SPECIFICATION

Page 24

With its striking lines, muscular shoulders and tapered roof, Range Rover Evoque sets itself apart from its contemporaries. Whether discovering hidden parts of town or being seen in all the right places, it's always ready for action.

The profile of a Range Rover Evoque Coupe is as dynamic and athletic as the drive itself. With Land Rover capability at its heart, the vehicle is designed to tackle all terrains with ease, be it cobbled streets, snowy roads or rocky tracks.

Xenon lighting with LED signature blazes a clear trail in all conditions and add to the vehicle's dramatic presence and look. Its sleek wing mirrors feature hidden side indicators.

The available full-size panoramic roof lets light flood into the cabin and allows everybody inside to experience everything outside. The rear bench seat has ample space for three adults, ensuring the city is always fun to explore.

The five-door Range Rover Evoque, with the same athletic design and with unparalleled accessibility, has all the form and capability of the Coupe but in a design to match your needs. It combines extra versatility and practicality for city life while remaining true to the original concept.

Range Rover Evoque was born to live. The Adaptive Dynamics system* monitors your driving style 1,000 times per second to give a smoother ride no matter what the occasion.** Nine-speed automatic transmission delivers greater control.

*Available on Dynamic only.

**These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown right is Dynamic with Black Design Pack in Kaikoura Stone with optional Contrast Roof.

The signature Land Rover sports Command Driving Position* ensures you benefit from a greater view of the road ahead. So whatever the city throws at you, you're in the right place to tackle it with confidence.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown left is Dynamic with Black Design Pack in Kaikoura Stone with optional Contrast Roof.

Mood lighting adds to the distinct ambiance, with a choice of five colors and a variety of brightness settings. No matter what the light is outside, it's always as you like it inside.

Surround yourself in contemporary, award-winning design. The quality of the materials is emphasized by the clean treatment of the interior surfaces: Range Rover Evoque features twin-stitch leather and highly finished dials, together with a range of finishers and special details to help create your own individual space.

More than just a pretty face, Range Rover Evoque features a suite of up-to-the-minute technologies such as Meridian™ Surround Sound System and Hard Disk Drive navigation.* Don't simply explore with confidence, stay entertained.

Vehicle shown right is Dynamic Coupe in Firenze Red with optional Contrast Roof.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

While the vehicle makes a big impact in the city, the impact on the planet is minimized. With 35lbs of recycled plastic and 46lbs of renewable and natural materials in each car, it's taking big steps to reduce its environmental footprint.

Lightweight four-cylinder turbocharged engines offer improved fuel efficiency. Range Rover Evoque. It's the Land Rover vehicle created for urban living.

NOW IT'S TIME TO CHOOSE...

Range Rover Evoque offers you great options and flexibility to personalize your vehicle. The following pages take you through a logical series of steps to make it a true expression of your individuality. You have several choices: from selecting your model to exterior and interior colors, wheels, finishes and those detailed touches that define your style.

If you'd like to bring your options to life, go to our online configurator at LandRoverUSA.com

■ Standard – Not Available as standard.

(1) These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details (2) Not available with Lane Departure Warning or Traffic Sign Recognition (3) Only available with three seat bench (4) Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat (5) Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones, and other devices, even with voice commands, when it is safe to do so.

