# BUILD THE MITSUBISHI THAT'S RIGHT FOR YOU

You can expect the same quality and design in our accessories that you find in every one of our vehicles. Whether your new Mitsubishi will join you in one action-packed road trip after another, or it will safely chauffeur your growing family to school plays and soccer practices, a variety of available accessories, options and custom add-ons allow you to personalize your Mitsubishi to suit your lifestyle.

At Mitsubishi Motors, we believe not all drivers are created equal. So we build our vehicles for a different breed of driver, the fearless ones who take pride in what they drive, and refuse to drive more of the same. It's obvious to us that people who truly want distinctive styling and the latest technology see past the procession of bland imitations. We believe that every vehicle we make should stand for something. Something more than expected. And that's why we don't build Mitsubishi cars for stereotypes. We build them for you.

# **/ CHOOSE ADVENTURE**

There is opportunity for adventure in every day. Maybe you'll pack the car and move to a new state. Maybe you'll simply take a left turn where you normally turn right. Maybe you'll suddenly stop at that ethnic restaurant you pass every day and order randomly off the menu. For those who appreciate the extraordinary in even the most ordinary of days, we build your vehicles. They're vehicles with the performance and style and technology and personality to enable you to fulfill that spirit of adventure. For more than 100 years, Mitsubishi has poured our passion for exploring technology and design into vehicles designed to take you to new places. Safely, reliably and with maximum excitement. Choose the one that best fulfills your own idea of adventure. Then go exploring. And never stop.

# **DRIVE YOUR AMBITION**

# TECHNOLOGY OVERVIEW

## YOUR MOST ADVANCED MOBILE DEVICE MAY BE YOUR CAR

From touch panel ease to hands-free convenience, our forward-thinking vehicles are equipped with some of the most advanced technology anywhere. Available on select models, these features can help you make the most of your drive while not distracting you from the road ahead.

### 01 TOUCH PANEL DISPLAY AUDIO SYSTEM

With a standard 7.0 in. touch panel, this sleek system sports a high-gloss black finish and uses app-like icons for easy navigation. Features include HD Radio® and a rearview camera. And its Bluetooth® wireless system offers phone contact list importing and a phone dial screen.<sup>1</sup>

### 02 SMARTPHONE LINK DISPLAY AUDIO SYSTEM

Our available Smartphone Link Display Audio system helps you maintain caution behind the wheel while enjoying your smartphone's convenience features. This system includes SiriusXM® Satellite Radio<sup>2</sup> and HD Radio® (on select models), and supports Apple CarPlay™ to let you access Apple Music® and Maps, make phone calls and send messages, all through the touch panel or Touchpad Controller (Eclipse Cross). Or you can use your voice, via Siri®<sup>3</sup>. The system also supports Android Auto™. Simply press the Push To Talk button to connect to Google and access all the most commonly used features on the Android™ platform, such as Google Play Music, Google Maps and Hangouts.<sup>4</sup>

### 03 COLOR LCD MULTI-INFORMATION DISPLAY

An easy-to-read trip computer provides you with helpful information like average speed and gas mileage, instant fuel economy, cruising range to empty, outside temperature and even maintenance reminder information. On models equipped with All-Wheel Control (AWC) or Super All-Wheel Control (S-AWC), the display gives performance information such as current road surface mode and real-time torque distribution.

### 04 ROCKFORD FOSGATE® PREMIUM AUDIO SYSTEM

The available 710-watt Rockford Fosgate® audio system powers nine premium speakers, including a 10 in. dual-voice coil subwoofer. The system incorporates an advanced Digital Signal Processor (DSP) and offers sound-field control over the image, staging of the system, adjustment of the subwoofer via Punch Control®, as well as the latest DTS® Neural Surround technology. Other state-of-the-art technologies include Dolby® Volume, PremiDIA HD® and PremiDIA-WIDE® surround, all helping to deliver dynamic audio performance wherever the road takes you.<sup>5</sup>

### 05 BLUETOOTH® WIRELESS TECHNOLOGY

The hands-free Bluetooth® system seamlessly connects your car with your smartphone and most audio-streaming devices, allowing you to wirelessly play music from your media player.<sup>1</sup>

