The ES has 88 ways to help minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. Why go to such rigorous lengths? The results speak for themselves. Very quietly.

114 points of sound dampening

AUDIO

Good old-fashioned courtesy doesn't need to feel old-fashioned at all. If anything, one of the reasons the ES is so accommodating is precisely because of its state-of-the-art technology. Consider just a few of the thoughtful innovations you'll find inside. Like an available voice-recognition system that responds to casual speech; available XM® Radio^{d,d,d} services that display real-time traffic and weather along your route; and an available all-new GPS service that provides you with live navigation and Emergency Assistance Button (SOS) 24 hours a day.

See disclaimers on page 55.

SAFETY CONNECT™

DESIGNED TO HELP
SAFEGUARD YOUR LIFE.

With Safety Connect^{d,d} you can receive emergency help at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance^d for a flat tire. The Safety Connect^{d,d} service also features Automatic Collision Notification, which instantly sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁸ have been deployed.

LEARN MORE

LEXUS ENFORM™

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

With the available Lexus Enform^{dd} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the ES's available navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.^d Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

THE GOOD NEWS: YOU'LL ARRIVE SOONER. THE BAD NEWS: YOU'LL ARRIVE SOONER.

While you'll never be in a hurry to exit the ES, odds are you'll find yourself in a hurry of some sort. For those unfortunate times, the ES offers performance technology that's up to the task. Its 272-horsepower^d V6 engine gives the ES a 0-60 time of 6.8 seconds.^{d,d} And, its six-speed transmission offers the driver exceptional performance at virtually any speed as well as the ability to manually shift gears for a more engaged driving experience.

- — 3.5-liter V6, 0-60 in 6.8 seconds^{d,d}
- — 272 horsepower,^d 254 lb-ft of torque^d
- — Dual Variable Valve Timing with intelligence (VVT-i)
- — Six-speed sequential-shift Electronically Controlled Transmission with intelligence (ECT-i)
- — Electronic Throttle Control System with intelligence (ETCS-i)

SAFETY

SPECS

EVEN THE ROAD IS
ATTRACTED TO IT.

While we'd love to say emotion is the main reason the road and ES are so inseparable, it's really more a matter of engineering. A uniquely designed rear subframe helps provide improved handling and rigidity. Its front suspension geometry is specifically engineered for greater control and steering feel. And, with traction control technology that can respond to wheel slippage, even rain and snow may not be able to keep the two apart.

AMENITIES

INNOVATION

PERFORMANCE

SAFETY

SPECS

Vehicle Stability Control (VSC)^d uses sensors to identify when there is a loss of traction during cornering.

If a loss of traction occurs, the system responds by applying the brakes and reducing the throttle to help you keep on track.

EVERY DRIVER
LOVES A SHORTCUT.
EXCEPT IN THIS CASE.

The ES offers some of the most advanced safety technology on the road today. From an available lighting system that can help you see through curves to a class-leading 10-airbag^d system with frontal airbags^d that can sense and deploy at different speeds. Highly technical systems which required years of development, to be sure. But, frankly, it wasn't time we were interested in saving.

SAFETY

SPECS

While the Lexus badge on the front of the ES means a lot to those who drive our vehicles, it can also mean a great deal to those who don't. A radar sensor mounted behind the Lexus badge works with the available Dynamic Radar Cruise Control^d system and the available Pre-Collision System^d to constantly monitor and react to vehicles traveling ahead or toward the ES.

SO FOCUSED ON DRIVERS, IT EVEN MONITORS THE OTHER ONES ON THE ROAD.

An available Dual-swivel Adaptive Front Lighting system can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph.

Available Dynamic Radar Cruise Control^d use radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes if necessary.

An available Pre-Collision System^d can determine when a frontal collision is unavoidable and automatically retract the driver's seatbelt to help prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

AMENITIES

INNOVATION

SAFETY

SPECS

DRIVERS VARY. SHOULDN'T THEIR AIRBAGS?

Not every driver—or collision for that matter—is the same. So, to address this glaringly obvious fact, the ES includes a class-leading 10-airbag^d system. The front airbags^d feature a sophisticated dual-stage airbag^d system. Depending on several factors, such as crash severity and driver's seat-track position, the driver's airbag^d is designed to deploy at one of three speeds. To view these and the remaining eight airbags^d in action, click below.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the ES Warranty and Services Guide at your Lexus dealer for details.

1. The Navigation System is designed to assist in locating an address or point of interest. XM® Radio, XM NavTraffic®, XM NavWeather™ and XM® Sports and Stocks require a monthly service fee and hardware. XM NavTraffic is designed to provide real-time traffic or alternative routes of travel; XM NavWeather is designed to provide real-time weather and forecasting information in your general vicinity and along your route of travel. Discrepancies may be encountered between the system and your actual location. Road system and weather changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic Navigation updates available at an additional cost. Please see your Navigation System Owner's Manual for further details. **2.** Functioning XM® Radio requires a compatible receiver and monthly service fee. Please see your Lexus dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com. Available only in the 48 contiguous United States. **3.** XM NavTraffic® and XM NavWeather™ each require a separate XM subscription. XM® Sports and Stocks is available with an XM® Radio subscription. After a 90-day complimentary trial, you must set up the appropriate XM subscription(s) to continue receiving these services. The XM NavTraffic, XM NavWeather and XM Sports and Stocks services are available in the 48 contiguous United States and D.C. For details about the XM service coverage areas, visit www.xmradio.com or call the XM Listener Care Center at 1-877-515-3987. To receive XM NavTraffic, XM NavWeather and XM Sports and Stocks services, XM service must be activated. To activate the service, call the XM Listener Care Center. Subscriptions are governed by the XM Customer Agreement available at xmradio.com/service/terms. XM Radio fees, services and programming are subject to change. **4.** Available beginning Fall 2009 on select Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms is available; charges vary by subscription term selected. **5.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States and Washington, D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **6.** Safety Connect services will function in the United States, including Hawaii and Alaska, and in Canada. The services will not function outside of the United States in countries other than Canada. **7.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Overing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate to decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your Owner's Manual for further information/warnings. **8.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **9.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.lock.org. **10.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **11.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **12.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **13.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. **14.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important instructions and cautions. **15.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your Owner's Manual for further information.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