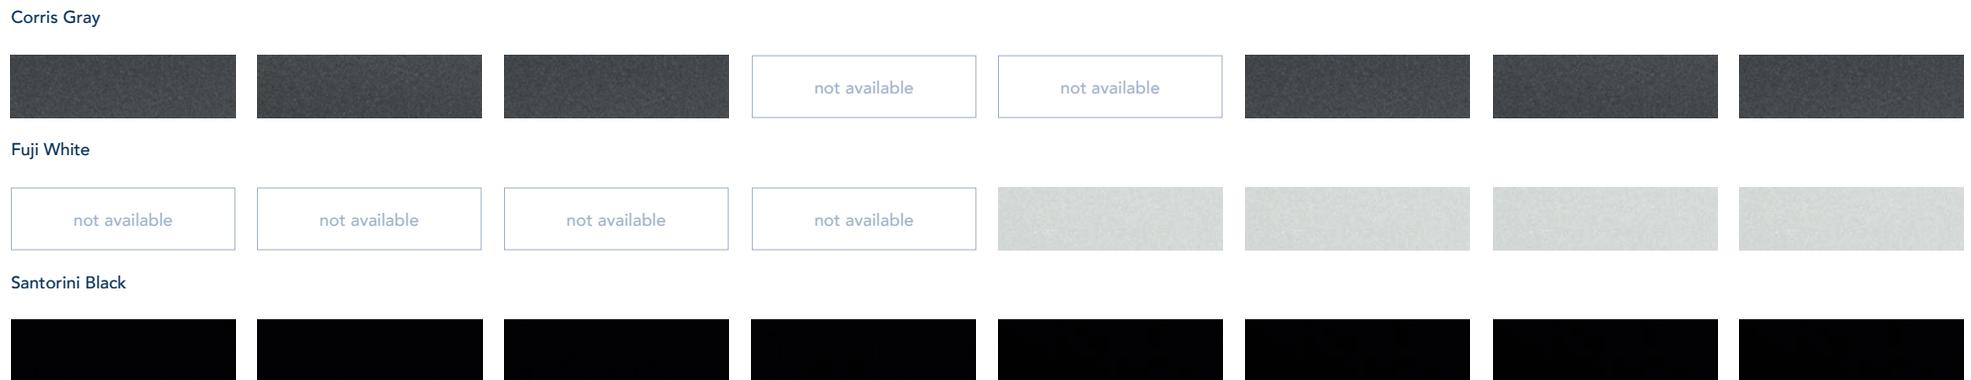

The Bluetooth® word mark and logo are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

STEP 4 YOUR INTERIOR

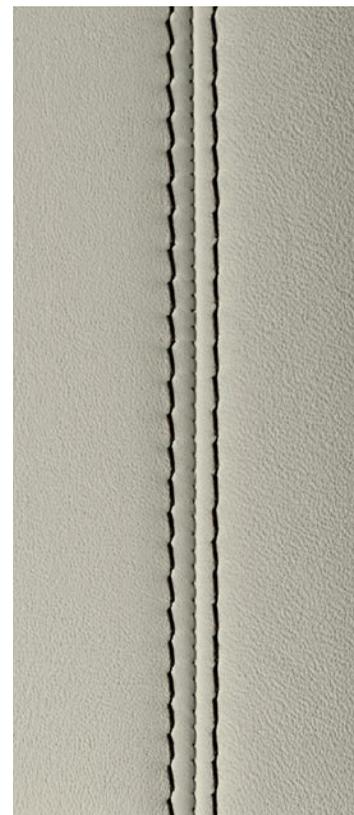

PARTIAL GRAINED LEATHER

FULL GRAINED LEATHER

OXFORD LEATHER

The contemporary interior combines sophisticated finishers, real metallic trims and distinctive colorways for a fresh, modern look and feel. And you can choose from a choice of partial or full Grained leather seats or the luxury of Oxford leather. Details include twin-needle stitching, where even the length and direction, thread color and strength are considered.

STEP 4 YOUR INTERIOR – TRIM FINISHER

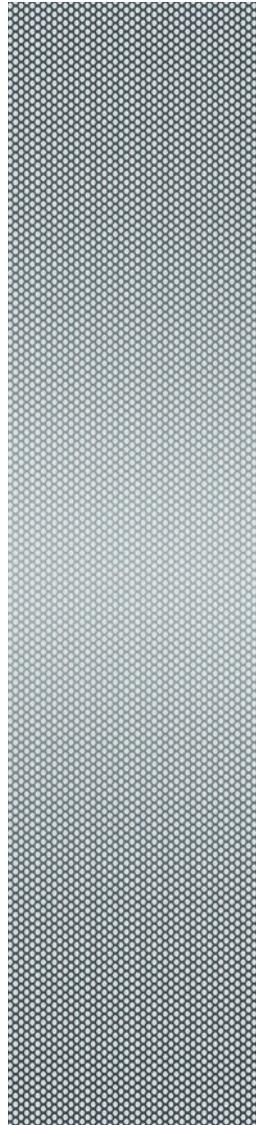

The softest of leathers, the most meticulous of finishes

The interior is upholstered with quality leather. The warmth of wood veneers, superb metal finishes and soft leathers combine to create a sense of home. The attention to detail is everywhere you look and in everything you touch. The type of leather is determined by model choice as outlined in the following pages.

**Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones, and other devices, even with voice commands, when it is safe to do so.

(4) Requires HDD Navigation System.

KEY FEATURES

The features described on the following pages are available as standard or optional equipment depending upon model chosen.

Blind Spot Monitor with Closing Vehicle Sensing*

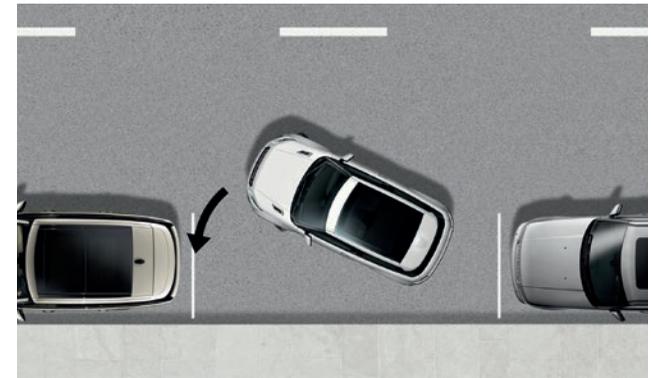

These optional systems are designed to see what you might miss. Using discrete sensors hidden in the side and the rear bumpers, Blind Spot Monitoring alerts you via an icon displayed in the appropriate door mirror when a vehicle enters a blind spot on either side of your vehicle.