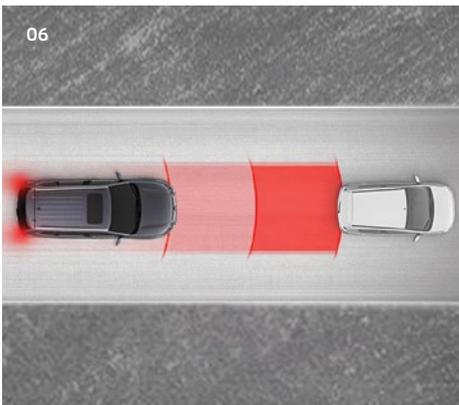

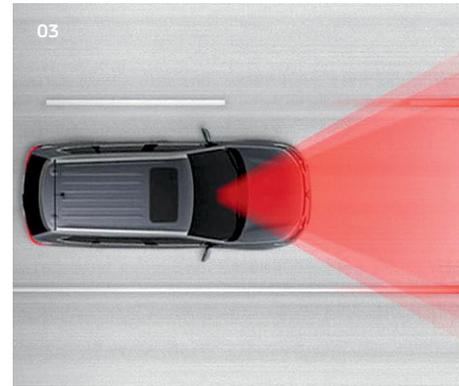

### 06 TOUCHPAD CONTROLLER

Available in the Eclipse Cross, our Touchpad Controller allows for simple tap-and-swipe operation of the Smartphone Link Thin-Display Audio system and functions of Apple CarPlay™.<sup>3</sup> Located in the center console within easy reach, this advanced feature plays an important role in minimizing driver distraction.

### 07 HEAD UP DISPLAY (HUD)

The power-retractable, full-color Head Up Display (HUD) available in the Eclipse Cross helps make driving safer by presenting vehicle speed, data from the active safety systems, and other necessary information close to your line of sight. It keeps you informed, while letting you keep your eyes on the road.

# SAFETY OVERVIEW

## SAFETY IS NO ACCIDENT

Your safety is our top priority. So we equip our vehicles with a truly comprehensive array of active and passive safety features. And on select models, you'll find some of the most advanced safety features ever developed. We want you and everyone else you share the road with to get wherever you're heading safely.

### 01 AUTOMATIC HIGH BEAM HEADLIGHTS

To increase your visibility during nighttime driving, available Automatic High Beam (AHB) headlights<sup>6</sup> sense the intensity of proximate light sources and automatically adjust between low beam headlights and high beam headlights. If a vehicle is detected ahead of you, the headlights remain in low beams, and if no vehicles are detected ahead of you, the headlights switch to high beams.

### 02 SUPER ALL-WHEEL CONTROL

With a long history of all-wheel drive systems, our road-handling credentials are legendary. The Super All-Wheel Control (S-AWC) available on Outlander, Outlander PHEV and Eclipse Cross is an integration of several advanced technologies that combine to take full advantage of the engine's power. With the push of a button, the driver can select from multiple S-AWC modes to achieve maximum traction, regardless of surface conditions.

### 03 LANE DEPARTURE WARNING

The available Lane Departure Warning (LDW) feature helps reduce the potential dangers associated with drifting out of your lane. If the system senses your vehicle departing from its established lane, the system warns you with both a display and an audible alert.<sup>7</sup>

### 04 BLIND SPOT WARNING WITH LANE CHANGE ASSIST AND REAR CROSS TRAFFIC ALERT

These three active safety features help keep you out of harm's way. Blind Spot Warning (BSW) uses radar to help monitor hard-to-see areas behind your vehicle.<sup>8</sup> If a vehicle enters your driver-side or passenger-side blind spot, an indicator lights up in the corresponding side view mirror. Should you signal a lane change while the other vehicle is still there, the system flashes the indicator light and sounds an audible alert.

Lane Change Assist helps you safely enter an adjacent lane by measuring how quickly vehicles in that lane are approaching.<sup>9</sup> If it's not safe for you to change lanes or merge, it issues both an audible alert and a visual warning in the side view mirror.

Rear Cross-Traffic Alert (RCTA) helps you safely back out of a parking space.<sup>10</sup> When you're in reverse, the system can detect traffic approaching the rear of your vehicle from the driver's or passenger's side. If the system senses cross traffic, it flashes side-mirror indicators and sounds an audible alert.

### 05 MULTI-VIEW CAMERA SYSTEM

This available feature displays what's seen by cameras mounted on the front, rear and sides of the vehicle. Views from multiple angles, including a bird's-eye view, can be shown in various combinations on the Outlander, Outlander PHEV and Eclipse Cross audio display screens, showing you what's in your blind spots and helping you park more safely.<sup>11</sup>

### 06 FORWARD COLLISION MITIGATION

The available Forward Collision Mitigation (FCM) system utilizes both laser radar and camera technology to determine if a frontal collision with a vehicle or pedestrian is imminent. If so, it warns the driver with audible and visual alerts, and automatically applies moderate to emergency braking to help reduce the severity of the collision and, if possible, avoid it.<sup>12</sup>

# ECLIPSE CROSS

## THE IDEAL BLEND OF RUGGEDNESS AND REFINEMENT

The 2019 Eclipse Cross is a sight not soon forgotten. Its adventure-ready physique and polished coupe-style lines unite to create one of our most revolutionary vehicles to date. The ultimate celebration of our signature dynamic crossover form, the Eclipse Cross is distinguished by its wedge profile, accentuated beltline and sharp character lines. It features a forward-raked rear window, sharply truncated liftgate, short overhang and muscular fenders. It's available with our highly touted Super All-Wheel Control (S-AWC). Its rigid chassis and optimized suspension provide precision handling and enhanced vehicle stability. And inside, the Eclipse Cross can be equipped with our Touchpad Controller, Smartphone Link Thin-Display Audio system and Head Up Display (HUD). Are you ready to go? The Eclipse Cross is.

## POWER AND CONTROL

Our legendary 4WD system is incorporated into the Eclipse Cross, allowing the optimum amount of torque to reach all four wheels. S-AWC incorporates brake-activated Active Yaw Control (AYC), and the increased body rigidity is made possible by the front 3-point strut tower brace, along with the strategic use of structural bonding. The 1.5L direct-injection, turbocharged gasoline engine is mated to a CVT with shift control and 8-speed Sport Mode.

## INTERIOR CONVENIENCE FEATURES

Inside, the Eclipse Cross can be fitted with our Touchpad Controller, Smartphone Link Thin-Display Audio system and Head Up Display (HUD). The Touchpad Controller is conveniently located in the center console and lets you operate the Smartphone Link Thin-Display Audio system, as well as other features. The Head Up Display (HUD) makes for a safer drive by presenting vehicle speed, data from the active safety systems, and other necessary information on a display that lets you keep your head up and your eyes on the road.

## MITSUBISHI CONNECT

MITSUBISHI CONNECT is a group of innovative services for your driving safety and convenience. Available with a two-year trial subscription in SE and SEL models, Safeguard Services and Remote Services can be accessed through on-board buttons and the MITSUBISHI CONNECT app.

As awarded by The Chicago Athenaeum  
Museum of Architecture and Design

Eclipse Cross SEL in Red Diamond

Outlander GT in Labrador Black Metallic

# OUTLANDER

## GET INTO ONE AND GO

With a price point that makes it easier to get into, the 2019 Outlander comes loaded with standard safety and convenience features. From the 7.0 in. Touch Panel Display Audio system with rearview camera (standard on the ES) and Smartphone Link Display Audio system (standard on SE, SEL and GT trims), to its eye-catching exterior and array of state-of-the-art technology, the 2019 Outlander is the embodiment of our commitment to quality and tradition of innovation. And with new styling, front and rear suspension tuning, a new quick steering gear ratio, improved cabin rigidity and improved front seat support bolsters, every ride will be as comfortable as it is thrilling.

## THIRD-ROW SEAT VERSATILITY

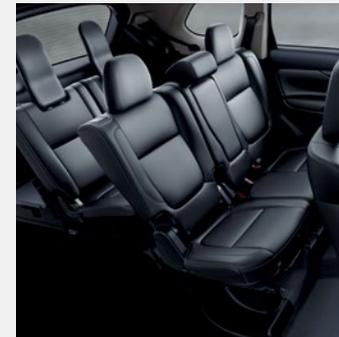

The standard third-row seats enhance not only vehicle occupancy, but also versatility. They're split 50/50 and can be easily stowed with the pull of a single fold-and-store strap, or quickly returned to their upright position by raising the seatback. And the 60/40 split and fold-down second-row seat gives you plenty of options for people and payloads.