If a vehicle approaches at speed from behind when changing lanes, the Closing Vehicle Sensing function will alert you to the potential dangers by flashing the icon in the door mirror.

Active Driveline

The standard Active Driveline delivers benefits in both on and off-road situations. In many on-road driving conditions, the system is able to disconnect drive to the rear of the vehicle. A sophisticated control strategy continuously monitors key vehicle and environmental parameters. If the requirements for four-wheel drive are met, the system seamlessly and imperceptibly reconnects the four-wheel drive system within 300 milliseconds.

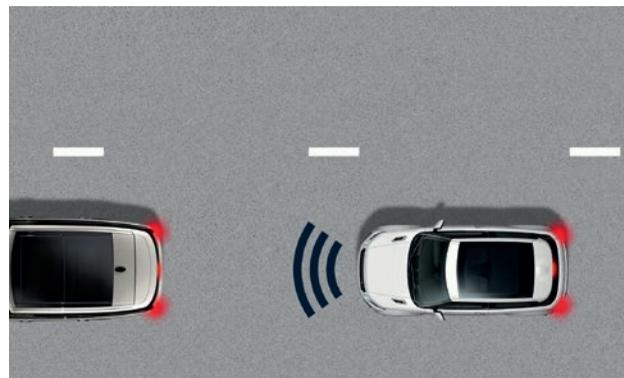

Advanced Parallel Park Assist with Park Exit*

Optional Parallel Park identifies suitable parking spaces and automatically steers into the space while you operate the pedals. Parking exit provides the same assistance to maneuver out of the space.

Nine-speed Automatic Transmission

Range Rover Evoque now features a nine-speed automatic transmission, 16.6lbs lighter than the previous six-speed model. Depending on driving style you could see improvements in both fuel economy and CO₂ emissions as well as greater control in low-grip conditions or when towing through the specially-designed, ultra-low first gear.

Adaptive Cruise Control**

Adaptive Cruise Control (ACC) is a radar based cruise control system that helps maintain a pre-set gap from the vehicle in front, even if it changes speed. Discretely mounted behind the front grille, it detects and monitors the vehicle in front and sets the most appropriate speed. Queue Assist adds to ACC functionality by ensuring the vehicle comes to a halt when it reaches traffic. Intelligent Emergency Braking uses radar to detect vehicles travelling in the same direction and is designed to reduce impact speed if it calculates that a frontal collision is unavoidable.*

InControl Apps*

Land Rover InControl™ Apps enables you the option to use vehicle optimized smartphone apps on the vehicles touch-screen. Using the InControl Apps USB port you can enjoy a variety of vehicle optimized apps such as: Contacts, Calendar and Music Player, with more third party vehicle optimized apps being released over time. Your smartphone will also be re-charged while using InControl Apps.

Vehicle shown left is Prestige in Fuji White.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **When Adaptive Cruise Control is specified, the grille is always painted Santorini Black regardless of other trims.

Visit LandRoverUSA.com for more information.

KEY FEATURES

The features described on the following pages are available as standard or optional equipment depending upon model chosen.

Interior Mood Lighting

With five colors and several brightness configurations to choose from, you can now select the interior lighting to suit your mood and create the perfect atmosphere.

Surround Camera System*

Using five digital cameras mounted around the vehicle, this optional system provides an all-round view of your surroundings on the full-color Touch-screen, assisting in tight maneuvering. When towing, it provides additional information to aid with reversing.

Audio

The Meridian™ Audio System delivers superb acoustics and is noted for its excellent reproduction quality from all sources – radio, CD, iPod® or USB. The optional Meridian™ Surround Sound System features 825W 17 speakers including a subwoofer for full surround sound.

Climate Front Seats

For the ultimate comfort whatever the temperature, Climate Front Seats are now standard on Prestige models. This feature provides both heated and cooled ventilation through perforations in the Oxford leather seats. Driver and passenger preferences can be independently controlled via the Touch-screen.

Rear Heated Seats

Heated rear seats are available on Range Rover Evoque. Available with both the bench seat (outer seats heated) and the twin rear seats on Coupe, the system has three heating levels that can be set via switches on the rear of the center console.

Sliding Center Armrest

A sliding armrest improves comfort in the front of the vehicle and is now specified on all models. Beautifully finished and made from high quality materials to match the individual interior theme, the armrest slides forward 5.9 inches while still providing access to the front cup holder.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.