## IIHS TOP SAFETY PICK\*

Outlander offers a long list of available advanced safety technologies. The Adaptive Cruise Control (ACC) system uses radar to help maintain a preset distance between you and the car ahead.<sup>13</sup> The available Forward Collision Mitigation (FCM) system utilizes both laser radar and camera technology to determine if a frontal collision with a vehicle or pedestrian is imminent. If so, it warns the driver with audible and visual signals, and automatically applies moderate to emergency braking to reduce the severity of the collision and, if possible, avoid a collision.<sup>12</sup> Adding to your confidence behind the wheel is a Lane Departure Warning (LDW) system.<sup>7</sup> It monitors the lane position in front of your vehicle with a camera, alerting you with both a display and an audible warning if your vehicle begins drifting from its established lane. There's also a Blind Spot Warning (BSW) system with Lane Change Assist and Rear Cross Traffic Alert (RCTA).<sup>8,9,10</sup> Whether you're driving straight, changing lanes or backing out of a parking space, these features continually monitor your proximity to approaching vehicles. And standard on every Outlander is a rearview camera, which displays an image of the area directly behind the vehicle.

\*Based on IIHS ratings for 2018 Outlander with optional equipment.

Outlander Sport GT in Octane Blue Metallic

# OUTLANDER SPORT

## ADVENTURING MADE SAFER

With its dynamic exterior and advanced features, the 2019 Outlander Sport is ready to take you to your next big adventure in style. And not only in style, but also in safety. The 2019 Outlander Sport adds safety features that include a Blind Spot Warning (BSW) system with Lane Change Assist and Rear Cross Traffic Alert (RCTA).<sup>8,9,10</sup> Whether your journey takes you across the country or across town, you'll travel relaxed and ready for fun.

## FORWARD COLLISION MITIGATION

We want you to be safe out there. The available Forward Collision Mitigation (FCM) with pedestrian detection utilizes both laser radar and camera technology to determine if a frontal collision with a vehicle or pedestrian is imminent, then warns you with audible and visual signals and automatically applies moderate to emergency braking to help reduce the severity of the collision, or if possible, avoid it altogether.<sup>12</sup>

## LANE DEPARTURE WARNING

Outlander Sport's available Lane Departure Warning (LDW) feature helps reduce the potential dangers associated with drifting out of your lane, warning you with both a display and an audible signal if the system senses your vehicle departing from its established lane.<sup>7</sup>

## MORE SAFETY FEATURES

A Blind Spot Warning (BSW) system with Lane Change Assist and Rear Cross Traffic Alert (RCTA)<sup>8,9,10</sup> helps keep an eye out. Whether you're driving straight, changing lanes or backing up, these features continually monitor your proximity to approaching vehicles. And a rearview camera, which displays an image of the area directly behind the vehicle, is standard on every Outlander Sport.

European Model Shown

# OUTLANDER PHEV

## THE BEST OF BOTH WORLDS

The Outlander PHEV is everything you love about a CUV, and more. It offers versatile driving dynamics made possible by the Super All-Wheel Control (S-AWC) high-performance twin-electric motor 4WD system, and can operate in any of three driving modes: EV, Series Hybrid or Parallel Hybrid. Thanks to its plug-in capability, Outlander PHEV can handle most local trips on electricity alone. But it can also operate as a regular hybrid, utilizing its gas engine and electric motors to provide more range and less anxiety than a pure electric vehicle offers. You can go anywhere on a whim, without having to compromise on power or worry about environmental impact. And its premium interior appointments mean everywhere you go, you'll go in style.

## CUV PRACTICALITY

The Outlander PHEV delivers the versatility you'd expect in a CUV. It offers five-passenger seating, 60/40 split fold-down rear seats and up to 78.0 cubic feet of cargo space. All in a sophisticated, premium interior that enhances every endeavor.

Standard on the Outlander PHEV, Mitsubishi's legendary Super All-Wheel Control (S-AWC) provides excellent driving stability and intuitive, linear handling. S-AWC incorporates a full-time, twin-electric motor 4WD system that provides quick and optimized torque distribution.

And with a maximum towing capacity of 1,500 pounds, the Outlander PHEV has the capability to get you and all your gear to your next great adventure.

## CHARGING OPTIONS

There are three ways to charge the Outlander PHEV and get it ready for its next outing. The Level 1 option allows you to fully charge the vehicle by simply plugging the included 8A/12A switchable charging cable into a standard 120V outlet, like one you'd find at home. Level 2 lets you plug into a public SAE J1772 charging station, or you can have a 240V charging station installed at your home. Level 3 is the DC Fast Charging system for rapid charging.

Outlander PHEV in Pearl White

# MIRAGE G4

## FUN AND ECO-FRIENDLY, JUST LIKE YOU

The Mirage G4 is a subcompact, four-door sedan designed for those who'd rather go first and plan later. It's always up for a late-night burger run, a last-minute road trip, or even just a day of running errands with the stereo blasting. Offering one of the best fuel economy ratings in its class and one of the best CO<sub>2</sub> emissions ratings in its class, it not only saves you at the pump, it also does its part to keep the world green.<sup>14,15</sup> With available amenities such as Smartphone Link Display Audio system and with room to comfortably seat five, the Mirage G4 is as ready for fun as you are.

## INTERIOR SPACE

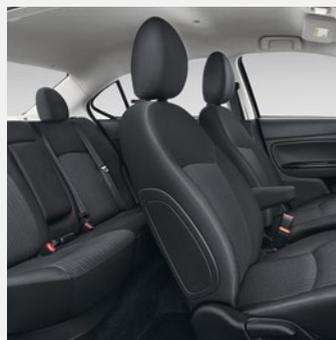

While it may be a subcompact car, the 2019 Mirage G4 has interior space for five adults. In fact, you and your friends will enjoy a full 101.8 cubic feet of interior space. And if the five of you are hitting the road in search of your next epic experience, you'll find there's plenty of room in the trunk for your luggage.

## IMPRESSIVE LEGROOM

The Mirage G4 doesn't merely accommodate five adults. It does so with class-leading total legroom and class-leading rear seat legroom.<sup>15</sup> Feel free to invite along friends over 5 feet tall.

## AN UPGRADED EXPERIENCE

Technology upgrades make the Mirage G4 a fun experience before your journey even begins. An available FAST-Key (Freehand Advanced Security Transmitter) feature lets you unlock the driver's door while the keys remain in your pocket or purse, then also start the engine with the push of a button. And the available Smartphone Link Display system feature supports Apple CarPlay™ and Android Auto™, which allows you to maintain caution behind the wheel, while still enjoying your smartphone's convenience features.<sup>3,4</sup>

Mirage G4 SE in Mercury Gray Metallic

Mirage GT in Pearl White

# MIRAGE

## NO DESTINATION IS OUT OF REACH

Delivering up to a remarkable 43 mpg highway (39 mpg combined), the 2019 Mirage gives you class-leading fuel efficiency.<sup>16,19</sup> Compact and nimble, the 2019 Mirage is ideal for whatever the day holds, whether work or errands or a day off from everything. Though compact outside, inside it offers comfortable seating for up to five adults. And with available features such as FAST-Key passive entry with push button start, Smartphone Link Display Audio system and automatic climate control, it's surprisingly well-appointed. Factor in the 10-year/100,000-mile Powertrain Limited Warranty, and it's easy to see that this Mirage is one of the best-value vehicles around.

## STANDARD TECHNOLOGY

The standard rearview camera helps you view the area directly behind your vehicle on the audio display screen, improving safety. And to help you concentrate on the road that lies before you, the standard Bluetooth® wireless technology allows you to talk hands-free and to play music from your Bluetooth-enabled phone and most audio-streaming devices.<sup>1</sup>

## STANDARD EXTERIOR FEATURES

Mirage's standard LED taillights not only look sharp, they also light up faster, are more visible both day and night, and last longer than their conventional counterparts. And absolutely, the standard rear spoiler looks cool, but it also enhances aerodynamic performance by reducing air turbulence behind the vehicle.

## STEP OUT IN STYLE

The 2019 Mirage features an available new LE trim level that enhances every trip. Interior appointments include a Smartphone Link Display system with Apple CarPlay™ and Android Auto,™ red accent seat fabric, a leather-wrapped steering wheel and shift knob with red stitching, and heated front seats.<sup>3,4</sup> The exterior is dressed up as well, with black side mirrors and 15 in. black alloy wheels.

# MODEL LINEUP

## VEHICLES BUILT WITH YOU IN MIND

One look at the Mitsubishi model lineup and it's immediately clear how truly unique each vehicle is. Just like you.

There's the comfort and versatility of the Outlander, the fun and adventure of the Outlander Sport, and the style and efficiency of the Mirage and Mirage G4 sedans. And with the revolutionary eco-conscious Outlander PHEV and the up-for-ananything Eclipse Cross, there's a vehicle ready and willing to take you on your ideal adventure.

Since the day we sold our first U.S. vehicle in 1982, we've been committed to continually improving our design and technology, to offer our customers a unique selection of style, features, durability and performance. And it's all backed by some of the most comprehensive warranties in the industry.

Our vehicles are more than a means of transportation. They're a rolling tribute to the driver within. They're an outward expression of your inner love for the road. And they're the keys to allowing you to drive your ambition, whatever that may be, and wherever that may take you.

Colors may vary due to the printing process. Exterior and interior lights on vehicles shown may be illuminated for illustration purposes only. Vehicles are shown with optional equipment. Not all equipment is available on every model. For more complete details about equipment configuration and Mitsubishi Genuine Accessories, please contact your Mitsubishi Retailer. Log on to our website and browse our full lineup of new vehicles, get MSRP and customer rebate information, and "build" the Mitsubishi that's right for you. The site can help you locate your nearest dealer -- or even have a dealer contact you.

#### FOOTNOTES (CONTINUED)

- Google, Android, Android Auto, Google Play, and other marks are trademarks of Google Inc. To use Android Auto on your phone screen, you'll need an Android phone running 5.0 (Lollipop) or higher and the Android Auto app.
- ©2018 Rockford Corporation. All Rights Reserved. ROCKFORD FOSGATE, PUNCH and associated logos where applicable are registered trademarks of Rockford Corporation in the United States and/or other countries. Specifications subject to change without notice.
- The Automatic High Beam (AHB) headlights system is a driver aid only. Factors such as a dirty windshield, variable weather, changing light conditions, or hilly terrain may also affect system performance.
- The Lane Departure Warning (LDW) system is designed to read the lane marks under certain conditions. It is not a collision avoidance system and is not a substitute for safe and careful driving.
- The Blind Spot Warning (BSW) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly.
- The Lane Change Assist system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly.
- The Rear Cross Traffic Alert (RCTA) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly.
- The Multi-View Camera system is a driver aid only and is not a substitute for visual confirmation. The view on the screen is limited and objects outside that view will not be seen.
- The Forward Collision Mitigation (FCM)/Pedestrian Detection (PD) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, the system may not detect other vehicles and/or pedestrians correctly.
- The Adaptive Cruise Control System is not a collision avoidance system or an automatic driving system. It is designed to use only limited braking and is never a substitute for safe and careful driving. Never rely solely on the Adaptive Cruise Control system.
- Claim based on EPA estimated combined mileage of 37 mpg (Mirage G4). EPA estimates are to be used as a standardized comparison with other vehicles. Your actual mileage will vary depending on how you drive and maintain your vehicle.
- Claim based on EPA.gov site CHG rating MY 2018-2019.
- 39 mpg combined (37/43 city/hwy) CVT-equipped model. Actual mileage may vary.
- Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always wear your seat belt, sit upright in the middle of the seat, and do not lean against the door. Always place children 12 and under in the rear seat and use appropriate child restraints. Never place a rear-facing infant restraint in the front seat. See your owner's manual and instructions provided with your child restraint for additional information.
- Based on EPA highway mileage rating. Actual mileage may vary.
